Medicine As Culture Illness Disease And The Body In Western Societies:

Medicine as Culture Deborah Lupton, 2012-03-22 Lupton's newest edition of *Medicine as Culture* is more relevant than ever. Trudy Rudge, Professor of Nursing, University of Sydney. A welcome update of a text that has become a mainstay of the medical sociologist's library. Alan Radley, Emeritus Professor of Social Psychology, Loughborough University. *Medicine as Culture* introduces students to a broad range of cross-disciplinary theoretical perspectives using examples that emphasize bodies and visual images. Lupton's core contrast between lay perspectives on illness and medical power is a useful beginning point for courses teaching health and illness from a socio-cultural perspective. Arthur Frank, Department of Sociology, University of Calgary. *Medicine as Culture* is unlike any other sociological text on health and medicine. It combines perspectives drawn from a wide variety of disciplines including sociology, anthropology, social history, cultural geography, and media and cultural studies. The book explores the ways in which medicine and health care are sociocultural constructions ranging from popular media and elite cultural representations of illness to the power dynamics of the doctor-patient relationship. The Third Edition has been updated to cover new areas of interest including studies of space and place in relation to the body, actor-network theory as it is applied in research related to medicine, the internet and social media, and how they contribute to lay health knowledge and patient support, complementary and alternative medicine, obesity and fat politics. Contextualising introductions and discussion points in every chapter makes *Medicine as Culture* Third Edition a rigorous yet accessible text for students. Deborah Lupton is an independent sociologist and Honorary Associate in the Department of Sociology and Social Policy, University of Sydney. [Medicine as Culture](#) Deborah Lupton, 2001 [Medicine as Culture](#) Deborah Lupton, 1995 **Body in Medical Culture, The** Elizabeth Klaver, 2009-04-16 2010 CHOICE Outstanding Academic Title. How do concepts and constructions of the body shape people's experiences of agency and objectification within medical culture? As an object of scrutiny, the medicalized body occupies center stage in the work of doctors, nurses, medical examiners, and other medical professionals who mediate broader cultural understandings of pathology, illness, and the various physical transformations associated with life and death. *The Body in Medical Culture* explores how the body functions within medical culture and examines the metaphors and models of the body used to understand medical phenomena including disease, diagnostic practices, wellness, anatomy, surgery, and medical research. Scholars from a wide range of disciplines engage representations of bodies including polio and masculinity, sex reassignment surgery, drug marketing, endography, designer vaginas, and hospital humor in order to challenge the normalcy of the passively objectified medicalized body. **Culture, Bodies and the Sociology of Health** Elizabeth Ettorre, 2016-05-13 *Culture Bodies and the Sociology of Health* explores the boundaries between bodies and society with special reference to uncovering the cultural components of health and the ways in which bodies are categorized according to a form of culturally embedded health orthodoxy. Illustrating the importance of contextualizing the body as a cultural entity, this book demonstrates that the

spaces and boundaries between healthy bodies are becoming more diverse than ever before The volumes international team of scholars engage with a range of issues surrounding the cultural construction of the body as a site of health and illness As such it will be of interest not only to sociologists especially sociologists of health but also to scholars of media and communication studies as well as cultural theorists *Biomedicine as Culture* Regula Valérie Burri, Joseph Dumit, 2007-11-21 This collection of essays brings together leading scholars from cultural anthropology history sociology and science studies to conduct a critical dialogue on the culture s of biomedical practice discussing its material epistemic and social implications **Health Culture in the Heartland, 1880-1980** Lucinda McCray Beier, 2009 A century of developing health culture in McLean County Illinois **Sex, Science and Morality in China** Joanna McMillan, 2014-07-30 After decades of near silence on the matter sex is being talked about in China But what is being said Who is allowed to speak And whose purposes are being served This ground breaking book takes a critical look at how sex in China is thought and talked about Drawing on the work of the country s foremost sex experts and years of research in the field it gives an overview of the sexual landscape in China today Including new material on transsexuals fetishism sex aids and pornography the book shows that the dominant ways of thinking about sex are neither innocent nor inconsequential and that amid catalogues of prescriptions linking self management to the collective good people are making decisions about how to live their sexual lives The most lively and accessible critique of sexual discourse this book will be essential reading for scholars in Chinese studies cultural studies and sexuality and gender studies Emerging Perspectives in Health Communication Heather Zoller, Mohan J. Dutta, 2009-02-23 This volume provides the theoretical methodological and praxis driven issues in research on interpretive critical and cultural approaches to health communication It includes an international collection of contributors and highlights non traditional non Western perspectives on health communication **Revisiting Feminist Approaches to Art Therapy** Susan Hogan, 2012-06-15 Art therapy has been slow to embrace the critical and theoretical viewpoints including feminism that have made a huge impact on other areas of the humanities and social sciences Art therapists are ideally situated however to respond to the growing awareness of how language media and images influence gender inequality and the pressures that can lead to poor mental health and diminished well being among women The contributors explore the ways in which gender issues can be addressed through art therapy By being sensitive to the socio cultural dimensions of women s lives therapists can become more receptive to the needs of their female clients The case studies included here illustrate how issues of class ethnicity and gender introduce a social element into what is sometimes described as a purely personal cathartic process By discussing empowerment sexuality pregnancy and childbirth this volume provides a comprehensive survey of women s issues within art therapy and will prompt a reevaluation of current training and practice in the field Extending the Boundaries of Care Tamara Kohn, Rosemary McKechnie, 2020-05-12 How is the concept of patient care adapting in response to rapid changes in healthcare delivery and advances in medical technology How are questions of

ethical responsibility and social diversity shaping the definitions of healthcare In this topical study scholars in anthropology nursing theory law and ethics explore questions involving the changing relationship between patient care and medical ethics Contributors address issues that challenge the boundaries of patient care such as HIV related care and research the impact of new reproductive technologies preventative healthcare technological breakthroughs that are changing personal caring relationships Chapters range from a consideration of the practicalities of nursing and family healthcare to a debate about universal human needs and patients rights This book is a provocative exploration of the ways in which healthcare models are socially constructed It will be of interest to policy makers medical practitioners and administrators as well as students of sociology anthropology and social policy

The Imperative of Health Deborah Lupton,1995-06-15 In this reappraisal of public health and health promotion in contemporary societies Deborah Lupton explores public health and health promotion using contemporary sociocultural and political theory particularly that building on Foucault's writings on subjectivity embodiment and power relations The author examines the implications of the new social theories for the study of health promotion and health communication to analyze the symbolic nature of public health practices and explores their underlying meanings and assumptions

Pestilence in Medieval and Early Modern English Literature Byron Lee Grigsby,2004-08-02 *Pestilence in Medieval and Early Modern English Literature* examines three diseases leprosy bubonic plague and syphilis to show how doctors priests and literary authors from the Middle Ages through the Renaissance interpreted certain illnesses through a moral filter Lacking knowledge about the transmission of contagious diseases doctors and priests saw epidemic diseases as a punishment sent by God for human transgression Accordingly their job was to properly read sickness in relation to the sin By examining different readings of specific illnesses this book shows how the social construction of epidemic diseases formed a kind of narrative wherein man attempts to take the control of the disease out of God's hands by connecting epidemic diseases to the sins of carnality
