Johann Sebastian Bach's St John Passion (BWV 245): A Theological Commentary Andreas Loewe, 2014-04-03 This Theological Commentary is the first full length work in English to consider Johann Sebastian Bach's St John Passion in its entirety both the words and the music Bach's oratorio is a globally popular musical work and a significant expression of Lutheran theology The commentary explains the Biblical and poetic text and its musical setting line by line Bach's Passion is shown to be the work of a master craftsman and trained theologian in the collaborative and cultural milieu of eighteenth century Lutheran Leipzig For the first time this work makes much German scholarship available in English including archival sources and includes a new scholarly translation of the libretto The musical and theological terms are explained to enable an interdisciplinary understanding of the Passion's meaning and continued significance [Matthäus-Passion](#) Johann Sebastian Bach, 1985 **Johann Sebastian Bach**, [An Introduction to Bach Studies](#) Daniel R. Melamed, Michael Marissen, 1998-04-30 Subjects covered include bibliographic tools of Bach research and sources of literature Bach's family Bach biographies places Bach lived and worked Bach's teaching the liturgy Bach source studies and the transmission of his music repertory and editions genres and individual vocal and instrumental works performance practice the reception and analysis of Bach's music and many others *Bach's Cycle, Mozart's Arrow* Karol Berger, 2007-10-02 In this erudite and elegantly composed argument Karol Berger uses the works of Monteverdi Bach Mozart and Beethoven to support two groundbreaking claims first that it was only in the later eighteenth century that music began to take the flow of time from the past to the future seriously second that this change in the structure of musical time was an aspect of a larger transformation in the way educated Europeans began to imagine and think about time with the onset of modernity a part of a shift from the premodern Christian outlook to the modern post Christian worldview Until this historical moment as Berger illustrates in his analysis of Bach's St Matthew Passion music was simply in time Its successive events unfolded one after another but the distinction between past and future earlier and later was not central to the way the music was experienced and understood But after the shift as he finds in looking at Mozart's Don Giovanni the experience of linear time is transformed into music's essential subject matter the cycle of time unbends and becomes an arrow Berger complements these musical case studies with a rich survey of the philosophical theological and literary trends influencing artists during this period **All Music Guide to Classical Music** Chris Woodstra, Gerald Brennan, Allen Schrott, 2005-09 Offering comprehensive coverage of classical music this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers as well as twenty three essays on forms eras and genres of classical music Original [The Routledge Research Companion to Johann Sebastian Bach](#) Robin Leaver, 2016-11-25 The Ashgate Research Companion to Johann Sebastian Bach provides an indispensable introduction to the Bach research of the past thirty five years It is not a lexicon providing information on all the major aspects of Bach's life and work such as the Oxford Composer Companion J S
