BRITISH HISTORY IN PERSPECTIVE

# Radical Right In Britain

**Paul Jackson**

## Radical Right In Britain:

*The Radical Right in Britain* Alan Sykes, 2005-03 In many and varied forms the Radical Right has been a hyper nationalist thorn in the side of Britain's liberal political system for over 100 years This book examines its troublesome history and its critique of British society

**Revolt on the Right** Robert Ford, Matthew J Goodwin, 2014-03-17 Winner of the Political Book of the Year Award 2015 The UK Independence Party UKIP is the most significant new party in British politics for a generation In recent years UKIP and their charismatic leader Nigel Farage have captivated British politics media and voters Yet both the party and the roots of its support remain poorly understood Where has this political revolt come from Who is supporting them and why How are UKIP attempting to win over voters And how far can their insurgency against the main parties go Drawing on a wealth of new data from surveys of UKIP voters to extensive interviews with party insiders in this book prominent political scientists Robert Ford and Matthew Goodwin put UKIP's revolt under the microscope and show how many conventional wisdoms about the party and the radical right are wrong Along the way they provide unprecedented insight into this new revolt and deliver some crucial messages for those with an interest in the state of British politics the radical right in Europe and political behaviour more generally

*The Oxford Handbook of the Radical Right* Jens Rydgren, 2018-02-01 The resurgence of strong radical right wing parties and movements constitutes one of the most significant political changes in democratic states during the past several decades particularly in Europe The radical right's comeback has notably attracted interest from political scientists sociologists and historians although the majority of past research focuses on party and electoral politics In contrast *The Oxford Handbook of the Radical Right* not only covers existing literature but also shows how the radical right forms movements rather than parties Editor Jens Rydgren has gathered an international cast of contributors to cover concepts and definitions ideologies and discourses and a range of contemporary issues such as religion globalization gender and activism Further this volume is one of few to provide a number of cases focusing on areas outside of Europe including Russia the US Australia Israel and Japan By integrating various strands of scholarship on the radical right that covers different regions and different research perspectives this Handbook provides an authoritative and state of the art overview of the topic and will set the agenda for scholarship on the radical right for years to come

*A.K. Chesterton and the Evolution of Britain's Extreme Right, 1933-1973* Luke LeCras, 2019-12-06 Arthur Kenneth A K Chesterton was a soldier journalist and activist whose involvement with fascist and extreme right wing politics in Britain spanned four decades Beginning with his recruitment to Oswald Mosley's Blackshirts in the 1930s Chesterton's ideological relationship with fascism nationalism and anti-Semitism would persist far beyond the collapse of the interwar movements culminating in his role as a founder of the National Front in 1967 This study examines Chesterton's significance as a bridging figure between two eras of extreme right activity in Britain and considers the ideological and organizational continuity that existed across the interwar and post war periods It further uses Chesterton's life as a means to explore the persistence of racism and anti

Semitism within British society as well as examining the political conflicts and tactical disputes that shaped the extreme right as it attempted to move from the margins to the mainstream This book will appeal to students and researchers with an interest in fascism studies British political history extremism and anti-Semitism      **Extreme Britain** Elizabeth Pearson, 2024 Drawing on interviews with extremists this timely study explores the relationship between gendered culture and political radicalism using Britain as a case study      **Mapping the Extreme Right in Contemporary Europe** Andrea Mammone, Emmanuel Godin, Brian Jenkins, 2012 In recent years the revival of the far right and anti-Semitic racist and fascist organizations has posed a significant threat throughout Europe Mapping the Extreme Right in Contemporary Europe provides a broad geographical overview of the dominant strands within the contemporary radical right in both Western and Eastern Europe After providing some local and regional perspectives the book has a series of national case studies of particular countries and regions including Austria Belgium Bosnia Herzegovina Croatia Eastern Europe France Germany Greece Italy Malta Portugal Romania Scandinavia Serbia Spain Switzerland Turkey Ukraine and the United Kingdom A series of thematic chapters examine transnational phenomena such as the use of the Internet the racist music scene cultural transfers and interaction between different groups Drawing together a wide range of contributors this is essential reading for all those with an interest in contemporary extremism fascism and comparative party politics      The New Extremism in 21st Century Britain Roger Eatwell, Matthew Goodwin, 2012-11-12 Since the 1990s there has been a growing concern about the resurgence of extremist and radical movements in the Western world Although a variety of challenges to the liberal democratic order have emerged the main focus of concern among academics policy makers and practitioners within Europe and beyond has been on the growth and activities of Islamists and to a lesser extent the extreme right However these forms of extremism are seldom placed alongside each other and in a manner that is sensitive to both the causes and consequences of extremist mobilization This book presents new empirical research on the causes of these two new extremisms in 21st Century Britain and the appropriate responses to it by both the state and civil society Both forms of extremism pose vital questions for those concerned with the development of a more cohesive and stable society Unlike many studies this volume adopts a holistic approach bringing together experts from a variety of disciplines to examine the factors that cause support and the potential policy responses including key questions such as What is the current level of support for Islamism and right wing extremism Who votes for extreme right parties such as the BNP in modern Britain and despite its recent gains why has the extreme right achieved only limited success What are the steps of recruitment into radical violent takfiri jihadism How effective are current responses to Islamism and the extreme right such as those offered by Preventing Violent Extremism PVE wider public policy and policing What is the potential role of political actors media and civil society in responding to the extremist challenge Challenging broad assumptions and bringing together leading scholars in this rapidly developing field this work is essential reading for all those with an interest in terrorism fascism political extremism social cohesion and the

