All Things Act Assistant Professor of Philosophy Mercedes Valmisa, Mercedes Valmisa, 2025 This book explores the collective character of action to expand the ways we think about agency First it resists viewing agency as a capacity much less one exclusive to humans Instead it defines agency as an umbrella term for the concrete sociomaterial processes that emerge from the collaborative efforts of multiple entities acting together Agency isn't the faculty of an individual entity or self it's always the function of a network or assembly of actors Second many of the actors involved in these processes are

nonhuman things without intentions will or even awareness This relational and collective approach adopts a conception of action that doesn't hinge on mental states To act is to participate in contribute to shape facilitate organize constrain and modify the course of events This book argues that there's no such thing as an individual action and that agency is collectively distributed across a heterogeneous field of human and nonhuman actors Provided by publisher

Bone, Bronze, and Bamboo Constance A. Cook, Christopher J.
