Brian Rouleau, 2015-05-06 Many Americans in the Early Republic era saw the seas as another field for national  
aggrandizement With a merchant marine that competed against Britain for commercial supremacy and a whaling fleet that  
circled the globe the United States sought a maritime empire to complement its territorial ambitions in North America In  
With Sails Whitening Every Sea Brian Rouleau argues that because of their ubiquity in foreign ports American sailors were  
the principal agents of overseas foreign relations in the early republic Their everyday encounters and more problematic  
interactions barroom brawling sexual escapades in port city bordellos and the performance of blackface minstrel shows  
shaped how the United States was perceived overseas Rouleau details both the mariners working class diplomacy and the  
anxieties such interactions inspired among federal authorities and missionary communities who saw the behavior of  
American sailors as mere debauchery Indiscriminate violence and licentious conduct they feared threatened both mercantile  
profit margins and the nation's reputation overseas As Rouleau chronicles the world's oceans and seaport spaces soon  
became a battleground over the terms by which American citizens would introduce themselves to the world But by the end of  
the Civil War seamen were no longer the nation's principal ambassadors Hordes of wealthy tourists had replaced seafarers  
and those privileged travelers moved through a world characterized by consolidated state and corporate authority Expanding  
nineteenth century America's master narrative beyond the water's edge With Sails Whitening Every Sea reveals the maritime  
networks that bound the Early Republic to the wider world     *Overland Monthly*, 1924     **The American Catalog**, 1885
