Remember Me Davide Sisto,2021-04-13 As the end of December draws near Facebook routinely sends users a short video entitled Your Year on Facebook It lasts about a minute and brings together the images and posts that received the highest number of comments and likes over the last year The video is rounded off with a message from Facebook that reads Sometimes looking back helps us remember what matters most Thanks for being here It is this looking back increasingly the focus of social networks that is the inspiration behind Davide Sisto s brilliant reflection on how our relationship with remembering and forgetting is changing in the digital era The past does not really exist it is only a story we tell ourselves But what happens when we tell this story not only to ourselves but also to our followers when it is recorded not only on our social media pages but also on the pages of hundreds or thousands of others making it something that can be viewed and referenced forever Social media networks are becoming vast digital archives in which the past merges seamlessly with the present slowly erasing our capacity to forget And yet at the same time our memory is being outsourced to systems that we don t control and that could become obsolete at any time cutting us off from our memories and risking total oblivion This timely and thoughtful reflection on memory and forgetting in the digital age will be of interest to students and scholars in media studies and to anyone concerned with the ways our social and personal lives are changing in a world increasingly shaped by social media and the internet **Methods and applications in psychopathology: New methods and trends for the understanding of neuropsychiatric disorders** Chong Chen,Gabriele Nibbio,Yuka Kotozaki,2023-08-24

more at www.luminosoa.org Creating the Qur'an presents the first systematic historical critical study of the Qur'an's origins drawing on methods and perspectives commonly used to study other scriptural traditions Demonstrating in detail that the Islamic tradition relates not a single attested account of the holy text's formation Stephen J Shoemaker shows how the Qur'an preserves a surprisingly diverse array of memories regarding the text's early history and its canonization To this he adds perspectives from radiocarbon dating of manuscripts the linguistic history of Arabic the social and cultural history of late ancient Arabia and the limitations of human memory and oral transmission as well as various peculiarities of the Qur'anic text itself Considering all the relevant data to present the most comprehensive and convincing examination of the origin and evolution of the Qur'an available Shoemaker concludes that the canonical text of the Qur'an was most likely produced only around the turn of the eighth century

Tailor your approach to your child's personality Establish bedtime rules in a nurturing way Handle snoring night terrors bedwetting and other distressing issues Dancing With Loneliness José María R. Olaizola SJ, 2023-02-07 Loneliness and connection are not enemies rather two facets of everyone's life We just need to get to know them That's especially true of loneliness so that far from being oppressive or a threat it can become an opportunity or a learning point Through loneliness we can learn to bond with ourselves and with others Far from consuming our self-esteem or wearing us out aloneness can prove an ally in the exciting and complicated battles of life All we need to do is to discern the heart song of loneliness so we can learn how to guide our emotions to cope with it This heart song consists of our acceptance and desire our lucidity and awareness our memory and hope our faith and inner turmoil All of that is in this book loneliness and connection Silence and music **Merleau-Ponty and a Phenomenology of PTSD** MaryCatherine McDonald, 2019-04-29 Despite the fact that we have been studying posttraumatic stress disorder PTSD since at least the late 1800s it remains prevalent and in many cases intractable Merleau Ponty and a Phenomenology of PTSD Hidden Ghosts of Traumatic Memory begins with the assertion that we struggle to successfully treat PTSD because we simply do not understand it well enough Using the phenomenological approach of Maurice Merleau Ponty which focuses on the first person lived experience of the trauma victim Merleau Ponty and a Phenomenology of PTSD Hidden Ghosts of Traumatic Memory focuses on reframing our understanding of combat trauma in two fundamental ways First the concepts of embodiment and adaptation give us an understanding of the human being as fundamentally adaptive This allows us to view traumatic responses as adaptive as well When the roots of traumatic injury become reframed in this way combat related PTSD can be understood more accurately as a set of symptoms borne of strength and survival rather than weakness or disorder Second phenomenology reveals that a different ghost haunts those who are afflicted by trauma For the past century trauma studies across disciplines have all assumed that the ghost of a singular traumatic event haunts the sufferer While this is likely a part of the problem further study shows that those who suffer from trauma are also haunted by the specter of a world without meaning In other words phenomenology reveals that what is injured in trauma is not just the mind or the body but the entire worldview of the individual It is this aspect of the injury the shattering loss of one's blueprint of the world that is missing from other accounts of trauma Rather than aim to upend previous research in the fields of psychology and neuroscience Merleau Ponty and a Phenomenology of PTSD Hidden Ghosts of Traumatic Memory uses the phenomenological approach to bring them together and expand then It is in this expansion that we are able to consider what we may have previously missed which stands to improve our understanding and treatment of trauma in general *Wandering Poet* Donald Klepper, 2014-03-24 These are selected original works of poetry from love poems for the romantics emotional ones ranging from deep despair to joy Also you will find spiritual poems for the religious side of you and some political satire for radical in you Life is a series of experiences to be embrace and enjoy with a full measure
