are the new reality as are tweeting deejays and Apple's Siri serving as music announcer and understand the exciting status this medium has and will continue to have in our digitally inclined society How did popular radio in past decades from President Franklin D Roosevelt's Fireside Chats in the 1930s through Top 40 music and Rush Limbaugh's talk radio empire shape American society How did devices and systems like the iPhone Pandora and YouTube turn the radio industry upside down Does radio still have a future and if so what will we want it to look like Radio 2.0 Uploading the First Broadcast Medium covers the history and evolution of Internet radio explaining what came before where Internet radio came from and where it is likely headed It also gives readers a frame of reference by describing radio from its introduction to American audiences in the 1920s a medium that brought people together through a common experience of the same broadcast and shows how technologies like digital music and streaming music services put into question the very definition of radio By examining new radio and media technologies the book explores an important societal trend the shift of media toward individualized or personalized forms of consumption

**Perceptual Learning** Kevin Connolly, 2019-01-16 Experts from wine tasters to radiologists to bird watchers have all undergone perceptual learning long term changes in perception that result from practice or experience Philosophers have been discussing such cases for centuries from the 14th century Indian philosopher Vedanta Desika to the 18th century Scottish philosopher Thomas Reid and into contemporary times This book uses recent evidence from psychology and neuroscience to show that perceptual learning is genuinely perceptual rather than post perceptual It also offers a taxonomy for classifying cases in the philosophical literature In some cases perceptual learning involves changes in how one attends in other cases it involves a learned ability to differentiate two properties or to perceive two properties as unified Connolly uses this taxonomy to rethink several domains of perception in terms of perceptual learning including multisensory perception color perception and speech perception As a whole the book offers a theory of the function of perceptual learning Perceptual learning embeds into our quick perceptual systems what would be a slower task were it to be done in a controlled cognitive manner A novice wine taster drinking a Cabernet Sauvignon might have to think about its features first and then infer the type of wine while an expert can identify it immediately This learned ability to immediately identify the wine enables the expert to think about other things like the vineyard or the vintage of the wine More generally perceptual learning serves to free up cognitive resources for other tasks This book offers a comprehensive empirically informed account and explores the nature scope and theoretical implications of perceptual learning

**The Radio Times Story** Tony Currie, 2001 *Cincinnati Radio* Michael A. Martini, 2011 Like radio listeners in many other cities its size Greater Cincinnatians have kept their ears tuned to their local radio stations

for music news and entertainment for nearly a century. However, unlike those cities Cincinnati enjoyed several unique broadcast stories ranging from some of the earliest forays into radio dramatics to the country's first 500,000 watt superpower radio station. The listeners were treated to several up and coming celebrities like Doris Day, Rosemary Clooney, Andy Williams, and Fats Waller, the rise of three major communications corporations, and ultimately an amazing array of nationally broadcast network shows and talents that for a brief period placed the city's broadcasters behind only New York and Chicago in terms of importance. With rare and often unpublished images, Cincinnati Radio attempts to capture the first 50 years of that golden era of Cincinnati radio broadcasting in both word and picture. *Buffalo Radio* Martin

Biniasz, 2022-07-18 Since the first broadcasts of Buffalo, New York's pioneer radio stations during the 1920s, the medium has played an important role in the everyday lives of the city's citizens. From snowstorms to Super Bowls, radio and its talented broadcasters have helped to shape the city's identity. Buffalo's longest operating station, WGR, signed on the air in May 1922 and was soon followed by WEBR 1924, WKBW 1926, and WBEN 1930, among others. Over the decades, the city has been home to a number of legendary announcers, including Clint Buehlman and Billy Keaton, and sports broadcasters Ralph Hubble, Bill Mazer, Van Miller, and Stan Barron, as well as beloved talk show hosts like John Otto and pioneer rock and roll DJs like George Hound Dog Lorenz. Buffalo became a breeding ground for network radio stars, including Howdy Doody's Buffalo, Bob Smith, comedian Foster Brooks, NBC Tonight Show host Jack Paar, and Fran Striker, the creator of The Lone Ranger. Top 40 personalities like Joey Reynolds, Dick Biondi, Tommy Shannon, and Danny Neaverth ruled the airwaves with excitement and spontaneity during the 1960s. **Radio Program Openings and Closings, 1931-1972** Vincent Terrace, 2015-06-08

Each entry has a brief introductory paragraph that provides information about the storyline, principal cast, sponsors, and air dates. Commercials have been included if the programs were under regular sponsorship. Includes three appendices: sponsors, slogans, and jingles, and World War II announcements, and an index. *Field & Stream*, 1994-01 FIELD STREAM America's largest outdoor sports magazine celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. *Rock 'n' Roll Radio*

*Connecticut* Tony Renzoni, Dick Robinson, 2025-01-21 Connecticut radio stations and their charismatic disc jockeys played an integral role in the history of rock n roll. They served as a vital connection between the music and their audience, providing listeners the one vehicle they most needed: a format for them to listen to their favorite songs. Learn about such memorable moments as the fierce rivalry between WDRC and WPOP, the zany antics of Joey Reynolds, and the on-air death of Lee Baby.

Simms WPLR emerged as a town hall meeting held in a frat house and colorful skits filled the airwaves With in depth interviews and timeless photos author Tony Renzoni captures the spirit of the vibrant music scene and traces the important and influential role of past and present on air personalities **Radio Rides the Range** Jack French,David S.
