Radical Heroes Gramsci Freire And The Politics Of Adult Education:

Radical Heroes Diana Coben, 2013-10-08 First Published in 1998 This book examines the ideas of two of the most controversial radical heroes of adult education Antonio Gramsci and Paulo Freire gauging their significance for the development of a radical politics of adult education in the post Soviet post apartheid new world order Gramsci offers a noble vision of the role of adult education in the creation of revolutionary Marxist hegemony but the cause he lived and died for has all but collapsed Nevertheless his distinction between common sense and good sense his theory of the intellectual and his concept of hegemony bear scrutiny today In Freire's pedagogy of the oppressed the relationship between leader and followed teacher and student is problematic and this book questions whether his pedagogy has the liberating potential he envisioned The author considers and rejects the linkage of Gramsci's and Freire's ideas in the adult education literature Nonetheless Gramsci and Freire have huge symbolic importance as radical heroes in an under theorized and marginalised field The study highlights a problem with the radical hero phenomenon when individuals become icons their ideas cease to be open and new insights do not emerge as challenge becomes inadmissible and debate dies While neither Gramsci nor Freire can provide us with answers Gramsci helps us address the difficult questions of purpose and content in the politics of adult education

Gramsci and Education Carmel Borg, Joseph A. Buttigieg, Peter Mayo, 2002 Antonio Gramsci 1891-1937 is one of the major social and political theorists of the 20th century whose work has had an enormous influence on several fields including educational theory and practice Gramsci and Education demonstrates the relevance of Antonio Gramsci's thought for contemporary educational debates The essays are written by scholars located in different parts of the world a number of whom are well known internationally for their contributions to Gramscian scholarship and or educational research The collection deals with a broad range of topics including schooling adult education in general popular education workers education cultural studies critical pedagogy multicultural education and the role of intellectuals in contemporary society

Using Gramsci Michele Filippini, 2016-11-20 Thought of as one of the world's greatest political theorists Antonio Gramsci's writings push readers to interpret and change the world In *Using Gramsci* Michele Filippini enlarges upon his seminal works disentangling it from the prevailing orthodoxy in Gramscian analysis The book explores his work on ideology the individual collective organisms crisis and temporality in addition to the more traditional areas of his thought such as hegemony and civil society Through this close examination the use value of Gramscian theoretical instruments to a broad range of disciplines including political science education language cultural studies postcolonial studies anthropology and geography becomes apparent Filippini's approach explicates and emphasises the importance of one of the most popular and enduring Marxist figures

Global Perspectives on Adult Education A. Abdi, Dip Kapoor, 2008-12-22 This book demonstrates how processes of globalization economic cultural socio political are creating new possibilities and inequities and are thereby creating corresponding roles for adult education and learning in the South Africa Asia South America that

are embedded in multiple political economic and cultural projects for social change Bourgeois Ideology and Education Steven Snow, 2018-01-19 This book identifies the origins and central assertions of bourgeois ideology as well as the reasons for their persuasive power and offers pedagogical tools to weaken them The author suggests techniques for use in the classroom the community and the imagination that subvert negative stereotypes about poor people and individualist explanations for socio economic status Written from an ecumenical socialist perspective combining Marxist neo Marxist and anarchist perspectives this book utilizes a broad interdisciplinary scope encompassing political theory religion political psychology and literature *Critical Theories, Radical Pedagogies, and Global Conflicts* Gustavo Fischman, 2005 We are living in a time of resurgent global conflicts and imperialistic tensions a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education The efforts of countless teachers activists and families working and living in poor areas around the world are labeled as failures entirely discredited on the basis of their expendability in relation to capital gains or simply ignored In response to these oppressive and challenging conditions this book s contributors a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations In a clear attempt to move beyond both nostalgia and romanticism *Critical Theories Radical Pedagogies and Global Conflicts* draws from a range of viewpoints conceptual and thematic transnational and crosscultural First World and Third World to articulate new directions for teachers and activists working to demonstrate that another education and indeed another world is possible *Teaching Adults* Rogers, Alan, Horrocks, Naomi, 2010-06-01 *Teaching Adults* *Adult Literacy in a New Era* Dianne Ramdeholl, 2015-12-14 *Adult Literacy in a New Era* chronicles the history and development of The Open Book an adult literacy organisation inspired by the legendary educationalist Paulo Freire and other political educators Using participants own words and experiences Ramdeholl analyses and investigates adult literacy policy and aspects of the program s history from its beginning in 1984 to its end in 2001 Offering new insights into methodologies of reading writing and learning this book will inspire not only adult literacy students and teachers but anyone concerned with changing public policy from the bottom up *The SAGE Handbook of Qualitative Research* Norman K. Denzin, Yvonna S. Lincoln, Michael D. Giardina, Gaile S. Cannella, 2023-06-19 This new edition of the SAGE Handbook of Qualitative Research represents the sixth generation of the ongoing conversation about the discipline practice and conduct of qualitative inquiry As with earlier editions the Sixth Edition is virtually a new volume with 27 of the 34 chapters representing new topics or approaches not seen in the previous edition To mark the Handbook s 30 year history we are pleased to offer a bonus PART VI in the eBook versions of the Sixth Edition this additional section brings together and reprints ten of the most famous or game changing contributions from the previous five editions The Routledge International Handbook of Lifelong

