Metternich Desmond Seward,1991 Biography of Clemons von Metternich who destroyed Napoleon directed Habsburg Censura's policy for forty years and tried to unify Europe **Prince Klemens Von Metternich Significance** Helaine Barkdoll,2021-06-14 In 1992 Europe takes a gigantic step towards unity Yet at the same time the peoples of Central Europe are reemerging and a new age of nationalism looms In the last century a great Central European statesman tried to make the entire continent act as one in working for peace If Clemens von Metternich's battle with liberalism does not endear him his struggle to preserve the frontiers of 1815 should be remembered by the Community and by a Mitteleuropa which will be in turmoil should the 1945 frontiers be questioned a nightmare which may well come true **Metternich's Europe** Mack Walker,1968-06-18 *AP European History Premium, 2025: Prep Book with 5 Practice Tests + Comprehensive Review + Online Practice* Barron's Educational Series,Seth A. continent The Age of Metternich though often impatiently dismissed by historians as a mere interlude lasted for twice as long as the Age of Napoleon which preceded it and for half as long again as the Age of Bismarck which followed in the closing decades of the century Metternich was a statesman to his fingertips practising the skills of diplomacy with greater fluency than any contemporary Talleyrand from whom he had learnt many of the refinement of the game How would he fare today Probably quite well as he was again in Alan Palmer's words an early champion of federalism and a good European As a work of history it cannot be faulted A J P Taylor Observer Well written well researched lucid and witty Philip Ziegler The Times

Palmerston and Metternich's Austria, 1830-1841 Jiří Vyčichlo, 2025-03-03 This book aims to analyze the international policies of Viscount Palmerston and Prince Metternich during the years 1830 1841 The focus of this work is on the pivotal role of British diplomacy in Europe during a period marked by the outbreak of the July Revolution the dissolution of the United Kingdom of the Netherlands the November

Uprising significant events in the German Confederation and the Papal States as well as the civil wars in Portugal and Spain and the two Egyptian Ottoman wars The clash between Palmerston and Metternich stands out Both men were at the forefront of European foreign relations and were symbols of two different political currents This work aims to challenge the traditional view of Palmerston as a progressive statesman who defended the freedom of European liberalism and Metternich as a reactionary who opposed social modernization The text highlights the motives behind British foreign policy which were centred on promoting national interests often at the expense of cooperation among the Great Powers in contrast to the Austrian Chancellor's efforts to foster the best possible relations within the Concert of Europe **Hegel** Terry

Pinkard,2001-06-18 One of the founders of modern philosophical thought Georg Wilhelm Friedrich Hegel 1770 1831 has gained the reputation of being one of the most abstruse and impenetrable of thinkers This major biography of Hegel offers not only a complete account of the life but also a perspicuous overview of the key philosophical concepts in Hegel's work in a style that will be accessible to professionals and non professionals alike Terry Pinkard situates Hegel firmly in the historical context of his times The story of that life is of an ambitious powerful thinker living in a period of great tumult dominated by the figure of Napoleon The Hegel who emerges from this account is a complex fascinating figure of European modernity who offers us a still compelling examination of that new world born out of the political industrial social and scientific revolutions of his period European History Hutton Webster,1919 *At the Fence of Metternich's Garden* Mykola

Riabchuk,2021-03-16 This collection of essays reflects the personal experience of a Ukrainian intellectual engaged since his Soviet time youth in a painstaking but fascinating process of the both cultural and political Europeanization of his country The title refers ironically to the notorious Chancellor Metternich's quip that Asia presumably begins at the eastern fence of his garden or as another apocryphal version maintains at the eastern end of the Viennese Landstrasse This is a story of both exclusion and inclusion of walls and fences but also of a longing for freedom and a quest for solidarity It is a book on different ways of being a European at both the collective and individual level despite various challenges or perhaps thanks to them

Schroeder,2014-05-23 What Metternich wanted at the peak of his career why he wanted it and the methods by which he

achieved his goals are questions brilliantly answered in this survey and analysis of the Austrian chancellor's diplomacy during the period when he was the pre-eminent figure in European politics. Metternich's single-minded objective during 1820-1823 was to preserve the Austrian hegemony he had gained in Central Europe after long wars, enormous effort and great sacrifice. If the internal security and international power position secured by Austria at the Congress of Vienna were to be defended against the impact of widespread revolution in Europe, it was imperative that peace in Europe and the status quo be maintained. This required an unyielding opposition to all political movements that might disturb the equilibrium, especially French chauvinism and the spread of French constitutional ideas. A one-man distillate of the doctrine of absolute monarchy, Metternich was the relentless foe of any cause, just or unjust, that threatened European repose. Hence, when the revolution in Naples seriously menaced Austrian hegemony in Italy, Metternich determined that the constitutional regime in Naples must be overthrown by an Austrian armed force, an absolute monarchy restored, and an Austrian army of occupation kept there. Nor did he scruple to use duplicity, secret negotiation, trickery, or deceit against ally and adversary alike in his effort to enlist them in the common cause of all thrones. At the Congress of Troppau, Metternich succeeded not only in defeating Russian ideas for peaceful intervention and a moderate constitution at Naples, but also in converting Tsar Alexander to thoroughly conservative views, thereby making Russia a powerful supporter of Austrian policies and knowingly alienating England, formerly Austria's closest ally. Paul W. Schroeder brings to this book exceptional scholarship and an objectivity hard to attain when dealing with a personality. Although Metternich, as Schroeder sees him, doubtless helped to maintain European peace and order, his real greatness consisted not in his European principles but in his ability to defend Austrian interests under the guise of European principles. The evidence gathered from documentary material in the Haus Hof und Staatsarchiv in Vienna has forced the author to the conclusion that Metternich was no real statesman. The very qualities that distinguished him as a brilliant diplomat—keen vision, cogent analysis, fertility of expedients, farsightedness, flexibility, and firmness of purpose—were converted into those of blindness to reality, superficial analysis, sterility of expedients, dogmatism, and failure of will when confronted with fundamental problems of state and society.
