The Open-Ended City Kathryn Holliday, 2019-05-01 In 1980 David Dillon launched his career as an architectural critic with a provocative article that asked Why Is Dallas Architecture So Bad Over the next quarter century he offered readers of the Dallas Morning News a vision of how good architecture and planning could improve quality of life combatting the negative effects of urban sprawl civic fragmentation and rapacious real estate development typical in Texas cities The Open Ended City gathers more than sixty key articles that helped establish Dillon's national reputation as a witty and acerbic critic showing readers why architecture matters and how it can enrich their lives Kathryn E Holliday discusses how Dillon connected culture commerce history and public life in ways that few columnists and reporters ever get the opportunity to do The articles she includes touch on major themes that animated Dillon's writing downtown redevelopment suburban sprawl arts and culture historic preservation and the necessity of aesthetic quality in architecture as a baseline for thriving communities While the specifics of these articles will resonate with those who care about Dallas Fort Worth and other Texas cities they are also deeply relevant to all architects urbanists and citizens who engage in the public life and planning of cities As a collection The Open Ended City persuasively demonstrates how a discerning critic helped to shape a landmark city by shaping the conversation about its architecture

Kisho Kurokawa Dennis Sharp, 2002 Known as the Big Eye the Oita Stadium is one of the chosen venues for the next World Cup in 2002 It will be reused for the second stage of the Japan Inter Prefectural Athletic Competition in 2008 after the World Cup continuing to grow in the future to become a large scale all purpose sports park for Oita The whole site covers an area of 225 ha and has several facilities outside the main football stadium These include general fitness training and lodging centres a botanical pool two multipurpose athletic fields two rugby and soccer practise pitches a softball field tennis courts and other game areas The main stadium features an open track for athletic events as well as the football pitch It can also be used year round for public events aided by its retractable roof For soccer matches spectator seats are placed right up to the edge of the pitch to bring them close to the action To change over for track events a retractable seating system was developed The stadium sits elegantly on its site enhanced by the gentle curves of its spherical design The choice of the sphere Kurokawa says is an expression of abstract symbolism This spherical shape also enables the retractable portion to move along its curved surface The use of Teflon membrane panels with 25 percent light permeability obviates the need for artificial lighting during daylight hours In order for the pitch to get proper exposure to sunlight the elliptical roof opening runs along the north south axis A main arch with perpendicular horizontal sub members follows the elliptical shape of the roof opening Between the roof and the spectator seating below the surrounding mountains can be seen from a slender ventilation clearstorey set just below the roof line This slit of space is designed to create a feeling of openness inside the stadium Since the original design an idea emerged for a moving camera to be located on the main beam to deliver special dynamic images for television audiences around the world
