Black Riders Jerome J. McGann, 2020-11-10 English literature Yeats once noted has all but completely shaped itself in the printing press Finding this true particularly of modernist writing Jerome McGann demonstrates the extraordinary degree to which modernist styles are related to graphic and typographic design to printed letters black riders on a blank page that create language for the eye He sketches the relation of modernist writing to key developments in book design beginning with the nineteenth century renaissance of printing and demonstrates the continued interest of postmodern writers in the visible language of modernism McGann then offers a philosophical investigation into the relation of knowledge and truth to this kind of imaginative writing Exploring the work of writers like William Morris Emily Dickinson W B Yeats Ezra Pound and Gertrude Stein as well as Laura Riding and Bob Brown he shows how each exploits the visibilities of language often by aligning their work with older traditions of so called Adamic language McGann argues that in modernist writing philosophical nominalism emerges as a key aesthetic point of departure Such writing thus develops a pragmatic and performative answer to Plato in the matter of poetry's relation to truth and philosophy

The Rise of the Modernist Bookshop Huw Osborne, 2016-03-09 The trade in books has always been and remains an ambiguous commercial activity associated as it is with literature and the exchange of ideas This collection is concerned with the cultural and economic roles of independent bookstores and it considers how eight shops founded during the modernist era provided distinctive spaces of literary production that exceeded and yet never escaped their commercial functions As the contributors show these booksellers were essential institutional players in literary networks When the eight shops examined first opened their doors their relevance to literary and commercial life was taken for granted In our current context of box stores online shopping and ebooks we no longer encounter the book as we did as recently as twenty years ago By contributing to our understanding of bookshops as unique social spaces on the thresholds of commerce and culture this volume helps to lay the groundwork for comprehending how our relationship to books and literature has been and will be affected by the physical changes to the reading experience taking place in the twenty first century

Ready to Trample on All Human Law Paul A. Jarvie, 2014-02-04 This book explores the relationship between Dickens s novels and the financial system Elements of Dickens s work form a critique of financial capitalism This critique is rooted in the difference between use value and exchange value and in the difference between productive circulations and mere accumulation In a money based society exchange value and accumulation dominate to the point where they infect even the most important and sacred relationships between parts of society and individuals This study explores Dickens s critique from two very different points of view The first is philosophical from Aristotle s distinction between chrematistic accumulation and economic use on money through Marx s focus on the teleology of capitalism as death The second view is that of nineteenth century financial journalism of City writers like David Morier Evans and M L Meason who while functioning as cheerleaders for financial capitalism also reflected some of the very real dis ease associated with capital formation and accumulation The

core concepts of this critique are constant in the novels but the critique broadens and becomes more pessimistic over time The ill effects of living in a money based society are presented more as the consequences of individual evil in earlier novels while in the later books they are depicted as systemic and pervasive Texts discussed include Nicholas Nickleby A Christmas Carol Little Dorrit and Our Mutual Friend

Unlocking the Poetry of W. B. Yeats Daniel Tompsett, 2018-06-13 Unlocking the Poetry of W B Yeats undertakes a thorough re reading of Yeats oeuvre as an extended meditation on the image and theme of the heart as it is evident within the poetry It places the heart at the centre of a complex web of Yeatsian preoccupations and associations from the biographical to the poetic and philosophical to the mythological and mystical In particular the book seeks to unlock Yeats mystifying aesthetic vision via his understanding of the ancient Egyptian Weighing of the Heart ceremony The work provides a chronological narrative arc that looks to use the theme of the heart as it recurs in the poetry in order to circumvent and overcome more established frameworks Its purpose is to offer refreshing ways of conceptualizing and building alternatives to more deeply entrenched but not entirely satisfactory arguments that have been offered since Yeats death in 1939 while demonstrating the centrality of the occult to Yeats art

A Secret Inheritance Benjamin Leopold Farjeon, 1887 My earliest distinct remembrances are of a mean and common home in London in which I lived with my parents and a servant named Fortress She was a young woman her age being twenty four or five but her manners were as sedate as those of a matron who had a distaste for frivolity and tittle tattle She performed her duties quietly and in silence and seldom spoke unless she were first addressed She did not take the trouble to render herself agreeable to me or to win my affection This was entirely to my liking as I was of a retired habit of mind and disposition It was not unusual for weeks to pass without our exchanging a word
