**Novel Trends in the Traveling Salesman Problem** Donald Davendra, Magdalena Bialic-Davendra, 2020-12-09 The Traveling Salesman Problem TSP is widely considered one of the most intensively studied problems in computational mathematics and operations research Since its inception it has become the poster child for computational complexity research A number of problems have been transformed to a TSP problem and its application base now extends into scheduling manufacturing routing and logistics With the advent of high performance computing and advanced meta heuristics such as GPU programming and swarm based algorithms the TSP problem is positioned firmly as the go to problem for the development of the next generation of high performance intelligent heuristics This book looks to leverage some of these new paradigms for both students and researchers in this field *Automata, Languages and Programming* Michael S. Paterson, 1990 In subvolume 27C1 magnetic and related properties of binary lanthanide oxides have been compiled This subvolume covers data obtained since 1980 and can therefore be regarded as supplement to volume III 12c While in the previous volume the majority of magnetic data was obtained either from magnetometric measurements or from neutron diffraction for the present data the main emphasis is devoted to related properties without which however the understanding of classical magnetic properties is impossible A second part 27C2 will deal with binary oxides of the actinide elements
