Self-Awareness and Alterity

A Phenomenological
Investigation

A New Edition

DAN ZAHAVI

Self Awareness And Alterity

Anthony J. Steinbock

Self Awareness And Alterity:

Self-Awareness and Alterity Dan Zahavi, 2020-07-15 In the rigorous and highly original *Self Awareness and Alterity* Dan Zahavi provides a sustained argument that phenomenology especially in its Husserlian version can make a decisive contribution to discussions of self awareness Engaging with debates within both analytic philosophy Elizabeth Anscombe John Perry Sydney Shoemaker Hector Neri Castañeda David Rosenthal and contemporary German philosophy Dieter Henrich Manfred Frank Ernst Tugendhat Zahavi argues that the phenomenological tradition has much more to offer when it comes to the problem of self awareness than is normally assumed As a contribution to the current philosophical debate concerning self awareness the book presents a comprehensive reconstruction of Husserl's theory of pre reflective self awareness thereby criticizing a number of prevalent interpretations In addition Zahavi also offers a systematic discussion of a number of phenomenological insights related to the issue of self awareness including analyses of the temporal intentional reflexive bodily and social nature of the self The new edition of this prize winning book has been updated and revised and all quotations have been translated into English It also contains a new preface in which Zahavi traces the developments of the debates around self awareness over the last twenty years and situates this book in the context of his subsequent work

Heidegger's Being and Time Richard Polt, 2005-09-15 Heidegger's *Being and Time* Critical Essays provides a variety of recent studies of Heidegger's most important work Twelve prominent scholars representing diverse nationalities generations and interpretive approaches deal with general methodological and ontological questions particular issues in Heidegger's text and the relation between Being and Time and Heidegger's later thought All of the essays presented in this volume were never before available in an English language anthology Two of the essays have never before been published in any language Dreyfus and Guignon three of the essays have never been published in English before Grondin Kisiel and Thom and two of the essays provide previews of works in progress by major scholars Dreyfus and Kisiel *Self-Awareness, Temporality, and Alterity* D. Zahavi, 2013-03-14 Focusing on the topics of self awareness temporality and alterity this anthology contains contributions by prominent phenomenologists from Germany Belgium France Japan USA Canada and Denmark all addressing questions very much in the center of current phenomenological debate What is the relation between the self and the Other How are self awareness and intentionality intertwined To what extent do the temporality and corporeality of subjectivity contain a dimension of alterity How should one account for the intersubjectivity interculturality and historicity of the subject These questions are not only of relevance for phenomenologists but for anybody coming from disciplines influenced by phenomenological methodology such as sociology psychology psychiatry and anthropology **Self and Other** Dan Zahavi, 2014 Dan Zahavi engages with classical phenomenology philosophy of mind and a range of empirical disciplines to explore the nature of selfhood He argues that the most fundamental level of selfhood is not socially constructed or dependent upon others but accepts that certain dimensions of the self and types of self experience are other mediated **Edmund**

Husserl: The nexus of phenomena : intentionality, perception, and temporality Rudolf Bernet, Donn Welton, Gina Zavota, 2005 This collection makes available in one place the very best essays on the founding father of phenomenology reprinting key writings on Husserl's thought from the past seventy years It draws together a range of writings many otherwise inaccessible that have been recognized as seminal contributions not only to an understanding of this great philosopher but also to the development of his phenomenology The four volumes are arranged as follows Volume I Classic essays from Husserl's assistants students and earlier interlocutors Including a selection of papers from such figures as Heidegger Merleau Ponty Sartre Ricoeur and Levinas Volume II Classic commentaries on Husserl's published works Covering the Logical Investigations Ideas I Phenomenology of Internal Time Consciousness and Formal and Transcendental Logic Volumes III and IV Papers concentrating on particular aspects of Husserl's theory including Husserl's account of mathematics and logic his theory of science the nature of phenomenological reduction his account of perception and language the theory of space and time his phenomenology of imagination and empathy the concept of the life world and his epistemology

Phenomenology and Embodiment Joona Taipale, 2014-02-28 At the dawn of the modern era philosophers reinterpreted their subject as the study of consciousness pushing the body to the margins of philosophy With the arrival of Husserlian thought in the late nineteenth century the body was once again understood to be part of the transcendental field And yet despite the enormous influence of Husserl's phenomenology the role of embodiment in the broader philosophical landscape remains largely unresolved In his ambitious debut book *Phenomenology and Embodiment* Joona Taipale tackles the Husserlian concept also engaging the thought of Maurice Merleau Ponty Jean Paul Sartre and Michel Henry with a comprehensive and systematic phenomenological investigation into the role of embodiment in the constitution of self awareness intersubjectivity and objective reality In doing so he contributes a detailed clarification of the fundamental constitutive role of embodiment in the basic relations of subjectivity