Learning Peter Jarvis, 2009-05-07 As lifelong learning grows in popularity few comprehensive pictures of the phenomenon have emerged The Routledge International Handbook of Lifelong Learning provides a disciplined and complete overview of lifelong learning internationally The theoretical structure puts the learner at the centre and the book emanates from there pointing to the social context beyond the learner Up to the minute syntheses from many of the leading international experts in the field give vital snapshots of this rapidly evolving subject from wide ranging perspectives including learning throughout life sites of lifelong learning modes of learning policies social movements issues in lifelong learning geographical dimensions This authoritative volume essential reading for academics in the field of Lifelong Learning examines the complexities of the subject within a systematic global framework and places it in its socio historic context *Adults' Mathematical Thinking and Emotions* Jeff Evans, 2002-01-04 The crisis around teaching and learning of mathematics and its use in everyday life and work relate to a number of issues These include The doubtful transferability of school maths to real life contexts the declining participation in A level and higher education maths courses the apparent exclusion of some groups such as women and the aversion of many people to maths This book addresses these issues by considering a number of key problems in maths education and numeracy differences among social groups especially those related to gender and social class the inseparability of cognition and emotion in mathematical activity the understanding of maths anxiety in traditional psychological psychoanalytical and feminist theories how adults numerate thinking and performance must be understood in context The author's findings have practical applications in education and training such as clarifying problems of the transfer of learning and of countering maths anxiety Revolutionary Learning Sara Carpenter, Shahrzad Mojab, 2017-02-20 Revolutionary Learning explores the Marxist and feminist theorisation of dialectics praxis and consciousness in education and learning Moving beyond previous books on Marxism and education which tend to focus on the reproductive nature of educational institutions this groundbreaking text draws upon work by leading feminist anti racist and anti colonial scholars in its exploration of the key philosophical concepts that build the Marxist analysis of learning Alongside chapters dealing with adult education institutional ethnography and the promotion of civic engagement the authors also reassess the contributions of Marx Gramsci and Freire to educational theory Adopting an innovative and explicitly feminist perspective they relocate these theorists Marxist analyses of education into a more complex relation to patriarchal and imperialist capitalism With significant implications for critical education scholarship research and practice Revolutionary Learning's importance lies not only in its contribution to theory but its extension into pedagogical practice with special attention to how a revolutionary critique of ideology is taken up by educators in their daily work The SAGE Handbook of Educational Action Research Susan E Noffke, Bridget Somekh, 2009-05-07 This handbook presents and critiques predominant and emergent traditions of Educational Action Research internationally Now a prominent methodology Educational Action Research is well suited to exploring developing and sustaining change processes both in classrooms and whole organisations such as schools

Departments of Education and many segments of universities The handbook contains theoretical and practical based chapters by highly respected scholars whose work has been seminal in building knowledge and expertise in the field It also contains chapters exemplifying the work of prominent practitioner and community groups working outside universities The Editors provide an introduction and conclusion as well as an opening chapter which charts the historical development of action research and provides an analysis of its underlying theories The handbook is organized into four sections each beginning with a short introduction Action research methodology diversity of rationales and practices Professional Knowledge production staff development and the status of educators Personal Self awareness development and identity Political Popular knowledge difference and frameworks for change This is a key resource for scholars and graduate students at doctors and masters levels as well as school leaders and administrators Susan Noffke is Associate Professor of Curriculum Instruction at the University of Illinois Urbana Champaign and co editor with R B Stevenson of Educational Action Research Teachers College Press 1995 She taught at the primary school level for a decade and has led masters and doctoral level courses in action research for the past 20 years She continues to work with many collaborative projects with schools and school districts Bridget Somekh is Professor of Educational Research at Manchester Metropolitan University UK She is a founder editor of the Educational Action Research journal and has been a co ordinator of the Collaborative Action Research Network CARN for many years She is co editor of Research Methods in the Social Sciences SAGE 2005 and author of Action Research a Methodology for Change and Development Open University Press 2006

