rightful leaders of the community However in the late eleventh century she shows the canons of Saint Martin where the saint's relics resided and the monks of Marmoutier which Martin had founded took control of the cult and produced new legends and rituals to strengthen their corporate interests Since the basilica and the abbey differed in their spiritualities structures and external ties the canons and monks elaborated and manipulated Martin's cult in quite different ways Farmer shows how one saint's cult lent itself to these varying uses and analyzes the strikingly dissimilar Martins that emerged Her skillful inquiry into the relationship between group identity and cultural expression illuminates the degree to which culture is contested territory Farmer's rich blend of social history and hagiography will appeal to a wide range of medievalists cultural anthropologists religious historians and urban historians
