Editor Leo Nollet heads a stellar editorial team and leads an international collection of over 60 expert contributors from government, industry and academia in covering the key factors affecting the quality of beef, pork, poultry and fish and presenting them in a single source.

SOA Using Java Web Services Mark D. Hansen, 2007-05-09. *Expert Solutions and State of the Art Code Examples: SOA Using Java Web Services* is a hands-on guide to implementing Web services and Service Oriented Architecture (SOA) with today's Java EE 5 and Java SE 6 platforms. Author Mark Hansen presents in explicit detail the information that enterprise developers and architects need to succeed: from best practice design techniques to state-of-the-art code samples. Hansen covers creating, deploying and invoking Web services that can be composed into loosely coupled SOA applications. He begins by reviewing the big picture, including the challenges of Java-based SOA development and the limitations of traditional approaches. Next, he systematically introduces the latest Java Web Services (JWS) APIs and walks through creating Web services that integrate into a comprehensive SOA solution. Finally, he shows how application frameworks based on JWS can streamline the entire SOA development process and introduces one such framework: SOA-J. The book introduces practical techniques for managing the complexity of Web services and SOA, including best practice design.