Perspectives on Adults Learning Mathematics D. Coben,J. O'Donoghue,Gail E. FitzSimons,2006-05-10 At a time when the importance of lifelong education is becoming recognised around the world this is the first book to explore an important but hitherto neglected area adult mathematics education This book is about adults learning mathematics wherever and in whatever circumstances they do so It brings together researchers in the field and aims to lay the foundations for study and further research and practice in this fast developing area It aims to situate research and practice in adults learning mathematics within the wider field of lifelong learning and lifelong education and to be accessible both to the specialist and to the general adult reader The book features a comprehensive review of the field which sets the scene for sections on Perspectives on Research on Adults Learning Mathematics Adults Mathematics Culture and Society Adults Mathematics and Work and Perspectives in Teaching Adults Mathematics Topics covered include mathematics and common sense statistical literacy and numeracy new theories on learning mathematics mathematical competences for the workplace ethnomathematics and the training of tutors Grateful Nation Ellen Moore,2017-10-26 In today s volunteer military many recruits enlist for the educational benefits yet a significant number of veterans struggle in the classroom and many drop out The difficulties faced by student veterans have been attributed to various factors poor academic preparation PTSD and other postwar ailments and allegedly antimilitary sentiments on college campuses In Grateful Nation Ellen Moore challenges these narratives by tracing the experiences of

Iraq and Afghanistan war veterans at two California college campuses Drawing on interviews with dozens of veterans classroom observations and assessments of the work of veteran support organizations Moore finds that veterans academic struggles result from their military training and combat experience which complicate their ability to function in civilian schools While there is little evidence of antimilitary bias on college campuses Moore demonstrates the ways in which college programs that conflate support for veterans with support for the institutional military lead to suppression of campus debate about the wars discourage antiwar activism and encourage a growing militarization Medici Women Jennifer Sumner, Gabrielle Langdon, 2006-01-01 Sustainability and the Civil Commons moves beyond rural roots to build a comprehensive understanding of sustainability that combines global reach with local focus Understanding the Adult Learner Alisa Belzer, Brian Dashew, 2023-07-03 Adults seek out learning for very different reasons in different contexts and this book is intended to support adult educators development in responding to this rich array There is no single way to be an adult learner and so it should not be surprising that there is no single way to be an adult educator However the authors believe that all educators must demonstrate a commitment to meeting adult learners where they are Adult educators should help learners move forward not only with new content knowledge information and skills but also with new ways of making meaning and seeing themselves their role and the world This volume introduces many theories and concepts that can help adult educators do this effectively *The Critical Turn in Education* Isaac Gottesman, 2016-03-17 The Critical Turn in Education traces the historical emergence and development of critical theories in the field of education from the introduction of Marxist and other radical social theories in the 1960s to the contemporary critical landscape The book begins by tracing the first waves of critical scholarship in the field through a close contextual study of the intellectual and political projects of several core figures including Paulo Freire Samuel Bowles and Herbert Gintis Michael Apple and Henry Giroux Later chapters offer a discussion of feminist critiques the influx of postmodernist and poststructuralist ideas in education and critical theories of race While grounded in U S scholarship The Critical Turn in Education contextualizes the development of critical ideas and political projects within a larger international history and charts the ongoing theoretical debates that seek to explain the relationship between school and society Today much of the language of this critical turn has now become commonplace words such as hegemony ideology and the term critical itself but by providing a historical analysis The Critical Turn in Education illuminates the complexity and nuance of these theoretical tools which offer ways of understanding the intersections between individual identities and structural forces in an attempt to engage and overturn social injustice Non-Formal Education Alan Rogers, 2005-04-04 This is the first full study of non formal education on an international scale since the 1980s The book describes the emergence of the concept in the context of development and educational reform It traces the debate about non formal education from its origins in 1968 to the mid 1980s and looks at the issues that this debate raised It then describes a number of programmes in different parts of the world which call themselves non formal

pointing out the wide range of different views about what is and what is not non formal Rogers asks whether we should drop the term altogether or try to reconceptualise it in terms of flexible schooling or participatory education This is an important new book by a well established author It deals with complex issues but is written in a clear style It contains an important new analysis of the development paradigms in which the controversies surrounding non formal education grew up and which shaped its purpose and impacts The author s call for a reformulation of the concept will find echoes not only in developing societies but also in Western circles where the language of non formal education is being used increasingly within the context of lifelong learning The book grew out of the teaching of non formal education in which Professor Rogers has been engaged for the last 20 years It is intended for teachers and students in comparative education courses in higher education institutions and for researchers and others with an interest in the field

Ethnography and Schools Yali Zou, Enrique T. Trueba, 2002-06-25 The ethnographic experience is an indelible venture that continuously redefines one s life Bringing together important cross currents in the national debate on education this book introduces the student or practitioner to the challenges resources and skills informing ethnographic research today From the first chapter describing the cultural foundations of ethnographic research by George Spindler the book traces both traditional and new approaches to the study of schools and their communities Emphasis on discourse critical pedagogy and ethnicity are among the many aspects of methodology and educational change emphasized by the contributors
