**Stedman's Radiology Words** ,2000      Glossary of Words and Phrases Used in Radiology and Nuclear Medicine ... for Medical Secretaries, X-ray Technicians, Medical Students and Residents in Radiology, with a Section on Suggested Terminology for Roentgenological Reports Lewis E. Etter,1960      Radiology and the Law Ronald Eisenberg,2012-12-06

Practically every radiologist would benefit from an all encompassing guide to malpractice issues in radiology Dr Ronald Eisenberg a highly respected author in the field has put together a comprehensive reference to provide radiologists with an introduction to malpractice issues and a basic understanding of their relationships with government regulatory agencies and HMOs This softcover book will detail the mechanics of a lawsuit how radiologists can become the object of a malpractice action and what they can do to minimize potential exposure

Error and Uncertainty in Diagnostic Radiology Michael A. Bruno,2018-02-08 Over the past decade radiological imaging tests including CT scanning MRI PET X rays ultrasound fluoroscopy and other modalities have become essential to the routine diagnostic process While these modern advanced medical images and their striking anatomic detail have discovered underlying issues they have also contributed to a false impression of infallibility Unlike other straightforward diagnostic tests such as the EKG or blood chemistry panel radiological imaging tests are highly variable and complex often yielding uncertain results as well as frequent false negatives and false positives The experts who interpret the images the diagnostic radiologists sometimes make mistakes the practice of diagnostic radiology is a fallible human endeavour one involving complex perceptual neuro physiological and cognitive processes employed under a wide range of circumstances and with a great deal of variability Error and Uncertainty in Diagnostic Radiology opens the black box of medical imaging exposing the remarkable inner workings of the process of diagnostic radiology including how and why it can sometimes go tragically wrong The occurrence of radiological error is shown to be fundamentally intertwined with the underlying high level of uncertainty known to be present in the diagnostic process As a foremost expert on radiology quality and safety Dr Bruno provides insight into the various types of radiologist error along with a conceptual framework for understanding error and uncertainty in radiology leading to practical strategies for error prevention and for reducing the risk of harm to patients when errors inevitably occur This book is essential for

radiologists members of the Society to Improve Diagnosis in Medicine emergency physicians medical educators medical and hospice administrators especially quality and safety officers as well as malpractice insurance carriers      *Computer Applications in Radiology*,1972      **Radiology** ,1928      **The Rules of Radiology** Paul McCoubrie,2021-02-07 This book gets to the heart of what radiology is and what radiologists do As a relatively young speciality there is no guide for radiologists to act as a moral compass Until now that is You will not find any dry technical matters in here You will not find any clues about how to interpret images better This book details the other 50% the rest of the working week when a radiologist is not reading scans or performing procedures The essence of radiology is distilled and offered up to the reader If you want a comfortable read that offers bland reassurances look elsewhere If you want a book that questions everything and discusses uncomfortable truths this is the book for you Each of the Rules addresses an important part of professional practice This book is a manifesto for all radiologists across the globe to raise their game to be more effective and to serve their patients better      **Glossary of words and phrases used in radiology and nuclear medicine : prepared from various sources for medical secretaries, x-ray technicians, medical students and residents in radiology ; with a section on suggested terminology for roentgenological reports** Lewis E. Etter,1960      *Computers in Radiology* R. De Haene,A.
