From Bananas to Buttocks Myra Mendible, 2010-06-03 From the exuberant excesses of Carmen Miranda in the tutti frutti hat to the curvaceous posterior of Jennifer Lopez the Latina body has long been a signifier of Latina o identity in U S popular culture But how does this stereotype of the exotic erotic Latina bombshell relate if at all to real Latina women who represent a wide spectrum of ethnicities national origins cultures and physical appearances How are ideas about Latinidad imagined challenged and inscribed on Latina bodies What racial class and other markers of identity do representations of the Latina body signal or reject In this broadly interdisciplinary book experts from the fields of Latina o studies media studies communication comparative literature women s studies and sociology come together to offer the first wide ranging look at the construction and representation of Latina identity in U S popular culture The authors consider such popular figures as actresses Lupe Velez Salma Hayek and Jennifer Lopez singers Shakira and Celia Cruz and even the Hispanic Barbie doll in her many guises

They investigate the media discourses surrounding controversial Latinas such as Lorena Bobbitt and Marisleydis González. And they discuss Latina representations in Lupe Solano's series of mystery books and in the popular TV shows *El Show de Cristina* and *Laura en América*. This extensive treatment of Latina representation in popular culture not only sheds new light on how meaning is produced through images of the Latina body but also on how these representations of Latinas are received, revised, and challenged.

Latino American Cinema Scott L. Baugh, 2012-04-13 Latino American cinema is a provocative, complex, and definitively American topic of study. This book examines key mainstream commercial films while also spotlighting often underappreciated documentaries, avant-garde, and experimental projects, independent productions, features, and shorts, and more. *Latino American Cinema: An Encyclopedia of Movies, Stars, Concepts, and Trends* serves as an essential primary reference for students of the topic as well as an accessible resource for general readers. The alphabetized entries in the volume cover the key topics of this provocative and complex genre: films, filmmakers, star performers, concepts, and historical and burgeoning trends, alongside frequently overlooked and crucially ignored items of interest in Latino cinema. This comprehensive treatment bridges gaps between traditional approaches to U.S. Latino and Latin American cinemas, placing subjects of Chicana and Chicano, Puerto Rican, Cuban, and diasporic Cuban and Mexican origin in perspective with related Central and South American and Caribbean elements. Many of the entries offer compact definitions, critical discussions, overviews, and analyses of star artists, media productions, and historical moments, while several foundational entries explicate concepts, making this single-volume encyclopedia a critical guide as well.

Rhetorical Agency Les Belikian, 2017 In recent accounts of rhetoric's storied productivity, commentators have implied, along systematically Kantian lines, albeit with the occasional protestation that agency must be coextensive with subjectivity. But is that all there is to 2,500 years worth of hypothesizing about the ways in which communication might promote social change? Les Belikian's answer, drawing not only on traditional and contemporary rhetorical studies but also on Deleuzian thinking, actor-network theory, and object-oriented ontology, takes the form of a quadruply contrarian thesis: Rhetorical agency inheres irreducibly, so, in subjectivity, in conventionality, in transcendence, and in materiality, all of which are themselves under production.