future of race relations      **The Populist Radical Right and Health** Michelle Falkenbach, Scott L. Greer, 2021-09-07 This contributed volume is the first in depth analysis of the health policies of populist radical right PRR parties worldwide and their actual involvement in health care The prominence of authoritarian nationalistic and populist parties is expanding steadily However it is often difficult to discern what kind of policies they really stand for particularly with regard to the welfare state and public health where research remains sparse This book fills this critical gap The text connects PRR parties and leaders with actual health and social policy effects in Eastern and Western Europe as well as in the United States Brazil and the Philippines The chapters highlight ten individual country case studies authored by young scholars and professors with political science and health experts The Austrian Freedom Party in Government A Threat to Public Health The Alternative for Germany AfD and Health Policy Normalization or Containment of Populist Radical Right Tendencies Populist Radical Right Influence on Health Policy in the Netherlands The Case of the Party for Freedom PVV The Evolution of the Populist Radical Right and Their Impact on Health in Italy The Populist Radical Right and Health in Hungary Is the Polish Law and Justice PiS a Typical Populist Radical Right Party A Health Policy Perspective The Case of the United Kingdom Independence Party UKIP Rhetoric and Reality in the United States of America Trump Populism and Health Policy Ruling Through Chaos in Brazil Bolsonaro s Authoritarian Agenda for Public Health An Authoritarian Reaction to COVID 19 in the Philippines A Strong Commitment to Universal Health Care Combined with Violent Securitization The Populist Radical Right and Health is exceptionally timely and essential reading for political science and health colleagues researching and writing about PRR parties and leaders students and faculty in public health health and social policy and political science and anyone interested in learning more about this topic      *Class Politics and the Radical Right* Jens Rydgren, 2013 One of the most significant events in European politics the past two decades is the emergence of radical right wing parties mobilizing against immigration and multiethnic societies Such parties have established themselves in a large number of countries often with voter shares exceeding ten and sometimes even twenty percent Many of these parties exert a real influence on the policy within respective country The emergence of the recent wave of radical right wing party politics has generated a large and growing literature spanning a variety of dimensions such as ideology voting and policy impact This volume will cover all these dimensions but it will in particular focus on two questions why is it that the working class tends to be especially attracted by the radical right wing parties And what does the radical right wing parties growing electoral successes mean for Social Democracy and the traditional left in Europe which are meeting growing competition from the radical right over working class voters Bringing together the leading scholars within this field this book makes a unique contribution by focusing on the relationship between class politics and the radical right      The Radical Right in Western Europe Herbert Kitschelt, Anthony J. McGann, 1997 An in depth analysis of radical right parties in seven countries      New British Fascism Matthew Goodwin, 2011-05-05 This book examines the recent development of the far right in Britain against the backdrop of

