Outdoor and Urban Survival J.D. Rockefeller,2015-07-17 There s a lot of misconceptions out there about how urban survival and wilderness survival camping do or do not fit together Arguments range from saying wilderness survival skills and camping can help in urban survival situations to saying all you that s needed for long term urban survival is your survival or camping gear The truth does however lie in between Regardless you level of experience or the amount of skill this guide has some great stuff to share about outdoor and urban survival In both urban and wilderness survival the most crucial and common factor that determine whether you ll succeed or fail lies in your mindset The fundamentals of survival are common to urban and wilderness scenarios shelter food security medical water and fire However there some notable differences In wilderness or outdoor survival scenarios it will normally be you or group of people trying to survive off from the land or from what you ve been able to carry along In other words you can think of a wilderness survival scenario as you vs the world A typical character you can identify such situations with is John Rambo where it s basically him vs the world Quite often wilderness survival scenarios take place because there isn t anyone else around Long term urban survival on the other hand is a totally different situation to this regard There will be people around you After being able to keep yourself under control a crucial factor that will determine your long term urban survival will be how well you can interact with different people Are you able to forge relationships and friends Are you willing to exchange services and or goods with other people Can you achieve this in such a way that you ll be able to get good deals and still maintain good relationships with those other people in the future Have your actions been in such a way that people will look for you when they need help These are some vital attributes and things to consider when looking to survive in an urban setup Let s get started [The Self-Reliance Manifesto](#)
