Disassociation Sophia Z. Kovachevich, 2025-07-07 The book looks at some of the problems in our world today It is based on extensive research It shows the problems that colonisation brought into the world and how that has permeated into the very fabric of society It shows the beginning of genocides and concentration camps and the present state of both in the 21st century world It also looks at where the greatest threats to the world peace are posed today which countries are still in the throes of genocide what is the connection between eugenics and killing Further it covers information pertinent to our world today but which very few lay people have any concept about We live in this world It is our world We should all make an attempt to care for our world to the best of our ability and avoid dissension and war whenever possible War brings nothing good to anyone but fosters a lot of negativity among nation countries cultures and religions in the world This book is about bringing awareness to the precarious position our world and environment is in If wars continue at this rate the soil air water will be so polluted and poisoned cancers and other unknown diseases rampant that future generations and all living creatures will be horribly affected as in the Mekong Delta with much less poison We must protect our descendants from such folly It is our duty

Fighting Monsters Richard Wallace Braithwaite, 2016 Only six escapees survived the Sandakan death marches of 1945 in North Borneo the worst atrocity ever inflicted on Australian soldiers 1787 Australian and 641 British POWs perished Previous descriptions of the numerous violent acts have yielded little understanding of a situation where the real struggle was to keep one's humanity when so many were losing theirs whether Allied POWs local residents of Borneo Javanese slave labourers or Japanese soldiers Understanding this extraordinary story is aided by reference to a wide range of sources in different countries and disciplines and by examining the perspectives of all players in this terrible game of survival An unusual and extreme POW story the Sandakan tragedy had four stages active resistance in 1942 3 stubborn endurance in 1943 4 the collapse of civilized existence in 1945 and finally the postwar decades of torment for the six damaged survivors the gradual assimilation of the story the healing of the damage and the commemoration of the tragedy by

the families and communities involved Richard Wallace Braithwaite's father was one of the six survivors of the Sandakan death marches of 1945. He died in 1986 still wanting the story to be properly told. This led to a project that has lasted for much of the last forty years of the author's life, culminating in this book. With a scientific background, Richard worked for many years with CSIRO and universities in the biological and social sciences and in historical research. His extensive and diverse research history and lifelong personal immersion in the story has given him a unique perspective in exploring the complexities of the Sandakan tragedy.

Aussie Soldier Denny Neave, Craig Smith, 2009-03-01

The second book in the Aussie Soldier series, *Aussie Soldier: Prisoners of War* by Denny Neave and Craig Smith details the lives of the men and women who found themselves on the wrong side of the wire. This collection of heartfelt stories and anecdotes from Australian POWs will take you on their very personal journeys. Surviving as a prisoner of war required as much strength of character as any hard-fought battle. Some lived to tell their tales about extreme suffering, mateship and hardship, and many would carry with them forever the memories of those who died. Almost 35,000 Australian service personnel were taken prisoner during the Boer War, World War 1, World War 2 and the Korean War. As POWs are relatively few in number, their stories often take a back seat when it comes to tales about battles and conflict situations. Like most soldiers, former prisoners do not like reliving the horrors of war and their time in captivity. This is a collection of the stories of our Australian POWs. Interviews, questionnaires, written records, images and letters provide an insight into captivity and the joy and fears that came with their release. These vivid and compelling stories highlight the contradictions of war: the compassion and generosity on the one hand, and the cruelty, hate and indifference on the other.

Escape, Survive - or Die Bryn Evans, 2025-08-30

During the Second World War, countless millions of men and women, both in the armed forces and civilian life, found themselves in life-or-death situations with the odds stacked against them. Inevitably, in the vast majority of cases, their experiences and the outcomes will never come to light, but when they do, we can only feel inspired. In this thought-provoking book, the author has unearthed numerous diverse accounts which make fascinating reading. It covers individuals fighting in jungles, deserts, on and below the seas, in mountains, valleys and plains, prison camps, in battles in the sky or as fugitives hunted in enemy territory. In almost every corner of the world, in innumerable conditions of extreme adversity, our forbears confronted an unavoidable choice: escape, survive or die. This superb collection of stories shows us the resilience and stoicism that we need to face the ultimate challenge. The most powerful force of democratic countries is the determination and self-sacrifice of ordinary individuals to endure and fight for their families, their country and freedom. Survivors' personal accounts in *Escape, Survive or Die* have the power to inspire and sustain us in the never-ending struggle for liberty, just as the Ukrainians fighting the Russian invasion are doing so gallantly today.

aftermath of the attack when the ground shook violently
