popularization of such exotic religious resources as yoga and meditation Shamanism Buddhism Sufism and Kabbalah Vronique Altglas shows that these trends inform us about how religious resources are disseminated globally as well as how the self is constructed in society She uses two case studies the Hindu based movements in France and Britain that started in the 1970s and the Kabbalah Centre in France Britain Brazil and Israel She draws upon major qualitative and cross cultural empirical investigations to conceptualize religious exoticism and offer a nuanced and original understanding of its contemporary significance From Yoga to Kabbalah broadens scholarly understanding of the globalization of religion how religions are modified through cultural encounters and of religious life in neoliberal societies

Metaphysics and the New Age Peter Daley, 2009-08-10 This work describes the dangers faced in the last half of the 20th century and the ways by which we were able to survive attacks from Outer Space and from Hell itself which could have entered the physical world at one stage The rest of the book contains details of Occultism and Mysticism which challenge the veracity of Church dogma which has denied and suppressed as heresy for 2000 years In these days we face a challenge unprecedented in human history Things are changing as the spiritualisation of the Earth proceeds at an increasing rate There will be no overt assistance from the planets until the atomic bombs are dismantled Meanwhile subtle means are deployed which can be related but which require sacrifices from those who have reached a higher level of evolution The material world is a shadow a reflection of inner worlds As its prisoners we do not know we are confined but there are ways of perceiving some facets of TRUTH which is STRANGER THAN FICTION
