Medieval English Political Writings

Daniel T. Kline

Medieval English Political Writings:

Medieval English Political Writings James M Dean, 1996-04-01 This volume collects poems and historical documents relevant to understanding the political climate of fourteenth and fifteenth century Britain many of which have been out of print for a century This new edition geared towards classroom use with its notes introductions gloss and glossary opens up the fascinating study of late medieval English history This volume contains five sections Poems of Political Prophecy Anticlerical Poems and Documents Literature of Richard II's Reign and the Peasants Revolt Poems against Simony and the Abuse of Money and Plowman Writings all tied together by a common attitude of satire and complaint and a distrust of those who may abuse power This volume would make an excellent source for a class on English satire or late medieval politics

Writing to the King David Matthews, 2010-04-01 In the century before Chaucer a new language of political critique emerged In political verse of the period composed in Anglo Latin Anglo Norman and Middle English poets write as if addressing the king himself drawing on their sense of the rights granted by Magna Carta These apparent appeals to the sovereign increase with the development of parliament in the late thirteenth century and the emergence of the common petition and become prominent in an increasingly sophisticated literature during the political crises of the early fourteenth century However very little of this writing was truly directed to the king As David Matthews shows in this book the form of address was a rhetorical stance revealing much about the position from which writers were composing the audiences they wished to reach and their construction of political and national subjects

The political writings of Archbishop Wulfstan of York, 2016-01-01 Archbishop Wulfstan of York d 1023 is among the most important legal and political thinkers of the early Middle Ages A leading ecclesiastic innovative legislator and influential royal councilor Wulfstan witnessed firsthand the violence and social unrest that culminated in the fall of the English monarchy before the invading armies of Cnut in 1016 In his homilies and legal tracts Wulfstan offered a searing indictment of the moral failings that led to England's collapse and formulated a vision of an ideal Christian community that would influence English political thought long after the Anglo Saxon period had ended These works many of which have never before been available in modern English are collected here for the first time in new extensively annotated translations that will help readers reassess one of the most turbulent periods in English history and re evaluate the career of Anglo Saxon England's most important political visionary

The Medieval British Literature Handbook Daniel T. Kline, 2009-08-25 One stop resource for courses in medieval literature providing students with a comprehensive guide to the historical and cultural context major texts and movements reading primary and critical texts key critics concepts and topics major critical approaches and directions of new research

Political Allegory in Late Medieval England Ann W. Astell, 2002-01-01 Ann W Astell here affords a radically new understanding of the rhetorical nature of allegorical poetry in the late Middle Ages She shows that major English writers of that era among them William Langland John Gower Geoffrey Chaucer and the Gawain poet offered in their works of fiction

timely commentary on current events and public issues Poems previously regarded as only vaguely political in their subject matter are seen by Astell to be highly detailed and specific in their veiled historical references implied audiences and admonitions Astell begins by describing the Augustinian and Boethian rhetorical principles involved in the invention of allegory She then compares literary and historical treatments of key events in fourteenth and fifteenth century England finding an astonishing match of allusions and code words especially those deriving from puns titles heraldic devices and personal cognizances as well as repeated proverbs prophecies and exempla Among the works she discusses are John Ball's Letters and parts of Piers Plowman which she presents as two examples of allegorical literature associated with the Peasants' Revolution of 1381 Gower's allegorical representation of the Merciless Parliament of 1388 in *Confessio Amantis* and Chaucer's brilliant literary handling of key events in the reign of Richard II In addition Astell argues for a precise dating of Sir Gawain and the Green Knight between 1397 and 1399 and decodes the work as a political allegory

A Companion to Medieval English Literature and Culture, c.1350 - c.1500 Peter Brown, 2009-10-26 A Companion to Medieval English Literature and Culture c 1350 c 1500 challenges readers to think beyond a narrowly defined canon and conventional disciplinary boundaries A ground breaking collection of newly commissioned essays on medieval literature and culture Encourages students to think beyond a narrowly defined canon and conventional disciplinary boundaries Reflects the erosion of the traditional rigid boundary between medieval and early modern literature Stresses the importance of constructing contexts for reading literature Explores the extent to which medieval literature is in dialogue with other cultural products including the literature of other countries manuscripts and religion Includes close readings of frequently studied texts including texts by Chaucer Langland the Gawain poet and Hoccleve Confronts some of the controversies that exercise students of medieval literature such as those connected with literary theory love and chivalry and war

[An Introduction to Medieval English Literature](#) Anna Baldwin, 2015-11-15 This is a comprehensive guide to a literary period characterized by great variety and imagination and vividly alert to the social transformations overtaking society Spanning almost two centuries it introduces the reader to a diverse range of authors writing for a fast developing readership of both men and women Each chapter focuses on a group of genres primarily associated with a particular social class from the Drama and Saints Lives accessible to the illiterate to the sophisticated Romances of Love savoured by the aristocracy and the Court Lively historical narratives place each group of texts in their social political and cultural contexts Significant or typical texts are given more detailed analysis that includes critical issues and questions to guide the reader's own approach and each section is supported by a detailed bibliography of further reading

