Railroads in the Heartland H. Roger Grant, 1997 Historians of midwestern railroading during the early part of the twentieth century have generally focused on the production of railroad company histories while ignoring the regional view Fortunately for railway historians and buffs coincidentally with the zenith of the Railway Age the national fad for producing and mailing postcards was at its height Millions of cards including real photo images were produced between 1905 and 1915 Roger Grant has selected more than a hundred representative picture postcards to visualize the principal themes and characteristics that gave this dynamic industry its distinctive regional features By the turn of the century the railroad map of the Midwest was unequalled Anyone who examined it carefully sensed that this was the vital center of America s massive network of steel rails Depots erected in the western prairie environment were spartan with only minor decoration but those in the Midwest usually mirrored more ornate New England styles These features are often reflected in the images in this heavily illustrated book which depicts the spare but strong pioneering spirit of the enterprise **Iowa Railroads** H. Roger Grant, 2000-05-01 What began as a study of the Minneapolis Chicago Burlington Chicago Milwaukee St Paul and Chicago Rock Island Great Northern and Union Pacific and Wabash Moreover he contributed an issue on Iowa s principal interurbans most of which survived into the 1950s as electric powered freight only short lines In uniting Donovan s articles into a single volume Iowa Railroads provides the most complete history of Iowa s rail heritage **Railroad History**, 1999 *History News*, 1997 **Science, Technology & Society**, 1998 **Science, Technology and Society**, 1996 **Steel Trails of Hawkeyeland** Don L. Roger Grant, 2019-10-15 Follow the Flag offers the first authoritative history of the Wabash Railroad Company a once vital interregional carrier The corporate saga of the Wabash involved the efforts of strong willed and creative leaders but this book provides more than traditional business history Noted transportation historian H Roger Grant captures the human side of the Wabash ranging from the medical doctors who created an effective hospital department to the worker sponsored social events And Grant has not ignored the impact the Wabash had on businesses and communities in the Heart of America Like most major American carriers the Wabash grew out of an assortment of small firms including the first railroad to operate in Illinois the Northern Cross Thanks in part to the genius of financier Jay Gould by the early 1880s what was then known as the Wabash St Louis Pacific Railway reached the principal gateways of Chicago Des Moines Detroit Kansas City and St Louis In the 1890s the Wabash gained access to Buffalo and direct connections to Boston and New York City One extension spearheaded by Gould s eldest son George fizzled In 1904 entry into Pittsburgh caused financial turmoil ultimately throwing the Wabash into receivership A subsequent reorganization allowed the Wabash to become an important carrier during the go go years of the 1920s and permitted the company to take control of a strategic bridge property the Ann Arbor Railroad The Great Depression forced the

company into another receivership but an effective reorganization during the early days of World War II gave rise to a generally robust road Its famed Blue Bird streamliner introduced in 1950 between Chicago and St Louis became a widely recognized symbol of the New Wabash When merger madness swept the railroad industry in the 1960s the Wabash along with the Nickel Plate Road joined the prosperous Norfolk Western Railway a merger that worked well for all three carriers Immortalized in the popular folk song Wabash Cannonball the midwestern railroad has left important legacies Today forty years after becoming a fallen flag carrier key components of the former Wabash remain busy rail arteries and terminals attesting to its historic value to American transportation      **Society for Industrial Archeology Newsletter** ,1999
