The Woman Question in France, 1400-1870 Karen Offen,2017-10-05 This is a revolutionary reinterpretation of the French past from the early fifteenth century to the establishment of the Third Republic focused on public challenges and defenses of masculine hierarchy in relations between women and men Karen Offen surveys heated exchanges around women s influence their exclusion from authority the increasing prominence of biomedical thinking and population issues concerns about education intellect and the sexual politics of knowledge and the politics of women s work Initially the majority of commentators were literate and influential men However as more and more women attained literacy they too began to

analyze their situation in print and to contest men's claims about who women were and should be and what they should be restrained from doing and why. As urban print culture exploded and revolutionary ideas of equality fuelled women's claims for emancipation, this question resonated throughout francophone Europe and ultimately across the seas. Rachilde and French Women's Authorship Melanie Hawthorne, 2001-01-01 Under the assumed name Rachilde Marguerite Eymery 1860-1953 wrote over sixty works of fiction, drama, poetry, memoir, and criticism, including *Monsieur V nus*, one of the most famous examples of decadent fiction. She was closely associated with the literary journal *Mercure de France*, inspired parts of Oscar Wilde's *The Picture of Dorian Gray*, and mingled with all the literary lights of the day. Yet for all that, very little has been written about her. Melanie C. Hawthorne corrects this oversight and counters the traditional approach to Rachilde by persuasively portraying this eccentric as patently representative of the French women writers of her time and of the social and literary issues they faced. Seen in this light, Rachilde's writing clearly illustrates important questions in feminist literary theory as well as significant features of turn-of-the-century French society. Hawthorne arranges her approach to Rachilde around several defining events in the author's life, including the controversial publication of *Monsieur V nus* with its presentation of sex reversals. Weaving back and forth in time, she is able to depict these moments in relation to Rachilde's life, work, and times, and to illuminate nineteenth-century publishing practices and rivalries, including authorial manipulations of the market for sexually suggestive literature. The most complete and accurate account yet written of this emblematic author, Hawthorne's work is also the first to situate Rachilde in the broader social contexts and literary currents of her time and of our own.

Conduct Books for Girls in Enlightenment France Nadine Berenguer, 2016-05-23 During the eighteenth century, at a time when secular and religious authors in France were questioning women's efforts to read, a new literary genre emerged: conduct books written specifically for girls and unmarried young women. In this carefully researched and thoughtfully argued book, Professor Nadine Berenguer shares an in-depth analysis of this development, relating the objectives and ideals of these books to the contemporaneous Enlightenment concerns about improving education in order to reform society. Works by Anne Thérèse de Lambert, Madeleine de Puisieux, Jeanne Marie Leprince de Beaumont, Louise d'Épinay, Barthélemy Graillard de Gravelle, Chevalier de Cerfvol, abbé Joseph Reyre, Pierre Louis Roederer, and Marie Antoinette Lenoir take up a wide variety of topics and vary dramatically in tone. But they all share similar objectives: acquainting their young female readers with the moral and social rules of the world and ensuring their success at the next stage of their lives. While the authors regarded their texts as furthering the common good, they were also aware that they were likely to be controversial among those responsible for girls

education B renguier s sensitive readings highlight these tensions as she offers readers a rare view of how conduct books were conceived consumed re edited memorialized and sometimes forgotten In the broadest sense her study contributes to our understanding of how print culture in eighteenth century France gave shape to a specific social subset of new readers modern girls

The Feminist Encyclopedia of French Literature Eva M. Sartori,1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

"Interior Portraiture and Masculine Identity in France, 1789?914 " HeatherBelnap Jensen,2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book s premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic

creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period **International Perspectives on Gender and Higher Education** Christine Fontanini,K.M.

Joshi,Saeed Paivandi,2020-11-26 Despite improved access to higher education for women the distribution of women and men varies considerably between fields of study The chapters in this edited collection explore the participation status of women in higher education across the varying socio economic and sociological backgrounds observed in different countries and regions

Akehurst,2023-07-06 Through case studies this book investigates the pictorial imaging of epidemics globally especially from the late eighteenth century through the 1920s when amidst expanding Western industrialism colonialism and scientific research the world endured a succession of pandemics in tandem with the rise of popular visual culture and new media Images discussed range from the depiction of people and places to the invisible realms of pathogens and emotions while topics include the messaging of disease prevention and containment in public health initiatives the motivations of governments to ensure control the criticism of authority in graphic satire and the private experience of illness in the

domestic realm Essays explore biomedical conditions as well as the recurrent constructed social narratives of bias blame and othering regarding race gender and class that are frequently highlighted in visual representations This volume offers a pictured genealogy of pandemic experience that has continuing resonance The book will be of interest to scholars working in art history visual studies history of medicine and medical humanities *Sexuality and Subordination* Susan Mendus, Jane Rendall, 2002-09-11 *Sexuality and Subordination* uses the insights of a range of disciplines to examine the construction of gender in nineteenth century Britain and France With contributions from history literature sociology and philosophy its interdisciplinary approach demonstrates the extent to which a common focus can illuminate problems inaccessible to any single discipline Victorianism is generally understood to mean sexual double standards hypocrisy and prudery among the middle classes But as this collection shows the representation of sexuality in the nineteenth century was more diverse and complex than is sometimes realized Both art and literature point to the deployment of sexual metaphors and imagery and the language of educated public opinion was shaped by the dichotomy between mind and matter between rationality and sexuality The contributors to this volume explore how women in questioning their subordination had to challenge a construction of femininity which imposed sexual ignorance **An Empire Divided** James Patrick Daughton, 2006 An award winning book *An Empire Divided* tells the story of how troubled relations between Catholic missionaries and a host of republican critics shaped colonial policies Catholic perspectives and domestic French politics in the tumultuous decades before the First World War **Educating the Faithful** Sarah Ann Curtis, 1994
