Guide to Books in Print ,1993 **Rethinking Religion in the Theatre of Grotowski** Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski's work It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be developed It is possible to show how Grotowski's work articulated spiritual experience within the body achieving a removal of spirituality from ecclesial authorities and relocating spiritual experience within the body of the performer This is a unique analysis of one of the 20th Century's most famous theatrical figures As such it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski's work Contemporary Paganism Graham Harvey, 2011-02-07 An introduction to modern Paganism and its roots and history The Pagan tradition celebrates the physical nature of life on earth blending science with spiritual folklore Considering the everyday world of food health sex work and leisure to be sacred Pagans oppose that which threatens life such as deforestation overdevelopment and nuclear power and invoke ancient deities in this struggle for the well being of the earth and its inhabitants Contemporary Paganism presents a broad based introduction to the main trends of contemporary Paganism revealing the origins and practical aspects of Druidry Witchcraft Goddess Spirituality and Magic Shamanism and Geomancy among others Making use of both traditional history and the movement's more imaginative sources Harvey reveals how Paganism and its central focus on individual and social lives is evolving and how this new religion perceives and relates to more traditional ones This updated and expanded new edition addresses recent developments among Pagans and includes a new chapter assessing continuing scholarly research about the religion *Spirits Captured in Stone* Jay H. Bernstein, 1997 This fascinating case study focuses on shamanism and the healing practices of the Taman a formerly tribal society indigenous to the interior of Borneo The Taman typically associate illness with an encounter with spirits that both seduce and torment a person in dreams or waking life Rather than use medicines to counter the effect of these discomfoting

visitors the shamans called baliens use stones that are said to contain the convergence of wild spirits that have come into being during the initiation ceremony P 209

Counterworks Richard Fardon, 2003-12-16 Globalization is often described as the spread of western culture to other parts of the world How accurate is the depiction of cultural flow In Counterworks ten anthropologists examine the ways in which global processes have affected particular localities where they have carried out research They challenge the validity of anthropological concepts of culture in the light of the pervasive connections which exist between local and global factors everywhere Rather than assuming that the world is culturally diverse this book proposes that culture is itself a representation of the similarities and difference recognized between forms of social life The authors address issues of globalization in terms of diverse histories and traditions of knowledge which may include the construction of difference as cultural In its attention to specific local situations such as Bali Cuba Bolivia Greece Kenya and the Maoris in New Zealand Counterworks argues that the apparent opposition between strong westernizing global forces and weak concept of culture which supposes cultures to be integrated and possessed of essential properties needs rethinking in a contemporary world where a marked sense of culture has become a wide spread property of people s social knowledge The book will have wide appeal to anthropologists to students of comparative studies in history religion and language and to anyone interested in the phenomenon of postmodernism
