immigrants as well as Depression era Dust Bowl migrants and white ethnic Europeans McKibben takes us from Salinas s nineteenth century beginnings as the economic engine of California s Central Coast up through the disproportionate impact of Covid 19 on communities of color today especially farmworkers who already live on the margins Throughout the century plus of Salinas history that McKibben explores she shows how the political and economic stability of Salinas rested on the ability of nonwhite minorities to achieve a measure of middle class success and inclusion in the cultural life of the city without overturning a system based in white supremacy This timely book deepens our understanding of race relations economic development and the impact of changing demographics on regional politics in urban California and in the United States as a whole *Explorer's Guide Northern California* Michele Bigley,2013-04-02 In addition to tourist attractions such

Kicking Off the Bootstraps Déborah Berman Santana,1996-12-01 While small communities in Third World countries usually seem at the mercy of central governments and foreign capitalists local activists can help exploited peoples correct environmental abuses and social injustices and seize control of their own destinies *Kicking Off the Bootstraps* is a powerful case history of such an effort It describes a grassroots activist movement that emerged in the Puerto Rican community of Salinas to counter the poverty and economic dependence experienced by its citizens in the wake of Operation Bootstrap a post World War II industrial development program D borah Berman Santana examines the efforts of the community to develop its own economic strategy based primarily on environmentally and socially responsible uses of local natural and human resources Berman Santana shows how local activists are seeking to empower the Salinas community to make decisions concerning economic development She evaluates present day efforts to develop positive alternatives examining the motivations of the activists the nature of their projects their efforts to mobilize the community their dealings with government and other organizations and the obstacles they face In a closing chapter she addresses the potential roles of community leaders outside activists local businesses and government in actualizing these alternatives A testimony to one community s efforts to determine its own future *Kicking Off the Bootstraps* deals with real issues such as control over productive resources quality of life and environmental health It also extends an examination of community directed activism to an exploration of policy implications for sustainable development While this concept is often too vague to be applied to real strategies the Salinas experience provides a clear idea of what sustainable development can and should mean in actual practice
