Ishiuchi Miyako Amanda Maddox, 2015-10-05 A maverick in the history of photography Ishiuchi Miyako b 1947 burst onto the scene in Tokyo during the mid 1970s at a time when men dominated the field in Japan Working prodigiously over the last forty years she has created an impressive oeuvre and quietly influenced generations of photographers born in the postwar era Recipient of the prestigious Hasselblad Award in 2014 Ishiuchi ranks as one of the most significant photographers working in Japan today Spurred by her contentious relationship with her hometown Yokosuka site of an important American naval base since 1945 Ishiuchi chose that city as her first serious photographic subject Grainy moody and deeply personal these early projects established her career This choice of subject also defined the beginning of Ishiuchi's extended exploration of the American occupation and the shadows it cast over postwar Japan Ishiuchi has since addressed the theme of occupation both indirectly through her photographs of scars skin and other markers of time on the human body and more explicitly with her images of garments and accessories once owned by victims of the atomic blast in Hiroshima Essays featured in this volume reveal the past as the wellspring of Ishiuchi's work and the present moment as her principal subject Ishiuchi Miyako Postwar Shadows which includes a selection of more than 100 works is published on the occasion of an exhibition by the same name on view at the J Paul Getty Museum at the Getty Center Los Angeles from October 5 2015 to February 21 2016

*Challenging Nuclear Pacifism in Japan* Masae Yuasa, 2023-10-02 Is Japan abandoning its pacifism The Japanese government has claimed it is doubling its defense spending and has announced a plan to equip itself with the capability to counterattack enemy bases overseas a departure from the nation's postwar consensus Shedding new light on Japan's pacifism and Hiroshima's role in it Yuasa investigates the events of postwar Japan and how it catalyzed a range of challenges to public sentiment Japan's Constitution stipulates the renunciation of war and forbids using force to settle international disputes This radical shift has been led by Fumio Kishida the prime minister whose constituency is Hiroshima the atomic bombed city symbolizing Japan's postwar pacifism This book is about Hiroshima's local nuclear politics and popular consciousness about pacifism Based on published and unpublished local documents and participant observation it describes how postwar global and national power has formulated local politics and discusses the impact of local struggles on national and global politics The key concept is imaginary Institutionalized imaginary effectively channels people's suppressed desires and emotions into coordinated action in the society The current political crossroad of Hiroshima and Japan is interpreted as a terrain constructed over the last half century by three paradoxically coexisting and competing pacifist imaginaries namely constitutional anti nuclear and nuclear pacifism They were however significantly destabilized by the Fukushima nuclear disaster and a newly invented proactive pacifism This book is an essential reading for scholars and students interested in Japanese postwar history and nuclear issues in general

C. Rookmaaker,Marvin L. Jones,1998      *Reworking Japan* Nana Okura Gagné,2021-01-15 Reworking Japan examines how the past several decades of neoliberal economic restructuring and

reforms have challenged Japan's corporate ideologies, gendered relations and subjectivities of individual employees. With Japan's remarkable economic growth since the 1950s, the lifestyles and life courses of salarymen came to embody the New Middle Class family ideal. However, the nearly three decades of economic stagnation and reforms since the bursting of the economic bubble in the early 1990s has intensified corporate retrenchment under the banner of neoliberal restructuring and brought new challenges to employees and their previously protected livelihoods. In a sweeping appraisal of recent history, Gagn demonstrates how economic restructuring has reshaped Japanese corporations, workers and ideals, as well as how Japanese companies and employees have resisted and actively responded to such changes. Gagn explores Japan's fraught and problematic transition from the postwar ideology of companyism to the emergent ideology of neoliberalism and the subsequent large-scale economic restructuring. By juxtaposing Japan's economic transformation with an ethnography of work and play and individual life histories, Gagn goes beyond the abstract to explore the human dimension of the neoliberal reforms that have impacted the nation's corporate governance, socioeconomic class, workers' subjectivities and family relations. Reworking Japan with its firsthand analysis of how the supposedly hegemonic neoliberal regime does not completely transform existing cultural frames and social relations will shake up preconceived ideas about Japanese men and the social effects of neoliberalism.