The Cambridge Companion to Medieval English Law and Literature Candace Barrington, Sebastian Sobiecki, 2019-08-08 A comprehensive and wide ranging account of the interrelationship between law and literature in Anglo Saxon Medieval and Tudor England

The Language of Heresy in Late Medieval English Literature Erin K. Wagner, 2024-04-22 Vernacular writers of late medieval England were engaged in global conversations about

orthodoxy and heresy Entering these conversations with a developing vernacular required lexical innovation The Language of Heresy in Late Medieval English Literature examines the way in which these writers complemented seemingly straightforward terms like heretic with a range of synonyms that complicated the definitions of both those words and orthodoxy itself This text proposes four specific terms that become collated with heretic in the parlance of medieval English writers of the 14th and 15th centuries jangler Jew Saracen and witch These four labels are especially important insofar as they represent the way in which medieval Christianity appropriated and subverted marginalized or vulnerable identities to promote a false image of unassailable authority A Companion to Britain in the Later Middle Ages S. H. Rigby, 2008-04-15

This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field Covers social economic political religious and cultural history in England Ireland Scotland and Wales Provides a guide to the historical debates over the later Middle Ages Addresses questions at the leading edge of historical scholarship Each chapter includes suggestions for further reading **Later Middle English Literature, Materiality, and Culture** Brian Gastle, Erick Kelemen, 2018-04-12 The essays in this volume consider the ways in which material and intellectual culture both shaped and were shaped by the literature of late medieval England The first section Textual Material reflects on cultural and social issues generally referred to as the History of Ideas and how those ideas manifest in later medieval English texts Essays address for example affect in The Book of Margery Kempe rhetoric in Sir Gawain and the Green Knight anarchy in late medieval political texts and temporality in Gower's Confessio Amantis The essays in the second section Material Texts examine physical objects from pilgrim badges to manuscripts to money to early printed editions and the cultural behaviors associated with them interpreting these objects and exploring their connections to the important literary and political texts of the age such as Piers Plowman Lydgate's Troy Book and Chaucer's Canterbury Tales All of the essays in this collection emerge from the relationships and connections between the issues that characterize Jim Dean's work the cultural material and aesthetic aspects of later medieval English literature So too do they reflect a movement in medieval literary studies presaged by Dean's career of scholarship and teaching that critical approaches to literary texts are best undertaken with an understanding of the complex cultural and historical milieu that defines both the production of those texts and the production of our own work on those texts **Middle English Literature** Christopher Cannon, 2013-04-18 This book provides a boldly original account of Middle English literature from the Norman Conquest to the beginning of the sixteenth century It argues that these centuries are in fundamental ways the momentous period in our literary history for they are the long moment in which the category of literature itself emerged as English writing began to insist for the first time that it floated free of any social reality or function This book also charts the complex mechanisms by which English writing acquired this power in a series of linked close readings of both canonical and more obscure texts It encloses those readings in five compelling accounts of much broader cultural areas describing in particular the productive relationship of Middle English writing to

medieval technology insurgency statecraft and cultural place concluding with an in depth account of the particular arguments emphases and techniques English writers used to claim a wholly new jurisdiction for their work Both this history and its readings are everywhere informed by the most exciting developments in recent Middle English scholarship as well as literary and cultural theory It serves as an introduction to all these areas as well as a contribution in its own right to each of them

The Betrayal of Arthur Sara Douglass,2013-10-01 A prophecy of a golden age a magic sword and a chosen one This is the legend of King Arthur or is it From the manuscripts of a twelfth century English cleric to a New York bestseller tales of King Arthur and his court permeate our world But where did the stories start and how much is true Were Guinevere and Lancelot traitors Was Merlin a wise man or magician And was King Arthur a great and glorious king or a tragic man doomed from conception Sara Douglass a leading writer of fantasy pierces the heat of this legend A scholar and academic in medieval history she explores the fascination manipulation and permutations of this captivating myth that has intrigued the western world for centuries The Betrayal of Arthur is an enchanting exploration of Arthurian legend twentieth century sensibilities and the medieval mind

Against the Friars Tim Rayborn,2014-10-23 The friars represented a remarkable innovation in medieval religious life Founded in the early 13th century the Franciscans and Dominicans seemed a perfect solution to the Church s troubles in confronting rapid changes in society They attracted enthusiastic support especially from the papacy to which they answered directly In their first 200 years membership grew at an astonishing rate and they became counsellors to princes and kings receiving an endless stream of donations and gifts Yet there were those who believed the adulation was misguided or even dangerous and who saw in the friars actions only hypocrisy deceit greed and even signs of the end of the world From the mid 13th century writings appeared denouncing and mocking the friars and calling for their abolition Their French and English opponents were among the most vocal From harsh theological criticism and outrage at the Inquisition to vulgar tales and bathroom humor this thoroughly documented work is suitable for the newcomer as well as for readers who are familiar with the subject but might like to investigate specific topics in more detail

