Peek, 2022-08-23 Divination is an important feature of cultures all over the world While some may still question the efficacy of divination systems they continue to serve their communities by diagnosing ailments prescribing healing treatments and solving problems Yet despite their universality there are relatively few comprehensive studies of divination systems This volume seeks to fill this gap regarding the use of divination in healing Here some of the world's leading authorities draw on their own fieldwork and participation in ritual to present detailed case studies demonstrating that divination rituals can have therapeutic effects As the contributors examine

the systems of knowledge that divination articulates and survey the varieties of divinatory experience they seek to analyze divination as an epistemological system as a social process and as a therapeutic endeavor While some of their findings reinforce traditional assumptions about the importance of social control spirit relations and community support in the divination process the authors place these considerations within new epistemological frameworks that emphasize the use of alternative modes of knowing In this wide ranging volume readers will find coverage of classic Ifa systems Buddhist influenced shamanic practices in the former Soviet Union the reconciliation of Muslim beliefs and divinatory practices in Thailand Native American divination used in diagnosis Maya calendrical divination in Guatemala mediumistic and chicken oracle divination among the Sukuma of Tanzania Ndembu divination focusing on the process of collective healing and divination among the Samburu Maasai of Kenya featuring dialogues from actual healing sessions Together these contributions argue for new perspectives on the study of divination that emphasize not only the epistemological roots of these systems but also their multifaceted therapeutic functions Divination and Healing is a rich source of both data and insight for scholars of ritual religion medical anthropology and the psychology of altered states of consciousness *Korean Shamanism: Revivals, Survivals, and Change* Keith Howard, 1998 *Shamans Unbound* Mihály Hoppál, Zsuzsanna Simonkay, 2008 *An Anthropology of Animism and Shamanism* Takako Yamada, 1999 Based upon her field trips since the 1980s among the Ladakhi in Western Tibet the Ainu in Hokkaido and the Sakha Yakut in Eastern Siberia the author reformulates the significance of animism and shamanism considering them part of a comprehensive cognitive system of the phenomenal world including the universe soul spirits and nature For example Yamada comes across references to Ainu names for plants and animals and becomes aware of the Ainu's enormous knowledge of them and their belief they are kamui deities No information on the author except that she has been funded by an array of Japanese organizations Annotation copyrighted by Book News Inc Portland OR **Drones, Tones, and Timbres** Carole Pegg, 2024-01-09 An indispensable study of the music of Altai Sayan peoples Based on more than twenty years of collaborative research Carole Pegg's long awaited participatory ethnography explores how Indigenous nomadic peoples of Russia's southern Siberian republics Altai Khakassia Tyva sound multiphonies of place in a post Soviet global world Inspired by the mountain steppe ecology and pathways of nomadism soundscapes created in performative ritual events cross political and multiple world boundaries in a shamanic animist universe enabling human and spirit actor interactions in a series of sensuous worlds As with the throat singing for which Indigenous Altai Sayan peoples are famous senses of place involve sonic relations rootedness movement and plurality Pegg echoes their drone partials musical and ontological models in an innovative theoretical entwinement Three strands form the book's multivocal drone the partials of which sound in each chapter ontological sonicity and musicality that enables emplacement and movement the importance of shamanism animism at the core of Indigenous spiritual practices for personhood and community and the agency of sonic performances Sounding place Pegg demonstrates is essential to the
