Medieval Mosaics Of San Marco Venice:

The Medieval Mosaics of San Marco, Venice Otto Demus, 1986 Mosaics, Empresses and Other Things in Byzantium Liz James, 2024-08-01 This volume consists of 15 articles published between 1991 and 2018 It falls into three sections reflecting different areas of Liz James's interests The first section deals with light and colour and mosaics four articles considering light and colour in mosaics and the making of mosaics as well as the question of what it means to define mosaics as Byzantine are reprinted The second brings together four pieces on empresses their relationships with female personifications and the Mother of God their roles in founding and refounding buildings and their employment as ciphers by some authors Finally seven papers cover a range of topics what monumental images of saints in churches might have been for what the differences between relics and icons might have been how captions to images can be misleading why touch was an important sense how words can sometimes just be decorative rather than for reading why the materiality of objects makes a difference There is also a brief section of additional notes and comments which add to update and reflect on each piece now in 2024 *Mosaics Empresses and Other Things in Byzantium* will be of interest to scholars and students alike interested in material culture the depiction of regal women and the use of relics and icons in the Byzantine Empire *New Saints in Late-Mediaeval Venice, 1200-1500* Karen E. McCluskey, 2019-10-08 This book focuses on the comparatively unknown cults of new saints in late mediaeval Venice These new saints were near contemporary citizens who were venerated by their compatriots without official sanction from the papacy In doing so the book uncovers a sub culture of religious expression that has been overlooked in previous scholarship The study highlights a myriad of hagiographical materials both visual and textual created to honour these new saints by members of four different Venetian communities The Republican government the monastic orders mostly Benedictine the mendicant orders and local parishes By scrutinising the hagiographic portraits described in painted vita panels written vitae passiones votive images sermons and sepulchre monuments as well as archival and historical resources the book identifies a specifically Venetian typology of sanctity tied to the idiosyncrasies of the city's site and history By focusing explicitly on local typological traits the book produces an intimate and complex portrait of Venetian society and offers a framework for exploring the lived religious experience of late mediaeval societies beyond the lagoon As a result it will be of keen interest to scholars of Venice lived religion hagiography mediaeval history and visual culture **The Mosaic Decoration of San Marco, Venice** Otto Demus, 1988-11-16 Decorated with the richest most beautiful mosaics in the world the Venetian church of San Marco is quite literally a treasure house of medieval art The domes and walls of the church encrusted with stone glass and gold have been recognized over the centuries as a glorious historical and artistic record Peopled with hundreds and figures Adam and Eve Noah and his progeny Isaiah Christ Mark of course and other holy men and women of Venice these mosaics create a cosmic panorama The Mosaic Decoration of San Marco Venice brings these unrivaled mosaics into breathtaking focus combining a descriptive history of their creation and repair over the

ages with close up photographs revealing their iconographic detail

Relics, Prayer, and Politics in Medieval Venetia Thomas E. A. Dale, 1997 Against a historical backdrop of relic theft and propaganda campaigns waged by two cities vying for patriarchal authority in medieval Venetia Thomas Dale shows how Romanesque mural painting shaped sacred space and institutional identity His focus is on the late twelfth century murals in the crypt of Aquileia Cathedral The crypt which contains the relics of Aquileia's founding bishop Saint Hermagoras has a historical significance rooted in a legend identifying the saint as a direct disciple of Saint Mark the Evangelist On this basis the Carolingians promoted the city's status as patriarchal see of Venetia a claim that prompted Venice to steal Mark's relics from Alexandria Egypt and appropriate Aquileia's history This book the first English language study of the crypt explores how the paintings complement the relics of Hermagoras in their distinct devotional and political roles Hermagoras's intercessory power is activated by his orant image displayed over the central aisle within a larger hierarchy of apostles martyrs and bishops The surrounding hagiographic cycle justifies in legalistic fashion Aquileia's patriarchal title and the consecration of the city as locus sanctus of Venetia by the blood of its martyrs The iconic images in the eastern lunettes present the Virgin's compassio as a pictorial model for the vicarious experience of Christ's Passion Finally a fictive curtain over the socle presents allegories of spiritual warfare in the form of exempla from crusades pilgrimage and the epic poem Psychomachia which Dale analyzes as a gloss on the main program

Imagining the Human Condition in Medieval Rome Kristin B. Aavitsland, 2017-07-05 The first monograph on the Vita Humana cycle at Tre Fontane this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order Furthermore it considers the commission of the fresco cycle the circumstances of its making and its position within the art historical context of the Roman Duecento Examining the unusual blend of images in the Vita Humana cycle this study offers a more nuanced picture of the iconographic repertoire of medieval art Since the discovery of the frescoes in the 1960s the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking Kristin B Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000 Aavitsland proposes a rationale behind the conception of the fresco cycle thereby providing a key for understanding its iconography and shedding new light on thirteenth century Cistercian culture

Experiencing the Last Judgement Niamh Bhalla, 2021-09-30 Experiencing the Last Judgement opens up new ways of understanding a Byzantine image type that has hitherto been considered largely uniform in its manifestations and to a great extent frightening coercive and paralysing It moves beyond a purely didactic understanding of the Byzantine image of the Last Judgement as a visual eschatological text to be read and learned from and proposes instead an appreciation of each unique image as a dynamic site to be experienced Paintings icons and mosaics from the tenth to the fourteenth century from inside and outside of the Byzantine Empire are placed within their specific socio historical milieus their immediate decorative programmes and their architectural contexts to demonstrate that each unique image constituted a carefully orchestrated and immersive experience of judgement Each case study outlines the differences that exist in reality between these images that are often subsumed under one iconographic label making a case against condensing dynamic lived images into apparently static pictorial types Images of the Last Judgement needed the body mind and memory of the viewer for the creation of meaning and so the experience of these images was unavoidably spatial gendered corporeal mnemonic emotional rhetorical and most often liturgical Unpacking Byzantine images of judgement in light of these various facets of experience for the first time helps to elucidate the interaction of past individuals with the image and the ways in which such encounters were intended to benefit the communities that made and lived alongside them
