Poetas De La Palabra Hablada Un Estudio De La Poesia Hispanoamericana Contemporanea:

Poetas de la palabra hablada Rosa Sarabia, 1997 The use of colloquial language in the works of contemporary Latin American poets

Sensing Decolonial Aesthetics in Latin American Arts Juan G. Ramos, 2018-03-06 This book proposes a critical reevaluation of antipoetry, nueva canci n and third cinema in relation to decolonial theory and contemporary aesthetic inquiries A prime objective of the book as a whole is to bring these separate art forms into dialogue with each as collectively contributing to an archive of decolonial art forms

2017 Mariana Aguirre, Rosa Sarabia, Renée M. Silverman, Ricardo Vasconcelos, 2017-04-24 Futurism Studies in its canonical form has followed in the steps of Marinetti's concept of Futurisme mondial according to which Futurism had its centre in Italy and a large number of satellites around Europe and the rest of the globe Consequently authors of textbook histories of Futurism focus their attention on Italy add a chapter or two on Russia and dedicate next to no attention to developments in other parts of the world Futurism Studies tends to see in Marinetti's movement the font and mother of all subsequent avant gardes and deprecates the non European variants as mere derivatives Vol 7 of the International Yearbook of Futurism Studies will focus on one of these regions outside Europe and demonstrate that the heuristic model of centre periphery is faulty and misleading as it ignores the originality and inventiveness of art and literature in Latin America Futurist tendencies in both Spanish and Portuguese speaking countries may have been in part influenced by Italian Futurism but they certainly did not derive from it The shift towards modernity took place in Latin America more or less in parallel to the economic progress made in the underdeveloped countries of Europe Italy and Russia have often been described as having originated Futurism because of their backwardness compared to the industrial powerhouses England Germany and France According to this narrative Spain and Portugal occupied a position of semi periphery They had channelled dominant cultural discourses from the centre nations into the colonies However with the rise of modernity and the emergence of independence movements cultural discourses in the colonies undertook a major shift The revolt of the European avant garde against academic art found much sympathy amongst Latin American artists as they were engaged in a similar battle against the canonical discourses of colonial rule One can therefore detect many parallels between the European and Latin American avant garde movements This includes the varieties of Futurism to which Yearbook 2017 will be dedicated In Europe the avant garde had a complex relationship to tradition especially its primitivist varieties In Latin America the avant garde also sought to uncover and incorporate alternative i.e indigenous traditions The result was a hybrid form of art and literature that showed many parallels to the European avant garde but also had other sources of inspiration Given the large variety of indigenous cultures on the American continent it was only natural that many heterogeneous mixtures of Futurism emerged there Yearbook 2017 explores this plurality of Futurisms and the cultural traditions that influenced them Contributions focus on the intertextual character of Latin American Futurisms interpret works of literature and fine arts within their local setting consider modes of

production and consumption within each culture as well as the forms of interaction with other Latin American and European centres 14 essays locate Futurism within the complex network of cultural exchange unravel the Futurist contribution to the complex interrelations between local and the global cultures in Latin America and reveal the dynamic dialogue as well as the multiple forms of cross fertilization that existed amongst them 2015 Günter Berghaus,2015-07-01 The special issue of International Yearbook of Futurism Studies for 2015 will investigate the role of Futurism in the uvre of a number of Women artists and writers These include a number of women actively supporting Futurism e g R ena Z tkov Edyth von Haynau Olga Rozanova Eva K hn others periodically involved with the movement e g Valentine de Saint Point Aleksandra Ekster Mary Swanzky others again inspired only by certain aspects of the movement e g Natalia Goncharova Alice Bailly Giovanna Klien Several artists operated on the margins of a Futurist inspired aesthetics but they felt attracted to Futurism because of its support for women artists or because of its innovatory roles in the social and intellectual spheres Most of the artists covered in Volume 5 2015 are far from straightforward cases but exactly because of this they can offer genuinely new insights into a still largely under researched domain of twentieth century art and literature Guiding questions for these investigations are How did these women come into contact with Futurist ideas Was it first hand knowledge poems paintings manifestos etc or second hand knowledge usually newspaper reports or personal conversions with artists who had been in contact with Futurism How did the women respond to the positive or negative reports How did this show up in their uvre How did it influence their subsequent often non Futurist career

La futuridad absoluta de Vicente Huidobro Luis Correa-Díaz,Scott Weintraub,2018-10-15 La aproximacion del presente libro apunta a entablar una conversacion con y posteriormente responder a un movimiento hecho desde la absoluta modernidad hasta una absoluta futuridad de los proyectos textuales del poeta chileno Vicente Huidobro 1893 1948 Los escritos huidobrianos son continuamente contemporaneos en un sentido extremo y urgente e invitan a constantes reinterpretaciones y recontextualizaciones tal como es el caso de los trece ensayos incluidos en este estudio