The Routledge Handbook of Bodily Awareness Adrian J.T. Alsmith, Matthew R. Longo, 2022-11-30 Bodily awareness is one of the most interesting and enigmatic forms of experience Our earliest and most pervasive form of conscious experience it also arguably remains the most private Bodily awareness has also long played a central role in the study of the mind and self consciousness and is fundamental to much current philosophical and psychological research The Routledge Handbook of Bodily Awareness is an outstanding reference source to this fascinating subject Comprising over thirty chapters by an international team of contributors the Handbook is divided into seven parts Epistemology and Metaphysics Historical Issues Body Representation Sensing the Body Dynamics Pathology Interaction Within these sections specific topics covered include bodily ownership personal identity self consciousness body modelling in robot design body illusions touch proprioception phantom limb syndrome pain eating disorders out of body experiences and virtual reality The handbook features specially commissioned contributions from researchers in a wide array of disciplines whilst being accessible to readers with any disciplinary background It also includes

an interdisciplinary introduction written by the editors tying together the central themes with particular attention to the interaction between conceptual technological and empirical issues The Routledge Handbook of Bodily Awareness will be of great interest to those in a wide variety of philosophical subdisciplines as well as those in psychology cognitive science sociology and related subjects The New Husserl Donn Welton, 2003-08-21 The recent first time publication of works from Edmund Husserl's later years especially his Freiburg period combined with new studies of his method and theories has stimulated a remarkable shift in perceptions of the scope and significance of Husserl's transcendental phenomenology Informed by a deep reading of not just the works published during Husserl's lifetime but also the countless lectures and manuscripts he wrote in his later years the essays in *The New Husserl* provide an alternative approach to Husserl by examining his work and his method as a whole and by probing issues old and new that occupied him during this exceptionally productive period The noted Husserl specialist Klaus Held opens the book with two essays published here in English for the first time that provide an insightful and lucid introduction to Husserl's central texts Other prominent Husserl scholars treat his most important and lasting contributions to philosophy such as the concept of intentionality the theory of types time consciousness consciousness and subjectivity the phenomenological method and the problem of generativity By inviting readers to discover this new Husserl the present collection is likely to shape scholarly discussions of Husserl's thought for some time to come *Phenomenology and the Problem of Time* Michael R. Kelly, 2016-09-15 This book explores the problem of time and immanence for phenomenology in the work of Edmund Husserl Martin Heidegger Maurice Merleau Ponty and Jacques Derrida Detailed readings of immanence in light of the more familiar problems of time consciousness and temporality provide the framework for evaluating both Husserl's efforts to break free of modern philosophy's notions of immanence and the influence Heidegger's criticism of Husserl exercised over Merleau Ponty's and Derrida's alternatives to Husserl's phenomenology Ultimately exploring various notions of intentionality these in depth analyses of immanence and temporality suggest a new perspective on themes central to phenomenology's development as a movement and raise for debate the question of where phenomenology begins and ends **The Oxford Handbook of Phenomenological Psychopathology** Giovanni Stanghellini, Matthew Broome, Anthony Vincent Fernandez, René Rosfort, Andrea Raballo, Paolo Fusar-Poli, 2019-07-04 The field of phenomenological psychopathology PP is concerned with exploring and describing the individual experience of those suffering from mental disorders Whilst there is often an understandable emphasis within psychiatry on diagnosis and treatment the subjective experience of the individual is frequently overlooked Yet a patient's own account of how their illness affects their thoughts values consciousness and sense of self can provide important insights into their condition insights that can complement the more empirical findings from studies of brain function or behaviour The Oxford Handbook of Phenomenological Psychopathology is the first ever comprehensive review of the field It considers the history of PP its methodology key concepts and includes a section exploring individual experiences within schizophrenia

depression borderline personality disorder OCD and phobia In addition it includes chapters on some of the leading figures throughout the history of this field Bringing together chapters from a global team of leading academics researchers and practitioners the book will be valuable for those within the fields of psychiatry clinical psychology and philosophy

Consciousness Sara Heinämaa, Vili Lähteenmäki, Pauliina Remes, 2007-07-16 SARA HEIN MAA VILI L HTEENM KI AND PAULIINA REMES This book is about consciousness It illuminates the concept in its complexity and richness capturing its theoretical and philosophical significance as well as its problematic aspects By taking a new look into the history of concepts the collection questions several deep seated assumptions about consciousness assumptions both thematic and methodological It argues that even though our predecessors did not formulate their philosophical queries in terms of consciousness they have much to offer to our current disputes concerning its central features such as reflexivity subjectivity and aboutness as well as related themes from selfhood to attention and embodiment At the same time the collection demonstrates that consciousness is not just an issue in the philosophy of mind but is bound to ontology epistemology and moral theory We can find premodern and early modern concepts and arguments that are interesting and even crucial to our own philosophical concerns but we should not assume that these belong or contribute to any theory of mind isolated from metaphysical and ethical discussions an argument that for us provides insightful descriptions of perception or self awareness might to its writer have meant not just a theoretization of the soul or the mind but also and perhaps more importantly a contribution to ethics or ontology

