Stableford, 2006 Publisher description Friend of Science, Friend of Faith Gregg Davidson, 2019-11-19 A scientist explores the harmony between Christian faith and science Though some Christians and many skeptics see science and Christianity as locked in a never ending battle geologist Gregg Davidson contends that there is tremendous harmony between Scripture and modern science Many apparent conflicts arise when the Bible is interpreted apart from its literary and historical contexts but when these are taken into account most alleged clashes resolve Proceeding from a belief that Scripture is inspired and without error and that God's creation should inform how we interpret the Bible Davidson shows that Scripture and science need not disagree on issues like the age of the earth Adam and Eve Noah's flood the origin and development of life and numerous related topics Rather Christians can rejoice at how God's glory is revealed in both the Bible and the natural world

Scientific Values and Civic Virtues Noretta Koertge, 2005-08-04 This volume of contributed essays a follow up to Noretta Koertge's successful book on the science wars *A House Built on Sand* takes an affirming positive view of the relationship between the values embodied in science and the nature of a civil society It argues that recent attacks on the probity of science undermine the possibility of rational discourse in the political arena While science has traditionally been viewed as incorporating intellectual virtues like honesty and precision of language the contributors to this volume point to additional benefits examining the idea that science can serve as a source of and inspiration for civic virtues in the need to be well informed about the way the world works in tolerating the viewpoints of others and in functioning as a fully global enterprise dedicated to the public good The contributors who include philosophers political scientists physicists biologists and engineers look at examples of scientific virtues in action and how they might be used as inspirations and practical resources for improving civic society The volume will appeal to a similarly broad audience interested in the relationship between science and society *Origins*, 2001 Glorious panoramic photography by the author a specialist in interpretive landscape reveals the physical legacy of the Earth's distant past This exceptional book celebrates the inevitability of global change and highlights our need as human beings to recognize and adjust to it Color and b/w illustrations Handbook of Reference Sources and Services for Small and Medium-Sized Libraries Margaret I. Nicholas, 1996-07 Lists over 750 sources focusing on the reference needs of adults The primary objective was to select quality reference tools which cover many different topics Topics include general works biography philosophy religion language literature visual arts applied sciences sports and recreation home life social customs and education **Reader's Guide to the History of Science** Arne Hessenbruch, 2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts

Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn Science Simplified: Simple and Fun Science (Book E, Grades 4-6) Dennis McKee and Lynn Wicker, 2021-06-04 The study of science is important because it helps us understand how the world works One way we learn science is by reading about discoveries made by scientists Another way is by learning how scientists do their work and then through experiments and activities make discoveries on our own The Simple and Fun Science Simplified series offers students both paths to understanding science Answers are provided at the back of the book Book E is Grades 4 6

Articulating Dinosaurs Brian Noble, 2016-01-01 In this remarkable interdisciplinary study anthropologist Brian Noble traces how dinosaurs and their natural worlds are articulated into being by the action of specimens and humans together Following the complex exchanges of palaeontologists museums specialists film and media makers science fiction writers and their diverse publics he witnesses how fossil remains are taken from their partial state and re composed into astonishingly precise animated presences within the modern world with profound political consequences Articulating Dinosaurs examines the resurrecting of two of the most iconic and gendered of dinosaurs First Noble traces the emergence of Tyrannosaurus rex the king of the tyrant lizards in the early twentieth century scientific literary and filmic cross currents associated with the American Museum of Natural History under the direction of palaeontologist and eugenicist Henry Fairfield Osborn Then he offers his detailed ethnographic study of the multi media model making curatorial and laboratory preparation work behind the Royal Ontario Museum s ground breaking 1990s exhibit of Maiasaura the good mother lizard Setting the exhibits at the AMNH and the ROM against each other Noble is able to place the political natures of T rex and Maiasaura into high relief and to raise vital questions about how our choices make a difference in what comes to count as nature An original and illuminating study of science culture and museums Articulating Dinosaurs is a remarkable look at not just how we visualize the prehistoric past but how we make it palpable in our everyday lives

The Changing Image of the Sciences Ida H. Stamhuis, Teun Koetsier, Cornelis De Pater, Albert Van Helden, 2012-12-06 The title of our book would lead the reader to believe that in speaking of the changing image of the sciences we are taking for granted the multiplicity of sciences as these are practiced for instance in modern universities That was of course not always the case Although we can point to some subjects for instance mathematical astronomy as being demarcated to some extent from other subjects as far back as Antiquity the current division into individual sciences can hardly be traced back further than the nineteenth century Moreover the further we go back in history the more we must subsume science under general knowledge or scholarship scientia Some of the earliest images of episteme or scientia are those of forbidden knowledge often related to technology on the one hand and the absent minded scholar on the other These are powerful metaphors in word as well as image that have been appropriated in various ages for different purposes The Greeks gave Western society its first images of the power of knowledge and those who produced it Prometheus ridiculed the

gods stole their fire and brought it down to Earth For this Zeus had him chained to a rock on Mount Caucasus where a vulture fed on his liver during the day while it grew back at night He was finally freed by Heracles