Government and Political Life in England and France, c.1300-c.1500 Christopher Fletcher,Christopher David Fletcher,Jean-Philippe Genet,John Watts,John Lovett Watts,2015-04-20 A detailed comparative study of how kings governed late medieval France and England analysing the multiple mechanisms of royal power

Geoffrey Chaucer in Context Ian Johnson,2019-07-11 Provides a rich and varied reference resource illuminating the different contexts for Chaucer and his work

Prophet Margins Edward L. Ridsen,Karen Rathmell Moranski,Stephen Yandell,2004 While poets have traditionally inhabited cultural margins prophets have brought poetic language to the center of cultural debate not foretelling the future so much as diagnosing the present This exciting collection of nine essays examines the range of social and political implications that inflects poetic discourse from the Old English and Latin texts of the Anglo Saxon world to the Scotland and England of the Renaissance Whether saints lives Germanic heroic epics chronicles or satiric poems the works discussed in this book retain

their verbal power if not their political influence into our own time

Meter and Modernity in English Verse,

1350-1650 Eric Weiskott, 2021-01-15 What would English literary history look like if the unit of measure were not the political reign but the poetic tradition The earliest poems in English were written in alliterative verse the meter of Beowulf Alliterative meter preceded tetrameter which first appeared in the twelfth century and tetrameter in turn preceded pentameter the five stress line that would become the dominant English verse form of modernity though it was invented by Chaucer in the 1380s While this chronology is accurate Eric Weiskott argues the traditional periodization of literature in modern scholarship distorts the meaning of meters as they appeared to early poets and readers In *Meter and Modernity in English Verse 1350 1650* Weiskott examines the uses and misuses of these three meters as markers of literary time medieval or modern though all three were in concurrent use both before and after 1500 In each section of the book he considers two of the traditions through the prism of a third element alliterative meter and tetrameter in poems of political prophecy alliterative meter and pentameter in William Langland's *Piers Plowman* and early blank verse and tetrameter and pentameter in Chaucer his predecessors and his followers Reversing the historical perspective in which scholars conventionally view these authors Weiskott reveals Langland to be metrically precocious and Chaucer metrically nostalgic More than a history of prosody Weiskott's book challenges the divide between medieval and modern literature Rejecting the premise that modernity occurred as a specifiable event he uses metrical history to renegotiate the trajectories of English literary history and advances a narrative of sociocultural change that runs parallel to metrical change exploring the relationship between literary practice social placement and historical time

Other Englands

Sarah Hogan, 2018-05-29 *Other Englands* examines the rise of the early English utopia in the context of emergent capitalism Above all it asserts that this literary genre was always already an expression of social crisis and economic transition a context refracted in the origin stories and imagined geographies common to its early modern form Beginning with the paradigmatic popular utopias of Thomas More and Francis Bacon but attentive to non canonical examples from the margins of the tradition the study charts a shifting and by the time of the English Revolution self critical effort to think communities in dynamic socio spatial forms Arguing that early utopias have been widely misunderstood and maligned as static finished polities Sarah Hogan makes the case that utopian literature offered readers and writers a transformational and transitional social imaginary She shows how a genre associated with imagining systemic alternatives both contested and contributed to the ideological construction of capitalist imperialism In the early English utopia she finds both a precursor to the Enlightenment discourse of political economy and another historical perspective on the beginnings and enduring conflicts of global capital

Contact and Exchange in Later Medieval Europe
Hannah Skoda, Patrick Lantschner, R. L. J. Shaw, 2012 The complexity of the interplay and relationships over various borders in medieval Europe is here fully teased out The processes by which ideas objects texts and political thought and experience moved across boundaries in the Middle Ages form the focus of this book which also seeks to reassess the nature of the

boundaries themselves it thus appropriately reflects a major theme of Dr Malcolm Vale's work which the essays collected here honour. They suggest ways of breaking down established historiographical paradigms of Europe as a set of distinct polities achieving a more nuanced picture in which people and objects were constantly moving and challenging previous conceptions of units and borders. The first section examines the construction of boundaries and units in the later Middle Ages via topics ranging from linguistic units to social stratifications and geographically from the Netherlands and Scotland to Gascony and the Iberian peninsula it reveals how much the relationship between exchange and boundaries was reciprocal. The second section considers the mechanisms by which it took place from West Africa to Italy and Flanders and discusses the actual exchange of people, texts and unusual artefacts. Overall the essays bear witness to the constant interplay and interconnections throughout medieval Europe and beyond.

Contributors: Paul Booth, Maria João Violante Branco, Rita Costa Gomes, Mario Damen, Jan Dumolyn, Jean Dunbabin, Jean Philippe Genet, Michael Jones, Maurice Keen, Frédéric Lachaud, Patrick Lantschner, Guilhem Pèpin, R. L. J. Shaw, Hannah Skoda, Erik Spindler, John Watts.

Reviewing **Medieval English Political Writings**: Unlocking the Spellbinding Force of Linguistics
