The Shape of Catholic Higher Education Robert Hassenger,1967 [The Shape of Catholic Higher Education](#)
Francisco Goya,1967 **The Shape of Catholic Higher Education** Robert Hassenger,1967 [The Shape of Catholic Higher Education](#). Edited by Robert Hassenger Robert HASSENGER,1967 **Catholic Higher Education** Melanie Morey,John Piderit,2010-05-28 Today Catholic colleges and universities are dealing with critical questions about what constitutes Catholic collegiate identity Based on their research Morey and Piderit describe the present situation and offer concrete suggestions for enhancing Catholic identity culture and mission at all Catholic colleges and universities The authors define the critical issues and analyze and address them by using the rich construct of culture particularly organizational culture and they provide four different models of how Catholic colleges and universities can operate and successfully compete as religiously distinctive institutions in the higher education market **Catholic Higher Education in Protestant America** Kathleen A. Mahoney,2004-12-01 Winner of the 2005 New Scholar Book Award given by Division F History and Historiography of the American Educational Research Association In 1893 Harvard University president Charles W Eliot the father of the modern university helped implement a policy that in effect barred graduates of Jesuit colleges from regular admission to Harvard Law School The resulting controversy bitterly contentious and widely publicized was a defining moment in the history of American Catholic education illuminating on whose terms and on what basis Catholics and Catholic colleges would participate in higher education in the twentieth century In Catholic Higher Education in Protestant America Kathleen Mahoney considers the challenges faced by Catholics as the age of the university opened She describes how liberal Protestant educators such as Eliot linked the modern university with the cause of a Protestant America and how Catholic students and educators variously resisted accommodated or embraced Protestant inspired educational reforms Drawing on social theories of cultural hegemony and insider outsider roles Mahoney traces the rise of the Law School controversy to the interplay of three powerful forces the emergence of the liberal nonsectarian research university the development of a Catholic middle class whose aspirations included attendance at such institutions and the Catholic church's increasingly strident campaign against modernism and by extension the intellectual foundations of modern academic life [Catholic Higher Education in the 1960s](#) Anthony J. Dosen,2009-10-01 Catholic Higher Education in the 1960s is a series of cases that describes and analyzes the transitions made by representative Catholic institutions in their attempts to update their governance structures and maintain their Catholic identity in the midst of the post Vatican II era This book will be of interest to historians of education and Catholic education to administrators and faculty in Catholic schools and in other religious based institutions that seek to understand the dynamic of balancing their religious identity with their attempts at reading the signs of the times *[Handbook of Research on Catholic Higher Education](#)* Kendall Hunt,Ellis A. Greeley,2017-07-12 Almost all of America s private colleges and universities started out as denominational schools but connections with sponsoring churches gradually attenuated over the last century Only fundamentalist Protestant denominations and the Roman Catholic Church still maintain colleges and universities closely tied to the spirit of their denominations Catholic higher education is the largest of these systems producing a significant proportion of America s college graduates trained professionals and doctorates Andrew M Greeley argues that Catholic schools are no better and no worse than the vast majority of American higher educational institutions He chooses a sample of schools varying in the degree to which changes are evident without revealing this key to his investigator team Greeley and his field team then visit the schools interviewing significant segments of each and characterize each in terms of recent growth and elements which are critical in fostering and supporting such changes Greeley briefly summarizes information on the history of Catholic higher education He then furnishes descriptions of three rapid improvement three medium improvement and three low improvement schools In a summary he provides evidence that the quality of administrative leadership predicts academic improvement in a Catholic college or university In the final sections Greeley reviews the administrations faculties and student bodies at Catholic colleges and universities and offers general observations about the outlook for Catholic higher education in the United States [The ^AFuture of Catholic Higher Education](#) James L. Heft,2021-06-04 The Future of

Catholic Higher Education advances a vision of the Catholic University that is neither a closed circle of only Catholics nor a market place of ideas with no distinctive mission but rather an open circle one that fosters the Catholic intellectual tradition by including scholars of many religions rooting Catholic social thought in Catholic doctrine defending academic freedom and the mandatum Drawing upon his extensive experience James Heft lays out the current state of Catholic Higher Education and what needs to be done to ensure that Catholicism isn t phased out of the educational system Heft analyzes the foundational intellectual principles of Catholic Higher Education and both the strengths and weaknesses of the present day system in order to look at possibilities for its future *Faith and Secularisation in Religious Colleges and Universities* James

Arthur,2006-09-27 This book is a detailed study of higher education institutions affiliated to particular religions It considers the debates surrounding academic freedom institutional governance educational policy mission and identity together with institutions relations with the state and their wider communities A wide range of institutions are examined including Christian Islamic and Jewish universities in the US Europe and the Middle East Essentially this volume questions whether such institutions can be both religious and a university and also considers the appropriate role of religious faith within colleges and universities

Catholic Higher Education and Catholic Social Thought Prusak, Bernard G,Reed-Bouley, Jennifer,2023 Responding to the signs of the time this book brings the lens of Catholic social thought CST to the enterprise of Catholic higher education in the United States Scandals in the Church and the growth of religious non affiliation in the culture have made being Catholic greatly challenging for Catholic colleges and universities at the same time that the economics of higher education have mounted a challenge to the very viability of many institutions This book throws light on what Catholic colleges and universities might and must do in order both to preserve their mission and renew it for the future CST is concerned with the right ordering of social institutions or in other words the systems in which individuals live and work CST is accordingly relevant not only to the internal dynamics and structures of Catholic colleges and universities but to the system of U S higher education in which individual colleges and universities operate This edited volume consisting of high quality chapters by authors with disciplinary expertise deploys the resources of CST to shed light on both internal and external challenges to opportunities for and obligations on institutions of Catholic higher education in the U S context

