## **Shame Management Through Reintegration:**

**Shame Management Through Reintegration** Eliza Ahmed, 2001-10-15 This 2001 book is a follow on to John Braithwaite's best selling and influential Crime Shame and Reintegration. Shame management is becoming a central concept in theoretical and practical terms. This book makes a major contribution to the advancement of shame in a theoretical sense. For criminology as well as for psychology, sociology and other areas, this accessible book serves as an introduction to the concepts of shame, guilt and embarrassment. Presenting research by the Restorative Justice Centre at the Australian National University, the book contributes immeasurably to the development of practical alternatives to common sanctions in an effort to reduce crime and other social problems. Written by the key exponents of restorative justice, the book is an important re-statement of the theory and practice of shaming. It will develop important and often controversial debates about punishment, shaming and restorative justice to a new level.

**Encyclopedia of Victimology and Crime Prevention** Bonnie S. Fisher, Steven P. Lab, 2010-02-02 Victimology and crime prevention are growing interrelated areas cutting across several disciplines. Victimology examines victims of all sorts of criminal activity from domestic abuse to street violence to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives. Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization. In many ways the two fields have developed along parallel yet separate paths and the literature on both has been scattered across disciplines as varied as sociology, law and criminology, public health and medicine, political science and public policy, economics, psychology and human services and more. The Encyclopedia of Victimology and Crime Prevention provides a comprehensive reference work bringing together such dispersed knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims' needs. Two volumes containing approximately 375 signed entries provide users with the most authoritative and comprehensive reference resource available on victimology and crime prevention both in terms of breadth and depth of coverage. In addition to standard entries, leading scholars in the field have contributed Anchor Essays that in broad strokes provide starting points for investigating the more salient victimology and crime prevention topics. A representative sampling of general topic areas covered includes interpersonal and domestic violence, child maltreatment and elder abuse, street violence, hate crimes and terrorism, treatment of victims by the media, courts, police and politicians, community response to crime victims, physical design for crime prevention, victims of nonviolent crimes, deterrence and prevention, helping and counseling crime victims, international and comparative perspectives and more.

Repositioning Restorative Justice Lode Walgrave, 2012-12-06 Restorative justice has become an increasingly important element in reform and change to criminal justice systems throughout the western world and there are many reasons for satisfaction with the progress that has been made from the point of view of victims, offenders

the level and incidence of reoffending and in terms of public opinion At the same time there has been cause for concern not least to do with the confusion on aims that has accompanied the rapid spread of restorative justice practices an over estimate of its possibilities a blurring of concepts and a lack of attention to legal rights and processes This book based on papers presented at the 5th international conference held at Leuven Belgium in 2002 aims to provide an overview of recent experience of restorative justice in the light of these concerns The central theme is the positioning or repositioning of restorative justice in contexts where it can offer hope to communities both fearful of crime and looking for more socially constructive responses to crime At the same time restorative justice practitioners seek definition in relation to the kinds of crime it is appropriate to apply restorative justice to how it relates to different forms of punishment to rehabilitation and how it fits in with criminal justice systems and the law of different countries how to reconcile the informal participatory philosophy of restorative justice with formal legal processes and the need for legal safeguards

**Rationality and the Ideology of Disconnection** Michael Taylor, 2006-07-24 A powerful and provocative critique of the foundations of Rational Choice theory and the economic way of thinking about the world written by a former leading practitioner The target is a dehumanizing ideology that cannot properly recognize that normal people have attachments and commitments to other people and to practices projects principles and places which provide them with desire independent reasons for action and that they are reflective creatures who think about what they are and what they should be with ideals that can shape and structure the way they see their choices The author s views are brought to bear on the economic way of thinking about the natural environment and on how and when the norm of fair reciprocity motivates us to do our part in cooperative endeavors Throughout the argument is adorned by thought provoking examples that keep what is at stake clearly before the reader s mind

**Restorative Justice in Practice** Joanna Shapland, Gwen Robinson, Angela Sorsby, 2011-07-15 Restorative justice has made significant progress in recent years and now plays an increasingly important role in and alongside the criminal justice systems of a number of countries in different parts of the world In many cases however successes and failures strengths and weaknesses have not been evaluated

sufficiently systematically and comprehensively and it has been difficult to gain an accurate picture of its implementation and the lessons to be drawn from this Restorative Justice in Practice addresses this need analyzing the results of the implementation of three restorative justice schemes in England and Wales in the largest and most complete trial of restorative justice with adult offenders worldwide It aims to bring out the practicalities of setting up and running restorative justice schemes in connection with criminal justice the costs of doing so and the key professional and ethical issues involved At the same time the book situates these findings within the growing international academic and policy debates about restorative justice addressing a number of key issues for criminal justice and penology including how far victim expectations of justice are and can be met by restorative justice aligned with criminal justice whether community is involved in restorative justice for adult offenders and how this relates to social capital how far restorative justice events relate to processes of desistance giving up crime promote reductions in reoffending and link to resettlement what stages of criminal justice may be most suitable for restorative justice and how this relates to victim and offender needs the usefulness of conferencing and mediation as forms of restorative justice with adults Restorative Justice in Practice will be essential reading for both students and practitioners and a key contribution to the restorative justice debate

**Emotions, Crime and Justice** Susanne Karstedt, Ian Loader, Heather Strang, 2011-04-01 The return of emotions to debates about crime and criminal justice has been a striking development of recent decades across many jurisdictions This has been registered in the return of shame to justice procedures a heightened focus on victims and their emotional needs fear of crime as a major preoccupation of citizens and politicians and highly emotionalised public discourses on crime and justice But how can we best make sense of these developments Do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice This volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to recalibrate reason and emotion in crime and justice today The contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere They explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution The result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies

**Families Shamed** Rachel Condry, 2013-01-10 This book examines the experiences of relatives of those accused or convicted of serious crimes such as murder manslaughter rape and sex offences A broader literature exists on prisoners families but few studies have looked specifically at those related to serious offenders or considered their experience other than as prison visitors Many of the difficulties faced by mundane prisoners families are magnified for the relatives of serious offenders first by the length of sentence and secondly by the seriousness and stigmatizing impact through association of the offence itself Families Shamed draws upon intense qualitative research which combines long searching interviews with the relatives of serious offenders with ethnographic fieldwork over a period of several years The book focuses on how relatives made sense of their experiences individually and collectively how they described the difficulties they faced whether they were blamed and shamed and in what manner how they understood the offence and the circumstances which had brought it about and how they dealt with the contradiction inherent in supporting someone and yet not condoning his or her actions This is the first book to tell the story of serious offenders families the difficulties they face and their attempts to overcome them At the same time a focus on offenders families also draws our attention to the ways in which women are affected by crime illuminating the broader effects of crime and the criminal justice process on the proportionately greater number of women involved It contributes also to wider debates about the social organization of the meanings of crime and questions the tenability of some core policy assumptions about offenders and their families the relationship between the state and the family and its bearing especially on expectations about family responsibilities

#### **Criminal Justice Theory, Volume 26**

Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14 Criminal Justice Theory Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use
