Islands in the Salish Sea Judi Stevenson, Sheila Harrington, 2005. Gorgeous, fascinating and unconventional, the Islands in the Salish Sea show aspects of the Gulf Islands that are most beloved by the residents: from heritage orchards, fishing spots and patches of endangered wild orchids to ancient First Nations sites and bird colonies. The community on each island decided what elements should be depicted and local artists then created each of the magnificent and wildly different maps. This volume is a treasure trove of cherished information that could have been lost, presented with imagination and great beauty. The Islands in the Salish Sea Community Mapping Project was coordinated by Sheila Harrington and Judi Stevenson who live on Salt Spring Island.

Voices for the Islands Sheila Harrington, 2024-07-09. A fascinating compendium of stories chronicling the creation of local nature conservancies and the people behind them on seventeen islands on the Salish Sea from the 1990s to the present day. Voices for the Islands brings together the stories and experiences of those who rose to protect areas at risk within their island communities. Narratively linked by author Sheila Harrington's three year sailing journey among the islands to interview more than fifty veteran conservationists, the book shares an in-depth view of local protests and the history and evolution of local conservancies from their timely emergence through legal battles and successful partnerships. It highlights how local, provincial and national support was won through the collaborative efforts of dedicated locals, resulting in hundreds of new protected areas and parks within one of the most at-risk ecological communities in Canada: the islands of the Salish Sea. Beginning in the 1980s when logging and development threatened the fragile ecosystems and natural habitats and culminating in the creation of more than seventeen local conservancies and the Gulf Island National Park Reserve, Voices for the Islands will inspire readers to turn apathy into action and support the cause of conservation and reconciliation in an era of species extinction and climate change. Full of colour photos, maps and fascinating first-hand stories by unsung heroes of conservation, many of whom are now elders, this book reveals how local people and grassroots movements have the power to transform the future of our precious planet.
