Meister Eckhart Thought And Language:

Meister Eckhart Frank Tobin, 2016-11-11 Meister Eckhart was a thirteenth century Dominican mystic who became famous as a teacher, thinker and preacher. His brilliant career, which included a chair of theology at the University of Paris and several important posts within his order, ended tragically when he was tried and convicted of heresy. In *Meister Eckhart*, Frank Tobin presents an overview of Eckhart's thought and language and of the relationship between the two. Tobin finds Eckhart's thinking unusual in its insistence that neither the division nor the union between God and creation had been expressed adequately. Moreover, Eckhart was radical in uncompromisingly applying metaphysics to a study of human spiritual progress and insisting that all ethical value derives from the interior work of the soul rather than its expression in exterior work. The originality of Eckhart's thought is nowhere more evident than in his interpretations of the Bible. His sermons and treatises are distinguished from others by his ability to uncover unexpected and intellectually stimulating and at times breathtaking meaning of a speculative or mystical nature in what often seemed to be straightforward and even drab biblical passages. Part of this originality stemmed from Eckhart's attitude toward exegesis and his theory of language, both of which centered on the difficulty of expressing speculation on the infinite through finite and limited language. As a result of this attitude, Eckhart became a master of the startling paradox. Through an analysis of Eckhart's linguistic strategies, Tobin shows that the Dominican's use of language follows with remarkable consistency from his view of language. He shows also that an understanding of Eckhart's style gives invaluable insight into his thought. Tobin compares Eckhart's ideas with those of Thomas Aquinas to help clarify both Eckhart's originality and his place in the scholastic tradition. *Meister Eckhart Thought and Language* will be of value to scholars interested in medieval studies, church history, philosophy, intellectual history, and medieval German language and literature.

Mystical Languages of Unsayings Michael A. Sells, 1994-05-02 The subject of *Mystical Languages of Unsayings* is an important but neglected mode of mystical discourse: apophasis, which literally means speaking away. Sometimes translated as negative theology, apophatic discourse embraces the impossibility of naming something that is ineffable by continually turning back upon its own propositions and names. In this close study of apophasis in Greek, Christian, and Islamic texts, Michael Sells offers a sustained critical account of how apophatic language works: the conventions, logic, and paradoxes it employs and the dilemmas encountered in any attempt to analyze it. This book includes readings of the most rigorously apophatic texts of Plotinus, John the Scot, Eriugena, Ibn Arabi, Marguerite Porete, and Meister Eckhart, with comparative reference to important apophatic writers in the Jewish tradition such as Abraham Abulafia and Moses de Leon. Sells reveals essential common features in the writings of these authors despite their wide-ranging differences in era, tradition, and theology. By showing how apophasis works as a mode of discourse rather than as a negative theology, this work opens a rich heritage to reevaluation. Sells demonstrates that the more radical claims of apophatic writers, claims that critics have often dismissed as hyperbolic or condemned as pantheistic or nihilistic, are vital to an adequate

account of the mystical languages of unsaying This work also has important implications for the relationship of classical apophysis to contemporary languages of the unsayable Sells challenges many widely circulated characterizations of apophysis among deconstructionists as well as a number of common notions about medieval thought and gender relations in medieval mysticism

Mysticism and Spirituality in Medieval England William F. Pollard, Robert Boenig, 1997 The late fourteenth and early fifteenth centuries in England were a golden age of mysticism the major figures could draw on and allude to a host of treatises as the Cloud author acknowledges when he explains how the works of St Denis validate all he writes about Without Denis without the theologians of the eleventh and twelfth centuries without the anchoritic writings of the thirteenth century Richard Rolle Julian of Norwich Walter Hilton Margery Kempe could not have written as they did Likewise those who followed them the Wycliffites the Brigittines the writers of religious lyrics responded to those who had gone before The articles presented here identify major themes and the web of influence that link them new but solid interpretations are offered of the key figures and their backgrounds and the emphasis is on the rich variety of mysticism these authors and texts embody

Medieval Philosophy Peter Adamson, 2019 Adamson offers a lively and accessible tour through 600 years of intellectual history offering a feast of new ideas in every area of philosophy He introduces us to some of the greatest thinkers of the Western tradition including Abelard Anselm Aquinas Hildegard of Bingen and Julian of Norwich

Comparative Theology and the Problem of Religious Rivalry Hugh Nicholson, 2011-04-08 A model of interreligious theology that seeks to reconcile the ideal of religious tolerance with an acknowledgement of the extent to which religious communities construct identity on the basis of religious differences

Slavoj Žižek and Christianity Sotiris Mitralaxis, Dionysios Skliris, 2018-07-18 Slavoj Žižek's critical engagement with Christian theology goes much further than his seminal *The Fragile Absolute* 2000 or his *The Puppet and the Dwarf* 2003 or even his discussion with noted theologian John Milbank in *The Monstrosity of Christ* 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of Žižek's thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of Žižek's thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage Žižek's work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re-reading of Žižek's relationship to Christianity As such scholars of theology the philosophy of religion and Žižek more generally will all find this book to be of great interest

Mysticism Dr Kevin Magill, Dr Louise Nelstrop, Mr Bradley B Onishi, 2013-06-28 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an important Christian heritage relevant to today's spiritual seekers The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James Steven Katz Bernard McGinn Michael Sells Denys Turner and Caroline Walker Bynum It also explores postmodern re readings of Christian mysticism by authors such as Jacques Derrida Jean Luc Marion and Jean Fran ois Lyotard The book first introduces students to the main themes that underpin Christian mysticism It then reflects on how modern critics have understood each of them demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism In doing so the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of scholarship with which students of mysticism need to familiarise themselves This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition **Encyclopedia of Monasticism** William M. Johnston, 2013-12-04 The

Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture **Mystics** William Harmless,2008 In *Mystics* William Harmless S J introduces readers to the scholarly study of mysticism He explores both mystics extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harless s case study approach brings things down to earth restoring mystics to their historical context *The Unity of Mystical Traditions* Randall Studstill,2018-08-14 This book argues that mystical doctrines and practices initiate parallel transformative processes in the consciousness of mystics This thesis is supported through a comparative analysis of Tibetan Buddhist Dzogchen rdzogs chen and the medieval German mysticism of Eckhart Suso and Tauler These traditions are interpreted using a system cybernetic model of consciousness This model provides a theoretical framework for assessing the cognitive effects of mystical doctrines and practices and showing how different doctrines and practices may nevertheless initiate common transformative processes This systems approach contributes to current philosophical discourse on mysticism by 1 making possible a precise analysis of the cognitive effects of mystical doctrines and practices and 2 reconciling mystical heterogeneity with the essential unity of mystical traditions

experience While the contributions of Augustine of Hippo and Thomas Aquinas are important to any foundational study of the Trinity a strictly philosophical and scholastic approach has proved to be both contentious and problematic As a result many are left wanting for more meaningful expressions of this profound mystery Anne Hunt fills this lacuna and offers a fresh avenue of reflection She explores the distinctly trinitarian insights of a number of Christian mystics Hildegard of Bingen and Meister Eckhart Bonaventure and Elizabeth of the Trinity Teresa of Avila and John of the Cross William of St Thierry and Julian of Norwich Readers will find that the mystery of the divine life and love that was so tangibly given and so palpably experienced by these mystics is now offered to us through them Anne Hunt is faculty dean of theology and philosophy at Australian Catholic University She is currently vice president of the Australian Catholic Theological Association She is author of *Trinity Nexus of the Mysteries of Christian Faith What Are They Saying About the Trinity and The Trinity and the Paschal Mystery* **via media philosophy** L.
