American Writers and World War I David A. Rennie, 2020-07-31 Looking at texts written throughout the careers of Edith Wharton Ellen La Motte Mary Borden Thomas Boyd F Scott Fitzgerald Laurence Stallings and Ernest Hemingway *American Writers and World War I* argues that authors war writing continuously evolved in response to developments in their professional and personal lives Recent research has focused on constituencies of identity such as gender race and politics registered in American Great War writing Rather than being dominated by their perceived membership of such socio political categories this study argues that writers reacted to and represented the war in complex ways which were frequently linked to the exigencies of maintaining a career as a professional author War writing was implicated in and influenced by wider cultural forces such as governmental censorship the publishing business advertising and the Hollywood film industry *American Writers and World War I* argues that even authors hallmark anti war works are in fact characterized by an awareness of the war's nuanced effects on society and individuals By tracking authors war writing throughout their entire careers in well known texts autobiography correspondence and neglected works this study contends that writers reactions were multifaceted and subject to change in response to their developments as writers and individuals This work also uncovers the hitherto unexplored importance of American cultural and literary precedents which offered writers means of assessing the war Ultimately the volume argues American World War I writing was highly personal complex and idiosyncratic

Embattled Home Fronts Karsten H. Piep, 2009-01-01 *Embattled Home Fronts* is an inquiry into the highly conflicted US American experience of World War I as it plays itself out in the diverse body of novelistic works to which it has given rise and by which it has been in turn shaped and commemorated As such this book naturally concerns itself with the formal aspects of artistic war representation But rather than merely endeavoring to illustrate how American writers from various backgrounds chose to depict World War I the present work seeks to uncover the particular ideologies and political practices that inform these representational choices To this end *Embattled Home Fronts* examines both canonized and marginalized US American World War I novels within the context of contemporaneous debates over shifting class gender and race relations The book contends that

American literary representations of the Great War are shaped less by universal insights into modern society's self destructiveness than by concerted efforts to fashion class gender and race specific experiences of warfare in ways that stabilize and heighten political group identities In moving beyond the customary focus on ironic war representations Embattled Home Fronts illustrates that the representational and ideological battles fought within American World War I literature not only shed light on the emergence of powerful identity political concepts such as the New Woman and the New Negro but also speak to the reappearance of utopian communitarian and social protest fictions in the early 1930s This study Embattled Home Fronts provides a new understanding of the relationship between war literature and home front politics that should be of interest to students and scholars working from a variety of disciplines and perspectives The Nonconformists Brian K. Goodman, 2023-06-20 How risky encounters between American and Czech writers behind the Iron Curtain shaped the art and politics of the Cold War and helped define an era of dissent In some indescribable way we are each other's continuation Arthur Miller wrote of the imprisoned Czech playwright Vclav Havel After a Soviet led invasion ended the Prague Spring many US based writers experienced a similar shock of solidarity Brian Goodman examines the surprising and consequential connections between American and Czech literary cultures during the Cold War connections that influenced art and politics on both sides of the Iron Curtain American writers had long been attracted to Prague a city they associated with the spectral figure of Franz Kafka Goodman reconstructs the Czech journeys of Allen Ginsberg Philip Roth and John Updike as well as their friendships with nonconformists like Havel Josef Klvoreck Ivan Klma and Milan Kundera Czechoslovakia meanwhile was home to a literary counterculture shaped by years of engagement with American sources from Moby Dick and the Beats to Dixieland jazz and rock n roll Czechs eagerly followed cultural trends in the United States creatively appropriating works by authors like Langston Hughes and Ernest Hemingway sometimes at considerable risk to themselves The Nonconformists tells the story of a group of writers who crossed boundaries of language and politics rearranging them in the process The transnational circulation of literature played an important role in the formation of new subcultures and reading publics reshaping political imaginations and transforming the city of Kafka into a global capital of dissent From the postwar dream of a Czechoslovak road to socialism to the neoconservative embrace of Eastern bloc dissidence on the eve of the Velvet Revolution history was changed by a collision of literary cultures *Expeditionary Forces in the First World War* Alan Beyerchen, Emre Sencer, 2019-09-03 When war engulfed Europe in 1914 the conflict quickly took on global dimensions Although fighting erupted in Africa and Asia the Great War primarily pulled troops from around the world into Europe and the Ottoman Empire Amid the fighting were large numbers of expeditionary forces and yet they have remained largely unstudied as a collective phenomenon along with the term expeditionary force itself This collection examines the expeditionary experience through a wide range of case studies They cover major themes such as the recruitment transport and supply of far flung troops the cultural and linguistic dissonance as well as gender relations