Who One Is J.G. Hart, 2009-04-21 Both volumes of this work have as their central concern to sort out who one is from what one is In this Book 1 the focus is on transcendental phenomenological ontology When we refer to ourselves we refer both non ascriptively in regard to non propertied as well as ascriptively in regard to propertied aspects of ourselves The latter is the richness of our personal being the former is the essentially elusive central concern of this Book 1 I can be aware of myself and refer to myself without it being necessary to think of any third personal characteristic indeed one may be aware of oneself without having to be aware of anything except oneself This consideration opens the door to basic issues in phenomenological ontology such as identity individuation and substance In our knowledge and love of Others we find symmetry with the first person self knowledge both in its non ascriptive forms as well as in its property ascribing forms Love properly has for its referent the Other as present through but beyond her properties Transcendental phenomenological reflections move us to consider paradoxes of the transcendental person For example we contend with the unpresentability in the transcendental first person of our beginning or ending and the undeniable evidence for the beginning and ending of persons in our third person experience The basic distinction between oneself as non sortal and as a person pervaded by properties serves as a hinge for reflecting on the afterlife This transcendental phenomenological ontology of necessity deals with some themes of the philosophy of religion

Subjectivity and Selfhood Dan Zahavi, 2008-08-29 What is a self Does it exist in reality or is it a mere social construct or is it perhaps a neurologically

induced illusion The legitimacy of the concept of the self has been questioned by both neuroscientists and philosophers in recent years Countering this in *Subjectivity and Selfhood* Dan Zahavi argues that the notion of self is crucial for a proper understanding of consciousness He investigates the interrelationships of experience self awareness and selfhood proposing that none of these three notions can be understood in isolation Any investigation of the self Zahavi argues must take the first person perspective seriously and focus on the experiential givenness of the self *Subjectivity and Selfhood* explores a number of phenomenological analyses pertaining to the nature of consciousness self and self experience in light of contemporary discussions in consciousness research Philosophical phenomenology as developed by Husserl Heidegger Sartre Merleau Ponty and others not only addresses crucial issues often absent from current debates over consciousness but also provides a conceptual framework for understanding subjectivity Zahavi fills the need given the recent upsurge in theoretical and empirical interest in subjectivity for an account of the subjective or phenomenal dimension of consciousness that is accessible to researchers and students from a variety of disciplines His aim is to use phenomenological analyses to clarify issues of central importance to philosophy of mind cognitive science developmental psychology and psychiatry By engaging in a dialogue with other philosophical and empirical positions says Zahavi phenomenology can demonstrate its vitality and contemporary relevance

Voices from within the Veil William H. Alexander, Charles H. Ford, Cassandra L.

Newby-Alexander, 2009-05-27 And then the Veil It drops as drops the night on southern seas vast sudden unanswering There is Hate behind it and Cruelty and Tears As one peers through its intricate unfathomable pattern of ancient old old design one sees blood and guilt and misunderstanding And yet it hangs there this Veil between Then and Now between Pale and Colored and Black and White between You and Me W E B DuBois *Darkwater* *Voices from within the Veil* 1920 As the promoters of Jamestown 2007 began to speak of the accomplishment of greater diversity in the nation and to market the myth of the seamless confluence of Indian European and African traditions in the early colony many reflected not only about how the United States colonial origins were based on the entrepreneurial ambitions of English settlers the conquest and degradation of native populations and the subsequent uprooting and enslavement of untold numbers of Africans but also about how the more recent legacy of decades of discrimination and marginalization continue to shape our world today Despite the assimilation acculturation and dehumanization that have occurred in the Americas African Americans have continued to refashion their cultures to fit their own social needs and aesthetic preferences From Introduction *Voices from within the Veil* explores the 400 year prelude to the inclusion of African Americans in the commemoration of this nation's origins With innovative approaches and pioneering research these essays address both the conditions of African Americans marginalization and some of the paths toward their empowerment marronage the Underground Railroad social organization and massive protest movements among others

Phenomenology and Perspectives on the Heart Anthony J.

