**the Wind Left Behind** Alessandra Lynch,2002 In her first collection Alessandra Lynch deftly combines the surreal and the lyric into a striking and confident whole At times witty at times dreamlike the poems revel in dense Symbolist like imagery juxtaposition wordplay and rhyme By refusing a certain kind of transparency direct statement and traditional allusion Lynch excavates the shadowy region of the psyche From a rich profusion of images emerge themes of unrealized desire and the

ways in which we may fail to be present in our own lives or to others The poems seek to resolve these themes suggesting how words in memorializing the disorientations of life reorient us that it is in the tokens and monuments of our failed desires broken promises Sails the wind left behind that we are able to find ourselves from Where I live I live in a past passage of the rageful crow and its stalkfirst feet it has staked my sleep and forced me to crawl through flamethrown dawn I begin my day in slow burn the stove unlit and the flower s mouth stuffed with bribecloth and weep I begin stacking wood in a miniature village wearing the flint of wake and the stone of sleep I live in a sleeve of love which won t have me leaning against moonhay which don t love me strumming a stack tune in three fingered rain Alessandra is shockingly good The heroic of her narrative reminds me of Emily Dickinson when it isn t reminding me of Hart Crane I have loved her work for years and once they get the hang of it the rest of the world will too Bless this magnificent new book Gerald Stern Alessandra Lynch was raised north of New York City She holds a BA from Sarah Lawrence College and an MFA from the University of Iowa Writers Workshop Currently she teaches creative writing and English to high school students

**Harp on the Shore** William Bonner, George R. Levine, 1985-06-30 Allusions to the sea permeate Thoreau s writings enriching many of his basic ideas Harp on the Shore examines Thoreau s use of maritime metaphor It shows how he a writer ordinarily perceived as quintessentially landlocked came to view the terrestrial world in terms of the oceanic The book explores both the poetic and the philosophical implications of Thoreau s passion for the sea Beginning with Thoreau s deep attachment to the sea and maritime life in New England and the ways in which that attachment stimulated his imaginative identification of Concord as a center of maritime activity it examines the sea voyage as a symbol of man s intellectual processes The book shows how maritime allusions enlarge the significance of Thoreau s ideas about man s struggle to attain individuality and identity his notion of Homeric or Edenic man and his belief in a middle ground where many could and should stand between the natural and the civilized the individual and the group

**A Woman's Guide to the Sailing Lifestyle** Thomas Desrosiers, 2015-09-18 A chance sailing trip with a friend from work led me to wonder if I could learn to sail After all Im a woman and the sailing world seems to favor men I am not athletic I didnt grow up in a family where we learned about boating I would be starting late since I was in my thirties and I suffer from

seasickness What I discovered over the next twenty five years is that I could indeed learn to be a competent sailor But I didnt expect to be an expert overnight Instead as a novice I layered on new knowledge slowly over time through experiential learning This book describes the process whereby this happened Using examples from trips along the coast of Maine New Hampshire and Massachusetts it reviews the essential knowledge needed to be a sailor as well as explanations about the parts of a sailboat major boat systems and tasks associated with maintaining a sailboat It also discusses some Zen like attitudes that lead to successful and fun sailing such as focusing the no blame rule and stripping down to the essentials Unlike some other sailing guides this book points out that sailing can be a lifestyle that includes many dimensions Its not just about getting a boat to sail Traveling by boat is a unique experience and visiting small coastal New England communities is an adventure Learning about history art ecology star constellations technology and birds are only a few of the kinds of activities that can be built into a rich and rewarding sailing experience This book will be helpful for people who would like to learn to sail but who are intimidated by the process particularly women fledgling sailors just starting out and families with children *The Sociology of Wind Bands* Vincent Dubois, Jean-Matthieu Méon, translated by Jean-Yves Bart, 2016-03-03

Despite the musical and social roles they play in many parts of the world wind bands have not attracted much interest from sociologists The Sociology of Wind Bands seeks to fill this gap in research by providing a sociological account of this musical universe as it stands now Based on a qualitative and quantitative survey conducted in northeastern France the authors present a vivid description of the orchestras the backgrounds and practices of their musicians and the repertoires they play Their multi level analysis ranging from the cultural field to the wind music subfield and to everyday life relationships within bands and local communities sheds new light on the social organisation meanings and functions of a type of music that is all too often taken for granted Yet they go further than merely portraying a musical genre As wind music is routinely neglected and socially defined in terms of its poor musical quality or even bad taste the book addresses the thorny issue of the effects of cultural hierarchy and domination It proposes an imaginative and balanced framework which beyond the specific case of wind music is an innovative contribution to the sociology of lowbrow culture **International Marine Engineering** ,1908
