Retro-modern India Manuela Ciotti, 2012-03-12 Firmly situated within the analytics of the political economy of a north Indian province this book explores self fashioning in pursuit of the modern amongst low caste Chamars Challenging existing accounts of national modernity in the non West the book argues that subaltern classes shape their own ideas about modernity by taking and rejecting from models of other classes within the same national context While displacing the West in its colonial and non colonial manifestations as the immanent comparative focus the book puts forward a unique framework for the analysis of subaltern modernity This builds on the entanglements between two main trajectories both of which are viewed as the outcome of the generative impetus of modernisation in India the first consists of the Chamar appropriation of socio cultural distinctions forged by 19th century Indian middle classes in their encounter with colonial modernity the second features the Chamar subversion of high caste ideals and practices as a result of low caste politics initiated during the 20th century The author contends that these conflicting trends give rise to a temporal antinomy within the Chamar politics of self making caught up between compulsions of a past modern and of a contemporary one The eclectic outcome is termed as retro modernity While the book signals a politics of becoming whose dynamics had previously been overlooked by scholars it simultaneously opens up novel avenues for the understanding of non

Susee Karthika A & Mr. Sanjay K K, 2025-04-14 **Retro Reflection** Echoes of Time and Soul is a journey through nostalgia and self discovery capturing the essence of moments that shaped us From childhood dreams to lessons learned laughter to regrets each story reflects the past's imprint on the present More than memories it's an awakening an invitation to embrace the fragments of yesterday that define our tomorrows **The Retro-Futurism of Cuteness** Jen Boyle, Wan-Chuan Kao, 2017-11-03 Is it possible to conceive of a Hello Kitty Middle Ages or a Tickle Me Elmo Renaissance The Oxford English Dictionary dates the first reference to cute in the sense of attractive pretty charming to 1834 More recently Sianne Ngai has offered a critical overview of the cuteness of the twentieth century avant garde within the context of consumer culture But if cuteness can get under the skin what kinds of surfaces does it best infiltrate

particularly in the framework of historical forms events and objects that traditionally have been read as emergences around big aesthetics of formal symmetries high affects and resemblances The Retrofuturism of Cuteness seeks to undo the temporal strictures surrounding aesthetic and affective categories to displace a strict focus on commodification and cuteness and to interrogate how cuteness as a minor aesthetics can refocus our perceptions and readings of both premodern and modern media literature and culture Taking seriously the retro and the futuristic temporalities of cuteness this volume puts in conversation projects that have unearthed remnants of a cult of cute positioned historically and critically in between transitions into secularization capitalist frameworks of commodification and the enchantment of objects and those that have investigated the uncanny haunting of earlier aesthetics in future oriented modes of cuteness The Latin *acutus* the etymological root of cute embraces the sharpened the pointed the nimble the discriminating and the piercing But as Michael O'Rourke notes cuteness evokes a proximity that is at once potentially invasive and contaminating and yet softening and transfiguring Deploying cuteness as a mode of inquiry across time this volume opens up unexpected lines of inquiry and unusual critical and creative aporias from Christian asceticism medieval cycle drama and Shakespeare to manga Bollywood and Second Life The projects collected here point to a spectrum of aesthetic affective assemblages related to racial ethnic gender sexual and class dimensions that exceed or trouble our contemporary perceptions of such registers within object subject and subject object entanglements
