Playgrounds of the Mind Larry Niven, 1992-07-15 Science fiction *Mind and Body*, 1902 *List of References on Play and Playgrounds*, 1916 **Trance Scripts** Randy J. Hartman, 2000-09-20 This book was wrote for use primarily in hypnotic trance The metaphors are useful and curative in nature **Play and the Artist's Creative Process** Elly Thomas, 2019-02-08 Play and the Artist s Creative Process explores a continuity between childhood play and adult creativity The volume examines how an understanding of play can shed new light on processes that recur in the work of Philip Guston and Eduardo Paolozzi Both artists distinctive engagement with popular culture is seen as connected to the play materials available in the landscapes of their individual childhoods Animating or toying with material to produce the unforeseen outcome is explored as the central force at work in the artists processes By engaging with a range of play theories the book shows how the artists studio methods can be understood in terms of game strategies **Library Leaflet**, 1919 **Play Intelligence** James W. Findlay, 2014-12-30 On the whim of an idea a sophomore student unlike any other sophomore takes on the might of the academic world with one of the most thought provoking books written on psychology and philosophy Play Intelligence From IQ to PIQ challenges the very heart of our modern science with a radical if not explosive hypothesis that human intelligence is playing He takes on two of the most difficult concepts in science since we first began to think of science What is intelligence and why do we play as we do With a simple toy brick he demonstrates how play affects our brain and thought processes and how our abilities transfer from one intelligence to another He also demonstrates how play is vital in our education and communication for both children and adults Like the children all around us if we dare but play we could face the challenges in our daily life and have fun while doing so *District of Columbia Appropriation Bill, 1927* United States. Congress. Senate. Committee on Appropriations, 1926 Hearings United States. Congress. Senate. Appropriations Committee, 1926 The Design of Childhood Alexandra Lange, 2018-06-12 From building blocks to city blocks an eye opening exploration of how children s playthings and physical surroundings affect their development Parents obsess over their children s playdates kindergarten curriculum and every bump and bruise but the toys classrooms playgrounds and neighborhoods little ones engage with are just as important These objects and spaces encode decades even centuries of changing ideas about what makes for good child rearing and what does not Do you choose wooden toys or plastic or increasingly digital What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety How can the built environment help children cultivate self reliance In these debates parents educators and kids themselves are often caught in the middle Now prominent design critic Alexandra Lange reveals the surprising histories behind the human made elements of our children s pint size landscape Her

fascinating investigation shows how the seemingly innocuous universe of stuff affects kids behavior values and health often in subtle ways And she reveals how years of decisions by toymakers architects and urban planners have helped and hindered American youngsters journeys toward independence Seen through Lange s eyes everything from the sandbox to the street becomes vibrant with buried meaning The Design of Childhood will change the way you view your children s world and your own
