

TO ARMS!

TO ARMS!

**VOLUNTEERS FOR THE
Mexican War!**

ALL who wish to serve in the present war with Mexico, are requested to send in their names. All who see the necessity of filling the empty places of the 12 months Volunteers are invited to come forward immediately. All who prize the blessing of peace lend your aid to strike a blow so heavy that the arm which now rejects the olive branch, shall sue for its protection. All who feel the necessity of preserving untarnished the long cherished loyalty of the Old North State, we bid you welcome.

It is not expected that all men will volunteer, all men were not made soldiers, but all owe a duty to their Country; they owe her support, encouragement and assistance---let them yield these, but let those who are able gird on their armour and with a stout heart and a stalwart arm march to the battle-field, there to rival in deeds of arms their only equals, their fellow countrymen. A faint heart may volunteer for a time but the soldier glories in the end; his sword once drawn in his country's cause, knows not its sheath again till her wrongs are all avenged.

A list is now opened for Volunteers, under the supervision of Major W. A. Whitfield, Milton, Mr. J. G. Mason, Roxboro,' and G. Wortham, Esq., Oxford.

Joseph

Campbell, 2013-10-08 *The Year that Defined American Journalism* explores the succession of remarkable and decisive moments in American journalism during 1897 a year of significant transition that helped redefine the profession and shape its modern contours This defining year featured a momentous clash of paradigms pitting the activism of William Randolph Hearst s participatory journalism of action against the detached fact based antithesis of activist journalism as represented by Adolph Ochs of the New York Times and an eccentric experiment in literary journalism pursued by Lincoln Steffens at the New York Commercial Advertiser Resolution of the three sided clash of paradigms would take years and result ultimately in the ascendancy of the Times counter activist model which remains the defining standard for mainstream American journalism

The Year That Defined American Journalism introduces the year study methodology to mass communications research and enriches our understanding of a pivotal moment in media history **American Cyclone** John M. Hilpert, 2015-10-19 When Theodore Roosevelt entered national politics as the Republicans nominee for the vice presidency in 1900 he was only forty one years old However he had caught the public s attention with the popular version of his life story Child of East Coast privilege Sickly bespectacled youth Naturalist and author Harvard graduate New York assemblyman Young widower Badlands cowboy Civil Service reformer Urban police commissioner Assistant Secretary of the Navy Rough Rider and war hero Enemy of political bosses as governor of the nation s most important state Attentive husband to his second wife Edith and the father of six children Few candidates for the presidency or vice presidency have enjoyed the elevated level of admiration accorded Roosevelt in the waning days of the nineteenth century Biographers have chronicled every significant period of Roosevelt s life with one exception and American Cyclone fills that gap His nomination for the vice presidency was Roosevelt s debut as a candidate for national office American Cyclone presents the story of his campaign a whirlwind effort highlighted by an astounding whistle stop tour of 480 communities across twenty three states Eighteen of those states gave a plurality of votes to the McKinley Roosevelt ticket a gain of five states for the Republicans over 1896 Everywhere Roosevelt went admiring throngs and dramatic events helped forge him into the man who would soon be the twenty sixth president of the United States Returning from the war Roosevelt was familiar to millions of people across the country as a determined leader As he interacted with crowds of hundreds thousands and even tens of thousands Roosevelt felt their eagerness to see and hear him Accordingly for the first time this whistle stop campaign marks the development of the confidence and maturity that would transform Roosevelt into a national leader Getting It Wrong W. Joseph Campbell, 2017 Many of American journalism s best known and most cherished stories are exaggerated dubious or apocryphal They are media driven myths and they attribute to the news media and their practitioners far more power and influence than they truly exert In Getting It Wrong writer and scholar W Joseph Campbell confronts and dismantles prominent media driven myths describing how they can feed stereotypes distort understanding about the news media and deflect blame from policymakers Campbell debunks the notions that the Washington Post s Watergate reporting brought down Richard M Nixon s corrupt presidency that Walter Cronkite s characterization of the Vietnam War in 1968 shifted public opinion against the conflict and that William Randolph Hearst vowed to furnish the war against Spain in 1898 This expanded second edition includes a new preface and new chapters about the first Kennedy Nixon debate in 1960 the haunting Napalm Girl photograph of the Vietnam War and bogus quotations driven by the Internet and social media **1995** W. American Propaganda from the Spanish-American War to Iraq Steven R. Brydon, 2021-11-01 In this book Steven R Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11 Research has shown that well told stories can affect the public s beliefs attitudes and actions and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period Using Fisher s narrative paradigm Brydon critically

evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people Scholars of media studies history military studies American studies and international relations will find this book particularly useful

Yellow Journalism, Sensationalism, and Circulation Wars Brett Griffin,2018-12-15 The waning years of the nineteenth century saw the emergence of a new kind of journalism in the United States one that not only challenged government and corporate power but also turned to sordid crimes and scandals for much of its material Sensational shocking and lurid this new style of reporting came to be known as yellow journalism The trend influenced newspapers across the country and its role in building public support for the Spanish American War has become the stuff of legend The supplemental features of this book including striking photographs primary sources and informative sidebars trace the development of yellow journalism and demonstrate its impact today

Reporting: The Indian wars & the Spanish-American War David A. Copeland, 2005 *Selling War to America* Eugene Secunda, Terence P. Moran, 2007-08-30 Battles are won in combat Wars are won by winning the hearts and minds of the people Selling War to America provides a thought provoking look at the propaganda efforts the U S government has exerted to that end It begins with an examination of the government s campaign to instigate a war with Spain and ends with a review of the methods being used to encourage support for the War Against Terrorism The book analyzes each of these wars within the context of the techniques used to generate public support also examining the results of propaganda efforts both before and after each conflict From these historical analyses noting both the blunders and the triumphs of the past century the authors offer the keys to successfully persuading the American public to support wars that must be fought Lies were told and truths withheld because government and military leaders did not trust the American people to make appropriate decisions concerning our national security The attacks of September 11 2001 on The World Trade Center Towers and the Pentagon have summoned the American people to a war on terrorism The U S government is now trying to mobilize American public opinion to support this war But this is just the most recent example of how our government has sought to enlist broad public support for the wars it has waged The job of informing and persuading America to support its war efforts has become increasingly more challenging as media technologies like instant global coverage of television news and the Internet reach into every American home
