The Arden Research Handbook of Shakespeare and Adaptation Diana E. Henderson, Stephen O'Neill, 2022-03-24 The Arden Research Handbook of Shakespeare and Adaptation explores the dynamics of adapted Shakespeare across a range of literary genres and new media forms. This comprehensive reference and research resource maps the field of Shakespeare adaptation studies, identifying theories of adaptation, their application in practice, and the methodologies that underpin them. It investigates current research and points towards future lines of enquiry for students, researchers, and creative practitioners of Shakespeare adaptation. The opening section on research methods and problems considers definitions and theories of Shakespeare adaptation and emphasises how Shakespeare is both adaptor and adapted. A central section develops these theoretical concerns through a series of case studies that move across a range of genres, media forms, and cultures to ask not only how Shakespeare is variously transfigured, hybridised, and valorised through adaptational play but also how adaptations produce interpretive communities and within these potentially new literacies, modes of engagement and sensory pleasures. The volume's third section provides the reader with uniquely detailed insights into creative adaptation with writers and practice-based researchers reflecting on their close collaborations with Shakespeare's works as an aesthetic, ethical, and political encounter. The Handbook further establishes the conceptual parameters of the field through detailed practical resources that will aid the specialist and non-specialist reader alike, including a guide to research resources and an annotated bibliography.

The Oxford Handbook of Shakespeare and Race, 2024-01-04 Premodern critical race studies long intertwined with Shakespeare studies has broadened our understanding of the definitions and discourse of race and racism to include not only phenotype but also religious and political identity, regional, national, and linguistic difference, and systems of differentiation based upon culture and custom. Replete with fresh readings of the plays and poems, *The Oxford Handbook of Shakespeare and Race* brings together some of the most important scholars thinking about the subject today. The volume offers a thorough overview of the most significant theoretical and methodological paradigms, such as critical race theory, feminist and postcolonial studies, a dynamic look at intersections of race with queer, trans, disability, and indigenous studies, and a vibrant array of new approaches from ecocriticism to animality and human rights, from book history to scholarly editing and repertory studies, and an exploration of Shakespeare and race in our contemporary moment through discussions of political activism, pedagogy, visual arts, film, and theatre. Woven through the collection are the voices of practicing theatre professionals.

Women and Shakespeare's Cuckoldry Plays Cristina León Alfar, 2017-02-10 How does a woman become a whore What are the discursive dynamics making a woman a whore And more importantly what are the discursive mechanics of unmaking In Women and Shakespeare s Cuckoldry Plays Shifting Narratives of Marital Betrayal Cristina Le n Alfar pursues these questions to tease out familiar cultural stories about female sexuality that recur in the form

of a slander narrative throughout William Shakespeare's work. She argues that the plays stage a structure of accusation and defense that unravels the authority of husbands to make and unmake wives. While men's accusations are built on a foundation of political, religious, legal, and domestic discourses about men's superiority to and rule over women whose weaker natures render them perpetually suspect, women's bonds with other women animate defenses of virtue and obedience, fidelity and love work loose the fabric of patrilineal power that undergirds masculine privileges in marriage and signify a discursive shift that constitutes the site of agency within a system of oppression that ought to prohibit such agency. That women's agency in the early modern period must be tied to the formations of power that officially demand their subjection need not undermine their acts. In what Alfaro calls Shakespeare's cuckoldry plays, women's rhetoric of defense is both subject to the discourse of sexual honor and finds a ground on which to shift it as women take control of and replace sexual slander with their own narratives of marital betrayal.
