Each month brings surprises expected or not the blossoming of the wild red flower currant in March the appearance of a pod of killer whales in July Mrs Heckman's gift to the reader as in all of the best nature writing is to let us see it through her eyes as if never seen before But the developers have arrived and the natural world of the Island is as threatened as the way of life of its people Mrs Heckman knows that Anderson Island is not the Grand Canyon that its destruction will never arouse great public indignation but while it exists as one of the little wild places she is able to share it and her love for it Music Records Tony Russell, Bob Pinson, 2004-10-07 More than twenty years in the making Country Music Records documents all country music recording sessions from 1921 through 1942 With primary research based on files and session logs from record companies interviews with surviving musicians as well as the 200 000 recordings archived at the Country Music Hall of Fame and Museum's Frist Library and Archives this notable work is the first compendium to accurately report the key details behind all the recording sessions of country music during the pre World War II era This discography documents in alphabetical order by artist every commercial country music recording including unreleased sides and indicates as completely as possible the musicians playing at every session as well as instrumentation This massive undertaking encompasses 2 500 artists 5 000 session musicians and 10 000 songs Summary histories of each key record company are also provided along with a bibliography The discography includes indexes to all song titles and musicians listed Young Oologist, 1919 Christian Register and Boston Observer ,1908 Bulletin North American Birds H.
