Ideology, Culture & the Process of Schooling Henry A. Giroux,1984-10 This book lays bare the ideological and political character of the positivist rationality that has been the primary theoretical underpinning of educational research in the United States These assumptions have expressed themselves in the form and content of curriculum classroom social relations classroom cultural artifacts and the experiences and beliefs of teachers and students Have existing radical critiques provided the theoretical building blocks for a new theory of pedagogy The author attempts to move beyond the abstract negative characteristics of many radical critiques which are often based on false dualisms that fail to link structure and intentionally content and process ideology and hegemony etc He also is critical of the over determined models of socialization and the abstract celebration of subjectivity that underlies much of the false utopianism of many radical perspectives Professor Giroux begins to lay the theoretical groundwork for developing a radical pedagogy that connects critical theory with the need for social action in the interest of individual freedom and social reconstruction Author note Henry A Giroux is Assistant Professor of Education at Boston University He is the co editor of Curriculum and Instruction Alternatives in Education and The Hidden Curriculum and Moral Education

Literary and Visual Representations of HIV/AIDS

Aimee Pozorski, Jennifer J. Lavoie, Christine J. Cynn, 2019-11-06 Literary and Visual Representations of HIV AIDS Forty Years Later depicts how film and literature about the HIV AIDS crisis expand upon the issues generated by the epidemic This collection fills an important gap in the scholarship on HIV AIDS by bringing together essays by both established and junior scholars on visual and literary representations of HIV AIDS Almost forty years after the first reported cases of what would later be defined as AIDS this book looks back across the decades at works of literature and film to discuss how the representation of HIV AIDS has shifted in media This book argues that literature constitutes a very powerful response to AIDS that ripples into film and politics driving the changes in past and contemporary representations of HIV AIDS The book also expands discussion of the issues generated and amplified by the epidemic to consider how HIV AIDS has been portrayed in the United States Western and Southern Africa Western Europe and East Asia

Kelley, 1994-12-17 This collection of original essays brilliantly interrogates the often ambivalent place of Africa in the imaginations cultures and politics of its New World descendants Combining literary analysis history biography cultural studies critical theory and politics Imagining Home offers a fresh and creative approach to the history of Pan Africanism and diasporic movements A critical part of the book s overall project is an examination of the legal educational and political institutions and structures of domination over Africa and the African diaspora Class and gender are placed at center stage alongside race in the exploration of how the discourses and practices of Pan Africanism have been shaped Other issues raised include the myriad ways in which grassroots religious and cultural movements informed Pan Africanist political organizations the role of African American and Caribbean intellectuals in the formation of Pan African thought including W E B DuBois C L R James and Adelaide Casely Hayford the historical ideological and institutional connections between African Americans and South Africans and the problems and prospects of Pan Africanism as an emancipatory strategy for black people throughout the Atlantic

Sexual Harassment of Working Women Catharine A.

MacKinnon, Professor Catharine A MacKinnon, 1979-01-01 A comprehensive legal theory is needed to prevent the persistence of sexual harassment Although requiring sexual favors as a quid pro quo for job retention or advancement clearly is unjust the task of translating that obvious statement into legal theory is difficult To do so one must define sexual harassment and decide what the law s role in addressing harassment claims should be In Sexual Harassment of Working Women Catharine MacKinnon attempts all of this and more In making a strong case that sexual harassment is sex discrimination and that a legal remedy should be available for it the book proposes a new standard for evaluating all practices claimed to be discriminatory on the basis of sex Although MacKinnon s inequality theory is flawed and its implications are not considered

sufficiently her formulation of it makes the book a significant contribution to the literature of sex discrimination MacKinnon calls upon the law to eliminate not only sex discrimination but also most instances of sexism from society She uses traditional theories in an admittedly strident manner and relies upon both traditional and radical feminist sources The results of her effort are mixed The book is at times fresh and challenging at times needlessly provocative <https://www.jstor.org> Sep 30 2016

Radical Christianity Christopher Rowland,2004-12-09 At different times and places Christian ideas have had a radical critical role and have served as a basis for programs of social change This concise and clearly written book documents the history of radical Christianity by discussing some of the most important developments and figures from the millenarian movements of early Christianity to the liberation theology of today Christopher Rowland begins by discussing the character and transformation of early Christian ideas and the ongoing patterns of protest against the status quo Subsequent chapters deal with the legacy of the Apocalypse and with the work of Thomas Muenzer and Gerrard Winstanley A final chapter on liberation theology examines the role of religion in Latin America today where basic Christian communities have emerged as power houses of social and political reform Radical Christianity is a reading of recovery which shows that social criticism and hope for a better world are integral features of the Christian tradition The book will be of great interest to students of religion and to anyone concerned with the role of religious ideas in past and present day societies

Managerial Prerogative and the Question of Control (Routledge Revivals) John Storey,2014-10-10 In both Marxist and non Marxist scholarship there has been a remarkable neglect of the managerial control of labour John Storey's analysis of the modern labour process shows that managerial control is in fact more precarious than has been so far recorded This book first published in 1983 reassesses the Braverman theory of the inexorable degradation of work and demonstrates the need to go beyond not only Braverman but also most of the ensuing attempts to complement or repair his underlying thesis The book will be of interest to students of the social sciences