Steinbock, 2022-06-06 This edited collection marks a new wave of international and philosophical scholarship on the heart

that rich dimension of our emotional being in the world This text addresses the relation between feeling and knowing and investigates whether or not the heart has its own way of cognition and critique This book takes up the emotional turn in philosophy in general and phenomenology in particular advancing this field through innovative and original perspectives The contributions come from philosophers working in distinctive yet overlapping areas of research

Discovering Black Existentialism E. Anthony Muhammad, 2023-12-14 In the post Trump era the Black lived experience continues to come under assault Emerging from the suffering imposed on Black bodies comes Black Existential Philosophy an umbrella term encompassing the multiple depictions of Black life under White subjugation Whether taking the form of first hand narratives of the lives of enslaved Blacks the racialized theological discourse of the Nation of Islam or the writings of W E B Du Bois and Frantz Fanon the works comprising Black Existentialism offer a look into both the world of the racialized Black Other as well as the never ending quest to recapture and reassert Black humanity In *Discovering Black Existentialism* E Anthony Muhammad documents his personal and academic journey to Black Existentialism In doing so the book illuminates the power of curriculum as a shaping agent in the life of an educator and researcher As a combination of autobiography theory and pedagogy this work gives the reader an intimate view into the developmental arc of a Black Existentialist scholar This book offers valuable insights to students searching for direction to researchers attempting to find meaning in their work and to educators striving to make their pedagogy relevant to the lives of their students

Clarifying and Furthering Existential Psychotherapy Stefan E. Schulenberg, 2016-09-23 This exciting volume brings together leading figures across existential psychology in a clear sighted guide to its current practice and therapeutic possibilities Its accessible yet scholarly presentation dispels common myths about existential psychotherapy while demonstrating core methods and innovative techniques as compatible with the range of clinicians theoretical orientations and practical approaches Chapters review the evidence for its therapeutic value and provide updates on education training and research efforts in the field both in the US and abroad Throughout existential psychotherapy emerges as a vital flexible and empirically sound modality in keeping with the current and future promotion of psychological well being Highlights of the coverage include Emotion relationship and meaning as core existential practice evidence based foundations Meaning centered psychotherapy a Socratic clinical practice Experience processing as an aspect of existential psychotherapy life enhancement methodology Structural Existential Analysis SEA a phenomenological method for therapeutic work Experiencing change an existential perspective Creating the World Congress for existential therapy *Clarifying and Furthering Existential Psychotherapy* will spark discussion and debate among students therapists researchers and practitioners in existential psychology existential psychotherapy and allied fields as well as the interested public It makes a suitable text for graduate courses in existential therapy psychological theories and related subjects

Layers in Husserl's Phenomenology Peter R. Costello, 2012-01-01 *Layers in Husserl's Phenomenology* provides close readings and analyses of a number of Husserl's key translated and untranslated works across the entirety of

his corpus While maintaining a dialogue with four decades worth of scholarship on Husserl Peter R Costello provides a number of new and significant insights that depart from earlier interpretations of his work along with a revised consistent translation of a number of important Husserlian terms *Layers in Husserl's Phenomenology* situates Husserl firmly within the trajectory of later Continental thought and contributes to the recent reconsideration of Husserl as a legitimate precursor to the thought of Maurice Merleau Ponty Emmanuel Levinas and Jacques Derrida Written in a readable style appropriate for both undergraduate and graduate students this study will be valued by those interested in phenomenology in general and in Husserl in particular

Mystical Consciousness Louis Roy, O.P., 2012-02-01 This book offers a philosophical account of ordinary consciousness as a step toward understanding mystical consciousness Presupposing a living interaction between meditation and thinking the work draws on Western and Japanese thinkers to develop a philosophy of religion that is friendly to the experience of meditators and that can explore such themes as emptiness nothingness and the self Western thinkers considered include Plotinus Eckhart Schleiermacher Heidegger Brentano Husserl Sartre and Lonergan and Japanese thinkers referenced include Nishitani Hisamatsu and Suzuki All employed centering prayer Zen or other forms of mental concentration Particular emphasis is placed on the work of twentieth century Catholic philosopher Bernard Lonergan whose writings on consciousness can inform an understanding of mysticism

Mind, Reason, and Being-in-the-World Joseph K. Schear, 2013-03-05 John McDowell and Hubert L Dreyfus are philosophers of world renown whose work has decisively shaped the fields of analytic philosophy and phenomenology respectively *Mind Reason and Being in the World* The McDowell Dreyfus Debate opens with their debate over one of the most important and controversial subjects of philosophy is human experience pervaded by conceptual rationality or does experience mark the limits of reason Is all intelligibility rational or is there a form of intelligibility at work in our skilful bodily rapport with the world that eludes our intellectual capacities McDowell and Dreyfus provide a fascinating insight into some fundamental differences between analytic philosophy and phenomenology as well as areas where they may have something in common Fifteen specially commissioned chapters by distinguished international contributors enrich the debate inaugurated by McDowell and Dreyfus taking it in a number of different and important directions Fundamental philosophical problems discussed include the embodied mind subjectivity and self consciousness intentionality rationality practical skills human agency and the history of philosophy from Kant to Hegel to Heidegger to Merleau Ponty With the addition of these outstanding contributions *Mind Reason and Being in the World* is essential reading for students and scholars of analytic philosophy and phenomenology
