Shame And The Self:

Shame and the Self Francis J. Broucek, 1991-04-26 In this ambitious new work Frank Broucek explores the affect of shame its functions and its relationship to sexuality self and others With a special focus on the relationship between shame and self objectification he proposes an innovative new theory that links shame to our sense of self from early development through maturity In exploring this theme Broucek a psychoanalytically trained psychiatrist breaks new ground in understanding the development of the self establishing a perspective on narcissism that differs markedly from traditional psychoanalytic concepts An illuminating overview of the modern literature precedes a provocative analysis of the role of shame in the formation of the self Here Broucek identifies the three major sources of shame the infant's experiences of interpersonal inefficacy self objectification resulting in a kind of self alienation or primary dissociation and the experience of being unloved rejected or scapegoated by important others In the course of development these vectors cause the self's overinvestment in the idealized self image and a devaluation of the actual self an event explored in depth in the chapter on narcissism Broucek also addresses the role of shame in psychoanalysis and in society The neglect of this emotion in psychoanalytic theory and technique the author contends results from a critical lack of understanding of shame and its effect potentially adverse on the practice of psychotherapy Finally Broucek's analysis of widespread shamelessness in modern times logically extends the ideas presented earlier Maintaining a critical balance in its coverage and interpretation **SHAME AND THE SELF** marks a significant contribution to the understanding of the nature of shame and its role in our psychic life As such it is essential reading for all practicing psychiatrists psychologists social workers and other mental health practitioners

Shame Michael Lewis, 1995-08-08 Shame the quintessential human emotion received little attention during the years in which the central forces believed to be motivating us were identified as primitive instincts like sex and aggression Now redressing the balance there is an explosion of interest in the self conscious emotion Much of our psychic lives involve the negotiation of shame asserts Michael Lewis internationally known developmental and clinical psychologist Shame is normal not pathological though opposite reactions to shame underlie many conflicts among individuals and groups and some styles of handling shame are clearly maladaptive Illustrating his argument with examples from everyday life Lewis draws on his own pathbreaking studies and the theory and research of many others to construct the first comprehensive and empirically based account of emotional development focused on shame In this paperback edition Michael Lewis adds a compelling new chapter on stigma in which he details the process in which stigmatization produces shame

Shame and the Origins of Self-Esteem Mario Jacoby, 2016-08-12 Shame is one of our most central feelings and a universal human characteristic Why do we experience it For what purpose How can we cope with excessive feelings of shame In this elegant exposition informed by many years of helping people to understand feelings of shame leading Jungian analyst Mario Jacoby provided a comprehensive exploration of the many aspects of shame and showed how it occupies a central place in our emotional

experience Jacoby demonstrated that a lack of self esteem is often at the root of excessive shame and as well as providing practical examples of how therapy can help he drew upon a wealth of historical and cultural scholarship to show how important shame is for us in both its individual and social aspects This Classic Edition includes a new foreword by Marco Della Chiesa

Shame and Pride: Affect, Sex, and the Birth of the Self Donald L. Nathanson, 1994-03-17 This is a revolutionary book about the nature of emotion about the way emotions are triggered in our private moments in our relations with others and by our biology Drawing on every theme of the modern life sciences Donald Nathanson shows how nine basic affects interest excitement enjoyment joy surprise startle fear terror distress anguish anger rage dissmell disgust and shame humiliation not only determine how we feel but shape our very sense of self For too long those who explain emotional discomfort on the basis of lived experience and those who blame chemistry have been at loggerheads As Dr Nathanson shows chemicals and illnesses can affect our mood just as surely as an uncomfortable memory or a stern rebuke Linking for the first time the affect theory of the pioneering researcher Silvan S Thomkins with the entire world of biology medicine psychology psychotherapy religion and the social sciences Dr Nathanson presents a completely new understanding of all emotion

