Cartography and the Political Imagination Julie MacArthur, 2016-06-30 After four decades of British rule in colonial Kenya a previously unknown ethnic name Luyia appeared on the official census in 1948 The emergence of the Luyia represents a clear case of ethnic invention At the same time current restrictive theories privileging ethnic homogeneity fail to explain this defiantly diverse ethnic project which now comprises the second largest ethnic group in Kenya In *Cartography and the Political Imagination* which encompasses social history geography and political science Julie MacArthur unpacks Luyia origins In so doing she calls for a shift to understanding geographic imagination and mapping not only as means of enforcing imperial power and constraining colonized populations but as tools for articulating new political communities and dissent Through cartography Luyia ethnic patriots crafted an identity for themselves characterized by plurality mobility and cosmopolitan belonging While other historians have focused on the official maps of imperial surveyors MacArthur scrutinizes the ways African communities adopted and adapted mapping strategies to their own ongoing creative projects This book marks an important reassessment of current theories of ethnogenesis investigates the geographic imaginations of African communities and challenges contemporary readings of community and conflict in Africa *The Right to a Human Minimum*

Stephen Onyango Ouma, 2025-08-02 This book provides a profound exploration of the concept of a human minimum as articulated by the renowned African philosopher H Odera Oruka It delves into the pressing issue of global inequality and examines how basic rights such as access to food shelter education and healthcare are fundamental to human dignity and should be accessible to all regardless of socioeconomic status In a world where the gap between the rich and the poor continues to widen Oruka's philosophical framework is a blueprint for addressing this divide Through a critical analysis of Oruka's work this book presents the philosophy of a human minimum and describes why basic rights are essential to ensuring justice equity and sustainable development It contextualizes these ideas within contemporary challenges including poverty unemployment and the global disparities exacerbated by economic systems that favor wealth accumulation by the few This exploration pushes beyond abstract theory offering practical insights into policy solutions and societal structures

that can uphold the dignity of every individual. It argues that achieving this requires not only ethical responsibility but systemic change in political and economic structures. By rethinking development governance and social justice through the lens of Oruka's philosophy, the book presents a compelling case for policies and actions that guarantee the human minimum for all. This book is of interest to scholars of philosophy, social justice advocates, policymakers, and anyone committed to addressing global inequality. It provides a roadmap for how societies can move toward a more equitable future. *Hegel's Twilight* Mogobe B. Ramose, 2013

Professor Heinz Kimmerle encountered African philosophy at a time when his specialisation in the philosophy of Hegel had attained world recognition. For Hegel, African philosophy did not exist in Sub-Saharan Africa; exactly the area in which Kimmerle made his first contact with African philosophy. Hegel's philosophy was not a stranger to Sub-Saharan Africa. This was because the Western educational paradigm was imposed upon the conquered colonized peoples during the period of colonisation. Unlike Hegel, Kimmerle took African philosophy seriously and engaged initially in dialogues with African philosophy. Out of the unfolding dialogues grew intercultural philosophy spearheaded by Kimmerle's penetrating insightful and incisive critique of some of the fundamental presuppositions of Hegel's philosophy. The essays contained in this book focus on the evolution of Kimmerle's conception and meaning of intercultural philosophy. Underlying this are recognition and respect for other modes of doing philosophy as manifestations of intercultural philosophy. To deny dialogues if you prefer polylogue among world philosophies is to reject the very basis of philosophy. Thus a crucial dimension of philosophy would be precluded which can be found in this book, namely the critical evaluation of Kimmerle's conception and meaning of intercultural philosophy. The Politics of Knowledge in Inclusive Development and Innovation David Ludwig, Birgit Boogaard, Phil Macnaghten, Cees Leeuwis, 2021-10-14

This book develops an integrated perspective on the practices and politics of making knowledge work in inclusive development and innovation. While debates about development and innovation commonly appeal to the authority of academic researchers, many current approaches emphasise the plurality of actors with relevant expertise for addressing livelihood challenges. Adopting an action-oriented and reflexive approach, this volume explores the variety of ways in which knowledge works, paying particular attention to dilemmas and controversies. The six parts of the book address the complex interplay of knowledge and politics, starting with the need for knowledge integration in the first part and decolonial perspectives on the politics of knowledge integration in the second part. The following three parts focus on the practices of inclusive development and innovation through three major themes of learning for transformative change, evidence and digitisation. The final part of the book addresses the governance of knowledge and innovation in the light of political struggles about inclusivity. Exploring conceptual and practical themes through case studies from the Global North and South, this book will be of great interest to students, scholars, and practitioners researching and working in development studies, epistemology, innovation studies, science and technology studies, and sustainability studies more broadly. *Exploring Post-Development* Aram Ziai, 2007-05-07
