Partnering with Student Ambassadors to Create More Inclusive Universities Ruxandra Floștină,Clare Gartland,Albina Khasanzyanova,Ümit Çelen,2025-05-12 Designed to promote the social and educational inclusion of disadvantaged groups and nontraditional learners this book provides all the information needed to train networks of student ambassadors to improve student diversity and inclusion in higher education Recognising that student ambassadors can play a significant role in addressing inequalities by supporting younger students in developing social and cultural capital the book uses evidence based information and best practices for training student ambassadors to enable them to promote social inclusion and educational progression Packed full of activities covering the topics of STEM the Arts the Social Sciences Humanities and Health each activity is presented in line with the United Nations

Sustainable Development Goals and can be used in the training of student ambassadors themselves or in schools with students aged 11-14 to empower them to become active engaged and involved in their local communities. By participating in these activities student ambassadors will be able to effectively engage with more students from disadvantaged or marginalised communities and students from these communities will be better equipped to navigate progression routes into higher education. This is a must read book for all those interested in the theory and practicalities of making their universities more inclusive with the help of student ambassadors. It is a hands on resource that will be particularly useful for those higher education institutions that are interested in implementing student ambassadors as well as anyone interested in promoting social justice and challenging traditional patterns of progression to higher education. **The Art of Learning and the**

Knowledge Tree. Toward a Cognitive Framework Hélène Trocmé-Fabre, 2022-03-23T00:00:00+01:00 I for one am convinced that the essential role of all the educational actors through a genuine presence to each other is to enable the emergence of personal inquiry which contributes to the opening up of our learning space. It also sets in motion the co-actors: the learner and those who accompany that learner toward a place where it is possible to actualize their own potential. If inquiry is the true sap of the tree of knowledge and learning, the different actors in the educational setting can no longer do without it on their own journey. *Constructing Postdigital Research* Petar Jandrić, Alison MacKenzie, Jeremy

Knox, 2023-08-01 This book delves into the various methods of constructing postdigital research with a particular focus on the postdigital dynamic of inclusion and exclusion as well as the interplay between method and emancipation. By answering three fundamental questions: the relationship between postdigital theory and research practice, the relationship between method and emancipation, and how to construct emancipatory postdigital research, the book serves as a comprehensive resource for those interested in conducting postdigital research. *Constructing Postdigital Research: Method and Emancipation* is complemented by *Postdigital Research: Genealogies, Challenges and Future Perspectives* also edited by Petar Jandrić, Alison MacKenzie and Jeremy Knox which explores these questions in theory. **The Arts in Language Teaching** Olivier

Mentz, Micha Fleiner, 2018 If you already have a piece of music ingrained in your body, why would you not play it? Keith Jarrett. Taking Jarrett's thought one step further, one could ask: If you already have a sense of play, rhythm or movement ingrained in your body, why would you not perform it? Drawing on the transdisciplinary and hybrid nature of human communication, this volume is based on the idea of a fruitful dialogue between languages, aesthetic education and performing arts. Scholars from all continents have contributed to this anthology, a sign of the growing interest worldwide in promoting the vision of teaching and learning foreign languages with head, heart, hands and feet. *S'orienter dans la vie : la sérendipité au travail ?* Francis Danvers, 2012-09-30 L'orientation scolaire et professionnelle, l'orientation des adultes et la formation tout au long de la vie sont abordées ici selon les dimensions sociopolitiques, locales et internationales, pédagogiques, économiques et psychologiques. Cet ouvrage ouvre également sur la notion éthique de responsabilité des personnes.

Psycholinguistique et didactique des langues étrangères Danielle Chini, Pascale Goutéraux, 2008 Créé en 1994 par Danielle Bailly alors Professeur de Didactique et Linguistique de l'anglais l'Institut d'études anglophones Charles V de l'Université Paris VII le GEPED a pour ambition de fédérer

autour d'une réflexion sur une approche conceptualisatrice de l'enseignement-apprentissage de la langue étrangère des chercheurs didacticiens aux profils très variés qui s'intéressent à la Psycholinguistique de la langue étrangère et au courant didactique d'veil au langage. Le GEPED défend l'idée que l'apprentissage en milieu scolaire rend nécessaire un travail de la pratique langagière par un travail guidé en partie explicite d'ordre métalinguistique et métacognitif qui sollicite la conscience linguistique de l'apprenant. Le présent ouvrage rend compte des pistes de réflexion récurrentes explorées lors des journées d'études régulières du groupe aussi bien sous l'angle des méthodes et stratégies de guidage des contenus et de leur adaptation aux situations pragmatiques d'utilisation de la langue étrangère que sous l'angle des opérations cognitives langagières et métalingagières qui s'effectuent lors de l'apprentissage scolaire de la langue étrangère hors immersion. Mis part les deux premiers textes qui proposent une analyse dans le cadre conceptuel qui est le nôtre de l'état des lieux actuel de la didactique des langues et de ses orientations possibles pour l'avenir, les articles présents dans cet ouvrage sont pour la plupart issus de ces journées.
