W. B. Yeats K. P. S. Jochum, 1990 This bibliography is the second revised edition of a book first published in 1978 under a somewhat different title Apart from correcting mistakes the second edition extends the coverage of material until 1986 and includes many items from 1987 and 1988 It also adds numerous items that should have been included in the first edition but had somehow escaped my notice

Building W. B. Yeats's Later Poetry Tomoko Iwatsubo, 2024-09-09 This book explores Yeats's later poetry through the metaphor of the poetic tower where different kinds of building architectural textual political and symbolic were closely interrelated It chronologically examines Yeats's tower poems composed during a period of dramatic personal and national transformation from 1915 to 1932 Within a year after the Easter Rising in Dublin Yeats acquired a half ruined Norman tower in County Galway Ireland which had enthralled him for the past two decades and textually and architecturally constructed it into a focus of his life and work Interweaving the account of the renovation of the actual building and the textual construction in the socio historical contexts the book reveals the evolution of Yeats's multiplex tower as an organizing principle of his later poetry Using the archive of correspondence and manuscript materials of relevant poems including those which have thus far escaped close attention the book offers close textual genetic analyses and a diachronic view of Yeats's tower poetry which with its foundations laid decades earlier he built in the collections from *The Wild Swans at Coole* 1919 to *The Winding Stair and Other Poems* 1933 Highlighting the delicate exchange between poetry and biography as well as between the textual architecture and the actual one identifying a turning point in the making of each tower oriented poem and proposing some draft dating revisions this first book length systematic study on the process of Yeats's creation of the tower casts an unfamiliar light on a familiar yet underexplored landmark in modern poetry and makes his step by step construction work come alive

The View from the Tower Theodore Ziolkowski, 2014-07-14 Immediately after World War I four major European and American poets and thinkers W B Yeats Robinson Jeffers R M Rilke and C G Jung moved into towers as their principal habitations Taking this striking coincidence as its starting point this book sets out to locate modern turriphilia in its cultural context and to explore the biographical circumstances that motivated the four writers to choose their unusual retreats From the ziggurats of ancient Mesopotamia to the ivory towers of the fin de si cle the author traces the emergence of a variety of symbolic associations with the proud towers of the past ranging from spirituality and intellect to sexuality and sequestration But in every case the tower served both literally and symbolically as a refuge from the urban modernism with whose values the four writers found themselves at odds While the classic modernists Eliot Woolf Hart Crane often singled out the broken tower as the image of a crumbling past these writers actualized their powerful visions Yeats and Rilke moved into medieval towers in Ireland and Switzerland while Jeffers and Jung built themselves towers at Carmel and Bollingen as secluded spaces in which to cultivate the traditions and values they cherished The last chapter traces this perseverance of the ancient image through its heyday in the twenties and into the present where it has undergone renewal institutionalization and parody Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
