This is a study of very short songs pieces long perceived as fragments or remnants of longer narrative texts and dismissed as the by products of a degenerative oral tradition Coverage includes English Welsh Breton American and Finnish songs The authors argue that the inherently metaphorical and connotative idiom of traditional song makes external critical notions of completeness inappropriate in practice such pieces are rarely felt to be broken or lacking by those who sing them they have a strong metonymic force A wide range of texts and traditions is explored to suggest how short songs may convey meaning both in performance and in non traditional contexts such as the literary novel *The Horn Book Guide to Children's and Young Adult Books* ,2002 **Songs for Political Action** Ronald D.
