**with a Human Face** Robert Marsh Kloss, Ron E. Roberts, Dean S. Dorn, 1976      **Hegel's Phenomenology of Spirit**  
Richard Dien Winfield, 2013-06-27 Hegel's Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures provides a clear and philosophically engaging investigation of Hegel's first masterpiece perhaps the most revolutionary work of modern philosophy The book guides the reader on an intellectual adventure that takes up Hegel's revolutionary strategy of paving the way for doing philosophy without presuppositions by first engaging in a phenomenological investigation of knowing as it appears That preliminary investigation observes how the prevailing view of knowing that condemns cognition to operating with presuppositions proves unable to justify its own knowledge claims and ends up undermining the distinction between knowing and its object on which that view depends Unlike other studies of Hegel's Phenomenology of Spirit the work rethinks the entire argument with sustained attention to the project that gives the work its revolutionary significance Free of unnecessary jargon and always focusing on clearly unraveling the argument in its entirety Hegel's Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures will be indispensable to undergraduate and graduate students of philosophy Hegel scholars and anyone interested in tackling the radical project of doing philosophy without foundations      Serge Chermayeff

Viefhues-Bailey, 2016-12-05 Based on a detailed analysis of gender in Stanley Cavell's treatment of the skeptical problem this book addresses the relationship

between gender and religion in modern skepticism Engaging in dialogue with Julia Kristeva's philosophy Viefhues claims that a religious problem underlies Cavell's understanding of the feminine The feminine which the skeptic fears is construed as a placeholder for the beyond marking the transcendence of our origins which are elusive yet at the same time part of ourselves It is argued that a religious question of origins thus lies at the heart of the modern skeptical problem **Landscape**

David Trenery, 2014-11-06 What should we believe and why should we believe it This book addresses these questions through a critical exposition of the work of the contemporary philosopher Alasdair MacIntyre and of the theologian George Lindbeck the father of postliberal theology The book argues that MacIntyre's philosophical development can be seen as a response to the question of how belief in a comprehensive metaphysical system can be justified Such a system provides its believers with an account of the nature of the universe and human nature and a basis for their ethical reasoning and action The book draws on Lindbeck's cultural linguistic account of religion to argue that such a system is primarily a way of interpreting the world and the place of humanity within it rather than a speculative theory The justification of belief in such systems can be understood in terms of MacIntyre's account of tradition constituted rationality provided that this notion of rationality is made more specific by the incorporation of elements of Lindbeck's theology Equally the book argues that Lindbeck's theology can be strengthened by the incorporation of elements drawn from MacIntyre's work This book will be of value to students of philosophy and theology and to the general reader who is interested in the question of the grounds of belief **Community Health Nursing Practice** Ruth B. Freeman, Janet Heinrich, 1981 **System of Christian Ethics**