changing public attitudes toward race and immigration in Britain Focusing in particular on the British National Party BNP which has been the most electorally successful far right party in British history the book examines the worrying rise in support for extremist and racist ideas *Contemporary British Fascism* N. Copsey,2016-02-02 For the first time since the 1970s when the National Front became Britain's fourth largest political party the recent electoral success of the British National Party has put Britain's extreme right back on the political map Nigel Copsey provides a clear and comprehensive analysis of the history of the British National Party and its struggle for political legitimacy With far right parties enjoying unprecedented success across Europe this book also locates its subject in the broader international context *Hitler's British Nazis* Norman Ridley,2024-05-30 Following the end of the First World War many countries experienced economic decline Unemployment high inflation low wages and poor working conditions led to widespread unrest This manifested itself in the rise of powerful militaristic leaders first in Italy where fascism was born and then in Germany and elsewhere The policies of the likes of Mussolini and Hitler were hugely popular and fascism was seen by many as a viable political alternative to democracy To some degree these ideals also gained traction in the UK where some individuals in and among the elite of British society believed fascism was the way forward for the country This is fully explored in *Hitler's British Nazis* which traces the evolution of extreme right wing opinion from the turn of the century right through to the end of the Second World War In particular it looks at the way British fascism developed its own character due to Britain having been on the winning side during the First World War Early fascist movements of the 1920s are analyzed including the fascist tendencies of the Suffragette Movement The book then traces the way in which domestic politics and the dire economic situation of the early 1930s created a political vacuum that was filled by Oswald Mosley and his Blackshirt Movement Throughout the 1930s right wing sympathisers looked to Hitler's Germany rather than to Mussolini's Italy for inspiration Some members of aristocratic and political elites many with virulent anti Semitic views saw in German fascism a template for Britain to build on but remained wilfully blind to the excesses of the Nazi regime that were getting worse by the day The book looks at the way in which Nazi Germany was depicted in the press and how powerful press barons many of whom were pro German and supported Chamberlain's appeasement policies were able to influence public opinion The role of the Mitford sisters Unity in particular is explored in detail as is the influence of the Cliveden Set under the leadership of the Astors and perhaps most interesting of all is the role played by King Edward VIII and Wallis Simpson as they flirted unashamedly with fascism and threatened to take Britain down a very different path to that which it took after the abdication **British culture after empire** Josh Doble,Liam Liburd,Emma Parker,2023-03-14 *British culture after Empire* is the first collection of its kind to explore the intertwined social cultural and political aftermath of empire in Britain from 1945 up to and beyond the Brexit referendum of 2016 combining approaches from the fields of history English and cultural studies Against those who would deny downplay or attempt to forget Britain's imperial legacy the various contributions expose and explore how the British

Empire and the consequences of its end continue to shape Britain at the local national and international level As an important and urgent intervention in a field of increasing relevance within and beyond the academy the book offers fresh perspectives on the colonial hangovers in post colonial Britain from up and coming as well as established scholars     **Understanding British Party Politics** Stephen Driver,2011-05-16 This is an excellent text which charts a safe path for students through the minefield that is contemporary British party politics in a wonderfully efficient yet engaging way Colin Hay University Of Sheffield     **British Fascist Antisemitism and Jewish Responses, 1932-40** Daniel Tilles,2014-11-20 This book explores the use of antisemitism by Britain s interwar fascists and the ways in which the country s Jews reacted to this examining the two alongside one another for the first time and locating both within the broader context of contemporary events in Europe Daniel Tilles challenges existing conceptions of the antisemitism of Britain s foremost fascist organisation the British Union of Fascists He demonstrates that it was a far more central aspect of the party s thought than has previously been assumed This in turn will be shown to be characteristic of the wider relationship between interwar European fascism and antisemitism a thus far relatively neglected issue in the burgeoning field of fascist studies Tilles also argues that the BUF s leader Sir Oswald Mosley far from being a reluctant convert to the anti Jewish cause or simply a cynical exploiter of it as much of the existing scholarship suggests was aware of the role antisemitism would play in his fascist doctrine from the start and remained in control of its subsequent development These findings are used to support the notion that contrary to prevailing perceptions Jewish opposition to the BUF played no part in provoking the fascists adoption of antisemitism Britain s Jews did nevertheless play a significant role in shaping British fascism s path of development and the wide ranging and effective anti fascist activity they pursued represents an important alternative narrative to the dominant image of Jews as mere victims of fascism     *Colin Jordan and Britain's Neo-Nazi Movement* Paul Jackson,2016-12-15 Colin Jordan and Britain s Neo Nazi Movement casts fresh light on one of post war Britain s most notorious fascists using him to examine the contemporary history of the extreme right The book explores the wide range of neo Nazi groups that Colin Jordan led contributed to and inspired throughout his time as Britain s foremost promoter of Nazi ideology In a period stretching from the close of the Second World War right up to the 2000s Colin Jordan became politically engaged with a multitude of Nazi inspired extremist groups either as leader or as a key protagonist Moreover Jordan also developed critical relationships with larger competitor extreme right organisations and parties including the Mosley s Union Movement the National Front and the most recent incarnation of the British National Party He fostered a number of transnational links throughout his years of activism as well especially with American neo Nazis In recent years his writings and somewhat idealised profile have been adopted by more contemporary extremist organisations such as the British People s Party and a rekindled British Movement who look to Jordan as an inspirational figure for their own reconfigurations of a National Socialist agenda By examining this history drawing on a wide range of fresh primary sources Colin Jordan and Britain s Neo Nazi Movement offers a new analysis on the