Building Catholic Higher Education Christian Smith,John C. Cavadini,2014-07-29 American Catholic universities and colleges are wrestling today with how to develop in ways that faithfully serve their mission in Catholic higher education without either secularizing or becoming sectarian Major challenges are faced when trying to simultaneously build and sustain excellence in undergraduate teaching strengthen faculty research and publishing and deepen the authentically Catholic character of education This book uses the particular case of the University of Notre Dame to raise larger issues to make substantive proposals and thus to contribute to a national conversation affecting all Catholic universities and colleges in the United States and perhaps beyond today Its arguments focus particularly on challenging questions around the recruitment hiring and formation of faculty in Catholic universities and colleges

Being Right Mary Jo Weaver,R. Scott

Appleby, 1995 *Being Right* is a significant book and a good read for anyone seriously interested in contemporary American religion *Nova Religio*. It will be very useful to historians challenging to theologians and indispensable to anyone trying to make sense of the bewildering variety of Catholic presence in the contemporary United States American Catholic Studies Newsletter *Being Right* maps the mental universe of this internally diverse group and offers basic insight into how they see things. The Reader's Review Editors Mary Jo Weaver and R Scott Appleby and their collaborators immerse us in a roiling sea of contested assertion and testimony. *First Things* An in depth look at these groups both as they see themselves and as they appear to trained scholars David J O'Brien College of Holy Cross Compliments must be given to Weaver and Appleby who were able to recruit a distinguished yet impassioned group of essayists for this work *Journal of Church and State* Whether they focus their criticism on pro choice rhetoric and artificial birth control or the removal of religious symbols from public squares the Catholics profiled in this book agree that the contemporary church is in crisis Toward New Dimensions of Catholic Higher Education Louis C. Vaccaro, 1967

The Academic Revolution David Riesman, 2001-11-30 *The Academic Revolution* describes the rise to power of professional scholars and scientists first in America's leading universities and now in the larger society as well. Without attempting a full scale history of American higher education it outlines a theory about its development and present status. It is illustrated with firsthand observations of a wide variety of colleges and universities the country over colleges for the rich and colleges for the upwardly mobile colleges for vocationally oriented men and colleges for intellectually and socially oriented women colleges for Catholics and colleges for Protestants colleges for blacks and colleges for rebellious whites. The authors also look at some of the revolution's consequences. They see it as intensifying conflict between young and old and provoking young people raised in permissive middle class homes to attacks on the legitimacy of adult authority. In the process the revolution subtly transformed the kinds of work to which talented young people aspire contributing to the decline of entrepreneurship and the rise of professionalism. They conclude that mass higher education for all its advantages has had no measurable effect on the rate of social mobility or the degree of equality in American society. Jencks and Riesman are not nostalgic their description of the nineteenth century liberal arts colleges is corrosively critical. They maintain that American students know more than ever before that their teachers are more competent and stimulating than in earlier times and that the American system of higher education has brought the American people to an unprecedented level of academic competence. But while they regard the academic revolution as having been an historically necessary and progressive step they argue that like all revolutions it can devour its children. For Jencks and Riesman academic professionalism is an advance over amateur gentility but they warn of its dangers and limitations the elitism and arrogance implicit in meritocracy the myopia that derives from a strictly academic view of human experience and understanding the complacency that comes from making technical competence an end rather than a means. Christopher Jencks is Malcolm Wiener Professor of Social Policy at the Kennedy School of Government at Harvard University He is the

author of Rethinking Social Policy Race Poverty and the Underclass The Homeless and co editor of The Black White Text Score Gap David Riesman is Henry Ford II Professor Emeritus of Sociology at Harvard University He is the author of Thorstein Veblen Abundance for What The Lonely Crowd and Variety in American Education **Academic Libraries in Urban and Metropolitan Areas** Gerard B. McCabe,1991-11-26 Solutions to the unique problems of academic libraries in urban and metropolitan areas are provided in this professional handbook Issues faced by the administrators of these libraries can differ markedly from those encountered by their counterparts in residential college towns with service demands emanating from both the surrounding community and their own academic community Written by experienced urban university librarians each chapter addresses issues unique to the in city academic library Reaching out to their communities to establish links with business industry and other libraries the administrators of the urban metropolitan libraries require a great degree of diplomacy and management skills Service demands arising from urban high schools place additional pressures on limited resources This handbook shows how the use of new technologies can assist the urban academic librarian in fashioning services for a nonresident faculty as well as a usually older student body comprised of many international and part time students The characteristics of city living and their impact on information seeking behavior are discussed Other topics covered are resource sharing setting fees staff and collection security environmental pollution and space requirements **Women in Catholic Higher Education** Sharlene Nagy Hesse-Biber,Denise Leckenby,2003-01-01 Delving into discourse traditionally silenced by the Catholic hierarchy this edited collection observes the ways in which patriarchal structures often hinder women's advancement within Catholic institutions of higher learning The contributors describe their own conflicts and successes in their attempts to negotiate their academic careers and personal lives in the context of the clash between secular and Catholic patriarchal values The contributors suggest concrete steps toward social justice for women who teach and work in Catholic higher education
