J. Herby,1926 The Principles of Practical Perspective Richard Brown (Architect),1815 Richard Brown fl 1804 1845 English architect designer and drawingmaster He appears to have had strong connections during his early life with South Devon his earliest known design exhibited at the Royal Academy in 1804 was of a Villa with a Distant View of the Catwater Plymouth and other designs 1807 12 also relate to this county However Brown may have been living in London during this period as he ran an architectural academy at 4 Wells Street There the importance of perspective drawing was taught and in 1815 he published the Principles of Practical Perspective He also became increasingly interested in furniture design and in the need for designers in this discipline to master the art of perspective The book is dedicated to John Soane and Brown was also a friend of his draughtsman Joseph Gandy of whose working method some details are provided in Chapters 43 44 **History of the Town and Castle of Dumbarton, from the Earliest Period Till the Present Time** John Glen (of Dumbarton.),1876 A Graphic Muse Richard S. Field,Ruth Fine,1987 The catalogue of an exhibition at Mount Holyoke College this volume documents the vital and original contributions that American women artists have brought to contemporary printmaking The neon bars and

menacing stairwells of Jane Dickson's aquatints convey the loneliness of big city living as powerfully as Edward Hopper's urban landscapes. They contrast with Yvonne Jacquette's stunning meticulous nighttime vistas of Manhattan. Many of the artists here employ innovative techniques.

The Power of Form Ana Fernandes, Ana Raquel Fernandes, Rui Carlos Fonseca, José Pedro Serra, 2015-02-27

Although positivism dismissed myths as childish fancy bound to be superseded by reason, there has been a continuous reappraisal of the power of myths since the 19th century. Once viewed as primitive and unreliable accounts and an inadequate and distorted form of knowledge, myths came to be perceived as exemplary narratives consisting of rich and complex symbolic constructs that carry meaning and a connection to reality. Myths then came to be regarded as a privileged expression of the human soul and of its possibly submerged and unconscious abysses and dramas. Rather than inherently obscure and elusive to a rational grasp, mythical narratives would therefore be driven by logical reasoning, giving shape to a particular worldview of life and humankind. The enduring power of mythical narrative is attested to by its very plasticity, subject to multiple recreations informed by changing concerns and insights. Mythical narratives have thus attracted the interest of various disciplines, from ethnology and history to philosophy, literature, sociology, politics, the history of religions, and art history. This interdisciplinary volume studies how myths are inscribed and recycled within both individual and collective heritage and examines the personal and political implications of multifaceted engagement with myths as one of the forms through which societies try to make sense of their perplexities.