nature and workings of Nazi inspired political extremism in post war Britain It is an important study for anyone interested in the history of fascism extreme ideologies and the political and social history of Britain since the Second World War

**Revolt on the Right** Robert Anthony Ford,Matthew J. Goodwin,2014 The UK Independence Party UKIP is the most significant new party in British politics for a generation In recent years UKIP and their charismatic leader Nigel Farage have captivated British politics media and voters Yet both the party and the roots of its support remain poorly understood Where has this political revolt come from Who is supporting them and why How are UKIP attempting to win over voters And how far can their insurgency against the main parties go Drawing on a wealth of new data from surveys of UKIP voters to extensive interviews with party insiders in this book prominent political scientists Robert Ford and Matthew Goodwin put UKIP s revolt under the microscope and show how many conventional wisdoms about the party and the radical right are wrong Along the way they provide unprecedented insight into this new revolt and deliver some crucial messages for those with an interest in the state of British politics the radical right in Europe and political behaviour more generally The Populist Radical Right Cas Mudde,2016-10-04 The populist radical right is one of the most studied political phenomena in the social sciences counting hundreds of books and thousands of articles This is the first reader to bring together the most seminal articles and book chapters on the contemporary populist radical right in western democracies It has a broad regional and topical focus and includes work that has made an original theoretical contribution to the field which make them less time specific The reader is organized in six thematic sections 1 ideology and issues 2 parties organizations and subcultures 3 leaders members and voters 4 causes 5 consequences and 6 responses Each section features a short introduction by the editor which introduces and ties together the selected pieces and provides discussion questions and suggestions for further readings The reader is ended with a conclusion in which the editor reflects on the future of the populist radical right in light of more recent political developments most notably the Greek economic crisis and the refugee crisis and suggest avenues for future research *Public Opinion and the End of Appeasement in Britain and France* Dr Daniel Hucker,2013-07-28 The 1930s policy of appeasement is still fiercely debated by historians critics and contemporary political commentators more than 70 years after the signing of the 1938 Munich Agreement What is less well understood however is the role of public opinion on the formation of British and French policy in the period between Munich and the outbreak of the Second World War not necessarily what public opinion was but how it was perceived to be by those in power and how this contributed to the policymaking process It therefore fills a considerable gap in an otherwise vast literature seeking to ascertain the extent to which public opinion can be said to have influenced the direction of foreign policy in a crucial juncture of British and French diplomatic history Employing an innovative and unique methodological framework the author distinguishes between two categories of representation firstly reactive representations of opinion the immediate and spontaneous reactions of the public to circumstances and events as they occur and secondly residual representations which can be defined as the remnants of

previous memories and experiences the more general tendencies of opinion considered characteristic of previous years even previous decades It is argued that the French government of douard Daladier was consistently more attuned to the evolution of reactive representations than the British government of Neville Chamberlain and consequently it was the French rather than the British who first pursued a firmer policy towards the European dictatorships This comparative approach reveals a hitherto hidden facet of the diplomatic prelude to the Second World War that British policy towards France and French policy towards Britain were influenced by their respective perceptions of public opinion in the other country A sophisticated analysis of a crucial period in international history this book will be essential reading for scholars of the origins of World War II the political scenes of late 1930s Britain and France and the study of public opinion and its effects on policy