Shame Joseph Burgo, 2018-11-06 An intimate look at the full spectrum of shame often masked by addiction promiscuity perfectionism self loathing or narcissism that offers a new positive route forward Encounters with embarrassment guilt self consciousness remorse etc are an unavoidable part of everyday life and they sometimes have lessons to teach us about our goals and values about the person we expect ourselves to be In contrast to the prevailing cultural view of shame as a uniformly toxic influence Shame is a book that approaches the subject of shame as an entire family of emotions which share a painful awareness of self Challenging widely accepted views within the self esteem movement author Joseph Burgo argues that self esteem does NOT thrive in the soil of non stop praise and encouragement but rather depends upon setting and meeting goals living up to the expectations we hold for ourselves and finally sharing our joy in achievement with the people who matter most to us Along the way listening to and learning from our encounters with shame will go further than affirmations and positive self talk in helping us to build authentic self esteem Richly illustrated with clinical stories from Burgo s 35 years in private practice Shame also describes the myriad ways that unacknowledged shame often hides behind a broad spectrum of mental disorders including social anxiety narcissism addiction and masochism

Building Self-Esteem Joseph Burgo, 2020-05 Rather than viewing shame as the opposite of self esteem this book shows that building authentic self esteem depends upon the ability to listen to shame and learn from it

Moving from Shame to Self-worth Edward P. Wimberly, 1999 This inspiring and practical book has three parts Part 1 explores how Jesus came to grips with the shame and humiliation he faced in his own life and how we can imitate his manner of handling shame Part 2 focuses on how Jesus dealt with the shame that others brought to him and the implications this has for how we can overcome shame by internalizing and reenacting Jesus stories in our lives Part 3 explores the parables of Jesus and their implications for helping us live lives

grounded in nonshame based values **The Trauma of Shame and the Making of the Self** Shelley Stokes, Sherron Lewis, 2018-08-20 Shame influences more of our thoughts and actions than many other emotions Used as a punishment for bad behavior shame acts as an incentive for us to behave in socially acceptable ways As a common method used to regulate children s behavior shame is by far one of the most pervasive socializing agents Many of our more persistent punitive and critical feelings about ourselves stem from humiliations in early childhood even if we don t remember the specific events that prompted them While we all experience shame from time to time when shame becomes toxic it can play a central role in our life long development and functioning At its worst shame can become a devastating attack on one s personhood and a threat to the integrity of the self Many books on shame and the process of healing have been written but few have been written specifically from a psychodynamic depth psychology perspective It is intended that *The Trauma of Shame and The Making of the Self* will make an important contribution to that effort Shelley Stokes PhD and Sherron Lewis LMFT Authors of *Letting Go and Taking the Chance to be Real* Lewis and Stokes 2017 *The Culture of Shame* Andrew P. Morrison, 1998 In *The Culture of Shame* Harvard psychiatrist Andrew P Morrison argues that shame pervades our culture From its early references in biblical stories to the works of philosophers such as Nietzsche and Sartre and contemporary novelists Philip Roth and Toni Morrison the experience of shame emerges as a theme of human experience Yet until recently professional psychology did not acknowledge the role of shame focusing instead on guilt Indeed our modern culture which emphasizes independence and personal responsibility tends to view shame as the mark of an inferior or self absorbed individual **The Self at Work** D. demonstrates why Goffman remains such a key figure for social scientists Goffman may have been cautious about recognizing the role of emotions in social life but Scheff boldly and creatively shows why the sociological and the psychological are necessarily intertwined This is certainly a book for all serious analysts of social behaviour Michael Billig Nottingham University Scheff s critical eye is equal to his subject shrewdly appreciating Goffman s many virtues while also showing where and how Goffman s thinking needs revision and development This original and provocative book offers a fresh interpretation of Goffman and will become a benchmark for all subsequent commentary Greg Smith University of Salford One of the seminal sociologists of the twentieth century Erving Goffman revolutionized our understanding of the microworld of

emotions and relationships We all live in this world every day of our lives yet it is virtually invisible to us Goffman s genius was to recognize and describe this world as no one had before The book synthesizes prior scholarly commentary on Goffman s work and includes biographical material from his life untangling some of the many puzzles in Goffman s work and life Scheff also proposes ways of filling gaps and false starts One chapter explores the meaning of the emotion of love another of hatred These and other new directions could facilitate the creation of a microsocial science that unveils the emotional relational world
