D. Anderson, 2020-09-28 This little collection of Kach ri folk stories and rhymes is intended as a supplement to the Reverend Mr Endle's Grammar of the language and as a reading book for those who have acquired an elementary knowledge of Kach ri I have added a rough translation thinking that these specimens of the folk lore of a very simple and primitive people may be of interest to some who do not care to learn Kach ri and that it may stimulate others to make fuller and more successful excursions into an unexplored field These stories were collected during a tour of only six weeks duration in the Kach ri mauzas of Mangaldai and cost only the effort of taking down the tales as they were dictated Not only the Kach ris but the other hill tribes of Assam have doubtless their stores of folk legends which have never been exploited and it pleases me to hope that others may find it as pleasant as I have found it to collect these fictions of the savage mind over the camp fire The text of the stories suggests a problem which it may amuse some one with better opportunities or more perseverance than myself to solve It will be noticed that while the words are for the most part Kach ri words the syntax is curiously like the Assamese syntax As an instance of this I have taken down see page 1 an accused person s statement in both Assamese and Kach ri The Kach ri version is literally a word for word translation of the Assamese I can think of no other two languages in

which it would be possible to translate a long statement word for word out of one into the other and yet be idiomatic The most characteristic idioms are exactly reproduced The Assamese says mor bap y but tor b per The Kach ri similarly says ngn f but nangn namf The Assamese says e d l l thi the Kach ri translates gongse lauthi The Assamese saysgai pelay kalon the Kach ri khith h i man And many more instances will occur to any one with a knowledge of Assamese who reads these stories Briefly it may be said that Kach ri as it is spoken in Darrang has a vocabulary mostly of the Bodo type though it contains many words borrowed from the Assamese Its syntax on the other hand is nearly identical with the Assamese almost the only exception being the use of the agglutinate verb see page 26 of Mr Endle s Grammar Even the agglutinate verb is more or less reproduced in Assamese in the use of such expressions as gai pelay Now it is quite possible that the Kach ris from long association with their Hindu neighbours have learnt their syntax while retaining their own vocabulary A more tempting theory is that Assamese and Kach ri are both survivals of the vanished speech of the great Koch race who we know ruled where Assamese and Kach ri are now spoken side by side that Assamese has retained the Koch syntax while it has adopted the Hindu vocabulary of Bengal that Kach ri has preserved both vocabulary and syntax This theory if it can be defended would at last give Assamese a valid claim to be considered a separate tongue and not a mere dialect of Bengali It would also give an explanation of the vexed question of the origin of the word Kach ri r i is a common patronymic in the Kach ri speech
